# FAST FORWARD YOUR DREAMS

2023 ANNUAL AND SUSTAINABILITY REPORT

## **About the Cover**

#### **Fast Forward Your Dreams**

This year, EastWest returns to pre-pandemic performance levels.

This robust recovery is a testament to its steadfast commitment, strategic planning, and capacity to adapt and to flourish in a challenging environment.

Central to this is the new wave of fresh talent, pushing forward with a new energy for progress and innovation—creating value for the Bank's customers as well as its stakeholders.

EastWest moves fast forward to help you realize your dreams.

#### Fast Forward The Filipino

Filinvest Land, Inc. (FLI) remains dedicated to helping build the Filipino dream, leading Filipinos forward and upward.

The cover of this year's annual report emphasizes this deeply set commitment, with double block arrows symbolizing accelerated movement towards a brighter

FLI never loses sight of our core customers, the average Filipinos, who dream of owning their home, be it landed housing, mid-rise or highrise condo unit.

#### **Our Identity**

East West Banking Corporation (EastWest) is one of the largest universal banks in the Philippines

We cater to the financial needs of a wide range of customer profiles. Our products and services are made available across multiple distribution and delivery channels, presenting a comprehensive range of deposit products consisting primarily of Peso demand, savings, and time deposits. The Bank extends offerings in U.S. dollar and other foreign currency savings and time deposits. In terms of loans, the Bank provides a spectrum of options, ranging from consumer loans—covering auto, mortgage, and personal needs—to corporate loans. Furthermore, the Bank furnishes various payment solutions, including debit, prepaid, and credit cards.

As of December 31, 2023, our multiple customer touch points include a network of 468 stores, of which 392 are FastWest parent bank stores and 76 are stores of EastWest Rural Bank. Our ATM network is at 584, composed of 476 on-site ATMs and 108 off-site ATMs. Internet banking for individuals and corporates (EastWest Online), mobile banking (EasyWay), phone banking, and 24-Hour EastWest Customer Service are also available for the convenience of our customers.

EastWest is a subsidiary of Filinvest Development Corporation (FDC), one of the country's leading conglomerates with diverse interests ranging from real estate, banking sugar, hospitality, power generation, to infrastructure. Since 2012 EastWest has been trading under the symbol "EW" in the Philippine Stock Exchange (PSE). It is not affiliated with any foreign financial institution which may bear the same name.

As of end-2023, EastWest had 8,165 full-time employees.

#### **Our Motivations**

#### Vision

To be a world-class bank anchored on service excellence in our chosen markets.

#### Mission

To create value:

For our chosen markets,

by providing them with excellent service in the delivery of integrated and innovative products responsive to their current and future financial needs, at the best value.

For our employees,

by providing them with oppurtunities to develop their full potential and by giving recognition and rewards commensurate to their contribution.

For our community,

by committing ourselves to improving the quality of life of those around us through the support for various charities and involvement in outreach activities.

by uncompromisingly adhering to the highest standards of business ethics and corporate governance.

For our shareholders,

by managing the Bank professionally and prudently to consistently achieve optimal possible return.

#### **Our Methods**

#### **Brand Pillars**

• Insightful expertise directed towards your priorities

• Dedication to making banking easier for you

• Entrepreneurial spirit to realize our collective best potential

#### Service Pillars

Personable: Warm and positive attitude, genuine sentiment, and personal concern for the customer's well-being and business affairs.

Dependable: Dedicated to making banking as easy as possible for the customer — taking the effort away whenever we can but with professional regard for due process.

Proactive: Actively listening, offering the right information at the right time, considering what the customer needs with thoughtful cross-selling.

# One Tree. One Heart. ONE FILINVEST

## **One Filinvest Values**

EastWest is backed by the strength and resources of our parent company, Filinvest Development Corporation (FDC), one of the country's leading conglomerates which has interests in banking, real estate, hospitality and tourism, power generation, infrastructure, and sugar.

As the universal banking arm of the Filinvest Group, we share One Filinvest Values which guide all Filinvest companies in enabling Filipinos to achieve their dreams.

- Customer Centricity Keep our customers top of mind.
- Change for the Better Innovation and agility rule our quest for operational excellence.
- Filinvest Family Invest in bringing out the best in ourselves and our team.
- Entrepreneurial Mindset Pursue new opportunities and take ownership of our decisions.
- Share Benefit Grow hand in hand with our stakeholders.
- Trustworthiness Deserve and preserve trust.

## **EastWest Bank Awards**

The support we received from our stakeholders helped us turn dreams into reality, and we're excited to keep creating an even brighter future together.

# 2023 Financial Highlights

"We recognize the profound commitment and relentless pursuit of aspirations that drive us forward. Rooted in a heritage of timeless values and fueled by a passion for innovation and efficiency, we have crafted a banking institution capable of journeying alongside our customers, mile for extra mile."

Looking back at 2023, it's clear that our collective dedication and strategic endeavors have propelled us to accomplish substantial milestones, fortifying our competitive position in the banking industry. This achievement is more than just recognizing our successes; it's about honoring our commitment that has guided us through decades of challenges, shaping our identity, and positioning us where we are today. Moving forward, we remain steadfast in delivering sustainable results, ensuring success for all our stakeholders.

# Legacy of Resilience and Determination

As I reflect on the timeless wisdom of the Chinese proverb, "A journey of a thousand miles begins with a single step," I am reminded of our humble beginnings. Our story commenced with my late parents, Andrew and Mercedes Gotianun, who established a small second-hand car financing business at P. Casal, Manila in 1955. From this humble start, our ventures expanded into consumer lending, real property acquisitions, and bold ventures in real estate development. Over time, our journey led us to diversify into infrastructure, utilities, sugar, and hospitality, with banking emerging as a cornerstone.

August 1994 marked the birth of EastWest Bank, etching a significant milestone in our legacy. As we celebrate 30 years, symbolized by the pearl—a gem born from the gradual transformation of tiny specks of sand—we reflect on the wisdom and evolution gained through experience and adaptability.

Our journey over the past three decades highlights the values of patience, focus, and dedication. As we commemorate our Pearl Anniversary, we proudly carry on the legacy of the Gotianun family—a heritage defined by entrepreneurial spirit, perseverance, integrity,

and forward-thinking mindset, values instilled by our parents and passed down through generations.

#### The East and West in Us

EastWest blends its Eastern heritage of collectivism and collaboration with Western innovation, promoting prosperity and progress through harmony. Throughout 2023, our commitment of focusing on our key customer segments, digital enablement, and transformation has been pivotal, propelling our growth, strategic realignment, and organizational advancements to unparalleled heights.

Our approach intertwines cutting-edge technology with a personalized touch in customer service. While we harness the power of digital channels for heightened productivity and performance, we recognize that genuine human connection is still important for our customers. This steadfast dedication to excellence propels us to continually innovate and elevate the quality of services we provide to our customers.

EastWest excelled in 2023 with earnings of Php 6.1 billion, a robust 32% growth. Our focus in consumer loans drove significant portfolio growth, particularly in auto loans, personal loans, teachers' loans, and credit cards. Meanwhile, our CASA deposits remained healthy, growing by 12% to reach Php 292.4 billion.

The expansion of EastWest's footprint—now comprising 392 Stores from the unibank and 76 branches from our rural bank subsidiary, coupled with our digitally innovative app services like Komo, EastWest System Tech Assistant (ESTA), and EastWest Pay—have widened our reach and the ease of accessing our services significantly. We prioritize customer experience through EastWest Online Personal (EWOP). This tool provides secure and

## Message from the Chairman

convenient banking services, including account management, bill payments, check deposits, and money transfers.

to experience gradual recovery, the ASEAN region, led by the Philippines, is anticipated to show faster growth. Favorable trends,

Our focus on our customers' needs and preferences while embracing digitally innovative products has earned us recognition from renowned organizations in the banking and financial services sector. International Finance Magazine honored our wealth management service with the title of Best Priority Experience, while Global Finance Magazine recognized EastWest Priority as the Best Private Bank. Additionally, Komo was celebrated as the Most Innovative Smart Banking Service of 2023 by International Finance Magazine, and our EastWest JCB Credit Card was crowned the Best Credit Card by the Asian Banker. These laurels testify to the hard work and determination of our people to make EastWest the bank of choice for customers.

We are committed to embarking on a journey of continuous growth, innovation, and excellence, ensuring that EastWest remains at the forefront of the banking industry, catering to the diverse needs of our customers and stakeholders with distinction.

#### **Moving Forward and Fast**

The past year presented global challenges, with geopolitical tensions, economic uncertainties like high inflation, and volatile market conditions affecting growth prospects. Factors such as China's economic slowdown and U.S. election dynamics added further complexity to the global economic landscape. However, despite these challenges, there are positive signs for emerging markets in 2024. While Europe and the Americas are expected

to experience gradual recovery, the ASEAN region, led by the Philippines, is anticipated to show faster growth. Favorable trends, including improvements in the Philippine stock index and expectations of easing inflation and interest rates, suggest a more optimistic economic outlook as the year progresses.

EastWest Bank, with its deep understanding of consumer needs nationwide, is well-positioned to leverage these advantages in the coming years. We stand ready to harness this momentum, poised to chart a course towards unprecedented growth and success.

#### A Bright Future Ahead

In conclusion, we recognize the profound commitment and relentless pursuit of aspirations that drive us forward. Rooted in a heritage of timeless values and fueled by a passion for innovation and efficiency, we have crafted a banking institution capable of journeying alongside our customers, mile for extra mile. Whether it's providing access to cutting-edge technology or ensuring every interaction is imbued with empathy and respect, we consistently strive to exceed expectations. With a dedication to going above and beyond, we steadfastly uphold our promise to make your dreams our focus.

I extend heartfelt gratitude to our esteemed Board of Directors, our visionary Senior Management team led by Jerry and Jackie, and our dedicated EastWestbankers—the trailblazers who propel us toward an everbrighter future. With unwavering confidence in our renewed strategy, ongoing digital transformation, and progress in priority areas, we stand poised to achieve banking leadership in the near future.

Lastly, I extend profound appreciation to our valued customers and stakeholders for entrusting us with their financial needs and aspirations. Your support serves as a beacon of inspiration, driving us to relentlessly pursue excellence in service. Together, we embark on a journey toward a future brimming with promise, innovation, and unparalleled success. As we celebrate the Bank's Pearl Anniversary, we reflect on three decades of growth, resilience, and service to our customers, marking our testament to our enduring commitment to excellence in banking.

Jonathan T. Gotianun
Chairman of the Board

In 1994, EastWest emerged with a vision—to be a bank that prioritizes customers, fosters entrepreneurial vigor, and fuels local economic growth. Now, as we celebrate our 30th year, we reflect on how we've stayed true to this vision. Our approach has remained consistent from the beginning—blending the traditional prudence, warmth, and hospitality of the East with the efficiency and progressive thinking of the West to create banking solutions that cater to the holistic needs of our diverse customer base. We continue to shape a story of success and excellence, all while remaining

deeply anchored in our dedication to our customers and the advancement of our nation.

EastWest's narrative will intertwine with our country's future. And as CEO, my mission is clear—to ensure that EastWest's strategies, actions, and energies align seamlessly with the Philippines' success story.

In this era of the "know me," "empower me," and "wow me" generation, our focus is on understanding our customers better than anyone else, remaining relevant throughout

their life journeys and executing a "Digital First" strategy. With a youthful and dynamic population known for embracing innovation, we aim to leverage this demographic advantage and capitalize on consumption-driven growth. Aside from our young population, the other key drivers for the Philippines' progress include a growing middle class and the rapid development of key cities outside Metro Manila. As we look ahead, the Philippines has significant growth potential, especially with increased foreign direct investments (FDIs) and promising sectors like e-commerce, wholesale and retail distribution, and Business Process Outsourcing (BPO).

#### **Actualizing our Brand Promise**

As our own journey of innovation and trailblazing unfolds, we envision EastWest Bank achieving its goal of being amongst the top Philippine consumer banks soon. What distinguishes us is our ability to navigate swiftly, akin to a smaller yet more agile version of our larger local counterparts.

Our 2023 performance stands as a testament to our potential and capabilities, offering a clear indication of what EastWest can achieve in the years ahead. However, to become one of the top consumer banks in the Philippines, we recognize the need to outperform our competitors and further elevate our growth trajectory. As we navigate the path ahead, we need to sustain growth rates that surpass industry benchmarks and propel the Bank towards its objectives. We must continually challenge ourselves to identify opportunities and strategies that will drive and maintain this heightened level of growth.

To accelerate our market strategy, we're reinforcing our commitment to our core strengths in consumer loans for both the mass and mass affluent segments. Our consumer lending business, centered around credit cards and personal loans, thrives on, and will be consistently sustained by the valued collaboration and trust of our affluent and business clientele. The symbiotic relationship of these two major Business Units enables us to tailor our offerings to meet their unique financial needs, ensuring mutually beneficial growth and prosperity.

This will be anchored on a Superior Value Proposition for our customers. We will be centering ourselves on the needs of our customers, putting together the right products for the right market segments. We do not sell car loans; we empower customers to buy their dream car. Similarly, we provide more than just a housing loan; we offer the opportunity to create a home. Moreover, we seek to unlock additional value for our corporate clients by fostering an ecosystem approach for our ancillary businesses. Leveraging on our cash management services, we will deliver tailor-fitted solutions to the needs of our anchor corporate clients and their clientele.

We will localize and contextualize our value propositions in high-growth regions to further enhance our position. We will maximize our resources in these areas to capitalize on promising opportunities. To deliver our propositions, we must embed ourselves seamlessly to our customers' daily lives—it should be *fast* and *easy* for our customers. We will continue to bolster our digital channels, with the goal of expanding our market reach and customer satisfaction, and at the same time, reduce sales and operational costs.

#### **Differentiating through Technology**

We will continue to advocate a "Digital First" mindset, maximizing a data-driven approach across all digital capabilities. Our proactive stance on adopting technological innovations to anticipate future trends is fundamental to maintaining our competitive edge.

Strengthening Capacity: The Bank relies on its robust IT infrastructure and advanced technologies to promote operational resilience and remain competitive. To this end, we prioritize updating our enterprise architecture, upgrading platforms, and fortifying core systems to ensure reliability, heightened security, and enhanced responsiveness. Central to this effort is the development of a robust technology stack, underpinned by a responsive data infrastructure.

Security Fortification: The changing business landscape has added unseen risks and threats to physical security. EastWest will continue to ensure the integrity of our banking operations

as well as customers' safety and security by elevating our technology, maintaining training programs, and practice risk mitigation through more advanced controls and counter measures. In this modern era, we are stepping up and keeping a winning streak by taking advantage of emerging technologies.

Service Enhancement: Acknowledging that technological advancements must align with enhanced services, we created the new Strategy and Transformation Office and the Business Analyst Group. This initiative aims to streamline operations and elevate customer experiences while also optimizing costs to boost profitability. Drawing insights from fintech competitors, we aim to deepen our understanding of consumer behaviors by integrating customer journey mapping into our organizational DNA and processes. As we pivot our assets towards higher-vielding loan products, we'll streamline the credit decisionmaking process to expedite loan application approvals. Our focus extends beyond mere digitization; we aim for seamless end-to-end processing.

Setting up our Workforce for Success: As we continue to invest in our pursuits, we also continue to upskill our people. At EastWest, we cultivate the best talents from different backgrounds and unique perspectives. We promote professional development and create an environment where they can thrive and contribute effectively, giving us the edge in handling challenges and delivering first-class service to customers, communities, and one another.

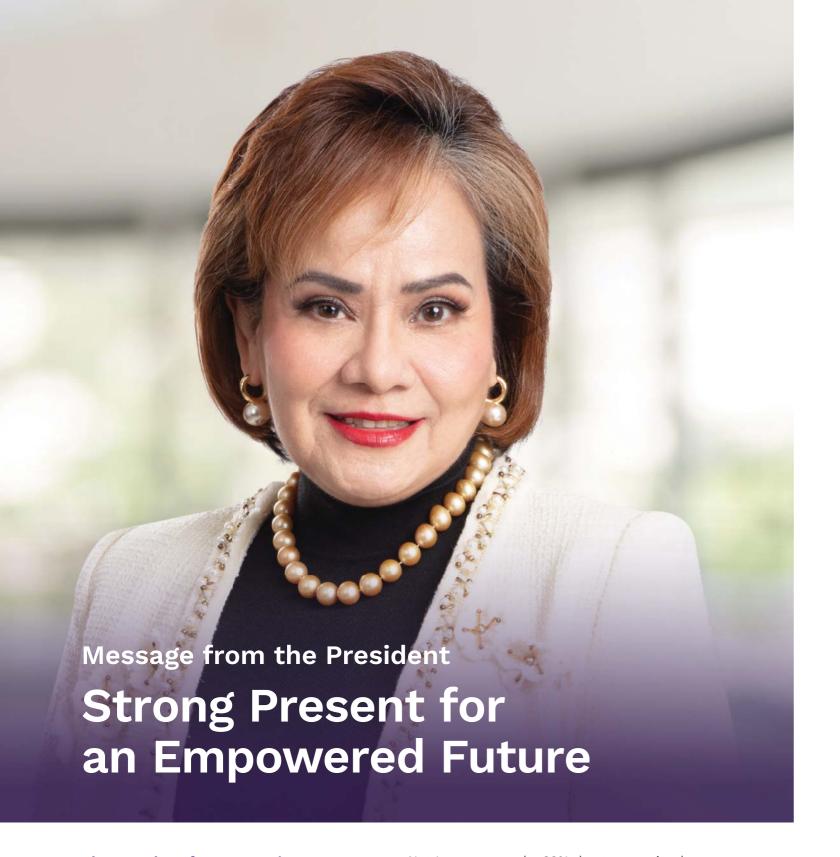

#### **Moving Forward with Determination**

Our dedication to social responsibility drives us to make meaningful contributions to the communities we serve. Through sustainable initiatives and partnerships, we aim to create lasting positive impacts on society and the environment. And as we move forward, our commitment to risk management and governance remains steadfast. This dedication to stability and accountability underpins our journey towards sustainable growth and in shaping the future of consumer banking in the Philippines.

I wish to extend my profound gratitude to the esteemed members of the Board, whose visionary leadership continues to guide us forward. I also want to recognize the unwavering dedication of our devoted management team and the tireless efforts of each and every hardworking employee at EastWest. Their passion, creativity, and relentless pursuit of excellence are the driving forces behind our success. Their contributions, big and small, promote an EastWest culture that fosters growth, innovation, and teamwork.

We are grateful to our partners and collaborators for their invaluable contributions and support which have been pivotal in helping us deliver a strong performance and enhance customer experiences throughout the year. Additionally, my sincere appreciation goes out to our valued clients and shareholders. Your support and confidence in our endeavors inspire us to reach greater heights. We deeply value the trust you place in us and are dedicated to consistently delivering value and excellence. Please rest assured that we remain steadfast in our commitment to achieving our business goals, continually striving for innovation, growth, and excellence in all that we do.

Jerry G. Ngo

#### The Results of Our Pursuits

In spite of the market volatility, competition, and geopolitical tensions, the steps we have been taking to strengthen the organization and propel it into the future have already yielded significant gains. It is with pride that we report that our Bank delivered a strong performance in 2023.

Net Income grew by 32% due to sustained consumer loan growth and strong deposit generation. Net Revenues grew by a hefty 26% to Php 35.7 billion. Aligned with our goal towards becoming one of the top consumer banks in the country, we shifted our asset mix towards higher earning consumer loans. We doubled down on our consumer lending business resulting in the share to total loans of our Consumer Loans increasing from 73% in 2022 to 80% in 2023.

Our consumer lending portfolio grew by Php 237.3 billion or 25%, accounting for 80% of our total loans, the highest proportion among our peer banks. Credit Card Receivables grew the fastest by 31% to Php 53.8 billion. It is followed by Personal and Salary Loans which grew by 28% to Php 76.9 billion and then Auto Loans by 25% to Php 86.8 billion.

At the same time, we placed more emphasis on generating low-cost deposits through our Cash Management Services. This allowed the Bank to increase its low-cost deposits by 12% to Php 292.4 billion, surpassing the 2023 industry average of 3%. The higher mix towards higher earning consumer loans coupled with the growth in low-cost deposits allowed the Bank to sustain its healthy net interest margin of 7.6%, a little better than the 7.1% of 2022.

Non-Interest Income grew by 51% to Php 7.4 billion. Fees and commissions increased by 26% to Php 4.8 billion as banking transactions grew in line with lending growth. Trading Income also contributed Php 993.6 million to Non-Interest Income growth, growing more than five times in 2022.

We ended the year with a robust balance sheet. The Bank's total assets stood at Php 464.2 billion, growing by 10% from the previous year. Capital ratios continue to stand at a healthy 13.8% and 13.0% for Capital Adequacy Ratios (CAR) and Common Equity Tier 1 (CET1) Ratio, respectively, well above the regulatory requirements. This resulted to a Return on Equity (ROE) of 9.5%, up by nearly two percent from the previous year.

We intensified our activities across the mass affluent, priority, and business segments, which yielded an 8% growth or Php 356.5 billion in total deposits and a 7% growth in our depositor base. We, nonetheless, need to shore up our customer base with better

value propositions to close the gap between our Php 774 million per store and the industry average of Php 1.1 billion. We also saw growth in our Assets Under Management, which posted an increase of 17%, to end the year at Php 61.4 billion. However, operating expenses were higher by 19% at Php 20.3 billion, heavily spurred by our investment in manpower, information technology, and efficiency improvement. Nonetheless, this was prevailed on by faster growth in revenues, resulting in improved cost-to-income ratio of 57% from the previous year's 60%.

#### The Path to Digital Transformation

In 2023, EastWest Bank achieved significant milestones in its digital endeavors, showcasing remarkable growth and innovation. We noted a huge leap in the number of users and their banking activities across all our digital services. Our EastWest Online Personal (EWOP) and its mobile application saw a 33% increase in the total number of registered users and a 9% increase in active users.

EastWest System Tech Assistant (ESTA), the bank's chatbot on Facebook Messenger, experienced a surge in usage, with 51% of EastWest credit cardholders utilizing its AIpowered services for inquiries, requests, and transactions. Additionally, EastWest Bank introduced EastWest Pay, a pioneering instore payment app leveraging NFC technology, which garnered substantial traction among Visa credit cardholders with Android devices. With all these continued innovations, Komo continues to grow—doubling its user base in 2023 at 116% increase vs. 2022, with over 81% monthly active usership and being among the highest-rated financial apps in the Philippines at 4.7 for Google Play Store, 4.5 for Huawei App Gallery and 4.4 for Apple App Store by end of

"We are eagerly anticipating the opportunities that lie ahead. We have a multitude of initiatives planned to elevate our customers' banking experience and solidify our relationship with them. The economic impact from the demographics of the country will be a tremendous opportunity for the Bank. EastWest is well-prepared to ride the waves of change and take on this business landscape."

#### The EastWest to Be

We are eagerly anticipating the opportunities that lie ahead. We have a multitude of initiatives planned to elevate our customers' banking experience and solidify our relationship with them. The economic impact from the demographics of the country will be a tremendous opportunity for the Bank. EastWest is well-prepared to ride the waves of change and take on this business landscape.

We will prioritize strategic investments in our people to equip our team with the necessary skills and knowledge to successfully navigate these dynamic times. Our belief is that by empowering our employees, we can deliver exceptional service and innovative solutions to our customers.

In addition to this, EastWest is committed to maintaining a robust risk management and governance framework. We recognize the importance of managing risks effectively to protect our stakeholders' interests and ensure the long-term sustainability of our operations. By implementing stringent risk controls and adhering to best practices in governance, we aim to build a more resilient and trustworthy banking institution.

As we look forward to the future, we are confident that our proactive approach, combined with the continuous support of our stakeholders, will enable us to achieve our goals and create lasting value. We would like to extend our heartfelt appreciation to our clients and investors for their steadfast support. Their continued trust through the pandemic has been pivotal as we continue to forge new paths of growth and greatness. We would also like to express our deep gratitude to our Senior Management team and

our dedicated EastWest employees for their tireless efforts and invaluable contributions. Their hard work and dedication have been instrumental in navigating challenges and ensuring EastWest's continued success and growth. We are truly fortunate to have such a talented and dedicated team driving our mission forward.

The EastWest team remains committed to delivering sustainable results and together, we will continue to grow, innovate, and make a positive impact in the banking industry and the communities we serve.

## **Performance Review**

# Satisfaction to the Utmost Degree

We have implemented innovative strategies tailored to meet the diverse needs of our well-profiled customer segments: mass, mass affluent, and affluent. By offering a range of deposit, investment, credit card, and loan products, we're driving growth and catering to a wide audience, from basic savings accounts to premium services for professionals and business owners. This customercentric approach ensures we deliver tailored solutions that resonate with everyone's financial goals and lifestyles.

**BUSINESS HIGHLIGHTS** 

#### **Distinctive Retail Banking**

Over the past year, EastWest has experienced significant growth, particularly in deposits, which has surged by 8% year over year (YoY), in line with industry trends. Notably, we saw an exceptional rise in low-cost deposits, soaring by an impressive 12% YoY. This accomplishment has resulted in an 82% Current Account Savings Account (CASA) ratio, reflecting our strategic focus on bolstering our funding base with low-cost deposits. Our success can be attributed to several key initiatives:

Firstly, the implementation of Project Carbon Sales Transformation has played a pivotal role. This initiative involved establishing a standardized sales culture, equipping our team with new capabilities, and investing in the professional development of our workforce. The introduction of customer segmentation initiatives has been instrumental in enhancing customer centricity. By gaining deeper insights into the diverse needs of our clientele, we have been able to provide more tailored financial products and solutions.

Additionally, our efforts to engage with customers on a local level have yielded positive results, strengthening relationships and fostering deeper connections within our communities. Various grassroots-level engagement programs have facilitated meaningful interactions with clients, enhancing trust and loyalty. The EastWest team participated in several festivals such as Sinulog in Cebu and Masskara in Bacolod to celebrate local traditions and showcase our commitment to community involvement. Our strategic investment in data

analytics has positioned us for future success. Leveraging a robust cloud infrastructure, we have derived valuable insights and developed models that enhance our ability to serve customers through data-driven projections and automation.

#### **Holistic Wealth Management**

The Bank's impressive trajectory in Wealth Management is reflected in our Assets Under Management (AUM), which reached Php 57 billion (USD 1 billion) by the end of 2023. This marks a 3-year Compound Annual Growth Rate (CAGR) of 13%, showcasing the Bank's consistent upward trajectory. Compared to 2022, where the AUM stood at Php 48 billion, this represents a remarkable 19% growth.

We expanded our physical presence by opening three Priority Centers in strategic locations: San Fernando, Pampanga; Meriton One, Quezon City; and Grace Park, Caloocan. These new centers not only enhanced our service offerings but also strengthened our footprint in key areas.

The Bank actively engaged with the community and its clients through various events and sponsorships. We celebrated the Chinese New Year and the Mid-Autumn festival with special events for our affluent clients. Additionally, we hosted Midyear Market Outlook sessions across Metro

Manila, Cebu, and Davao to provide valuable insights to our stakeholders. To further support our clients, we organized local economic briefings in Pampanga, Baguio, and CDO. Our commitment to community involvement was evident through our sponsorships, including the Sinulog golf tournament and concert, as well as partnerships with affluent villages, residential areas, golf clubs, and ivy league alumni associations.

Our Wealth Management arm's excellence in service did not go unnoticed, as evidenced by the accolades we received. The International Finance Magazine Awards 2023 recognized EastWest Bank for its outstanding Priority Banking Experience in the Philippines. Additionally, the Global Finance Awards honored the Bank as the Best Private Bank in the country, underscoring its prowess in wealth management and client services.

With a 16% increase in total client count vs. 2022, we continue to expand our reach and deepen our connections within the community. The average portfolio size per client relationship stands at approximately Php 7.5 million (Usd 160,000), indicative of the Bank's ability to cater to diverse client needs and provide tailored financial solutions. Our highly skilled

Relationship Managers spread across 11 locations nationwide, ensuring comprehensive coverage and accessibility to clients across different regions.

#### **Bespoke Loan Offerings**

In our pursuit of transforming dreams into reality, our Auto Loans, Home Loans, and Personal Loans stand as pillars of promise. We have made it easier for consumers to secure financing by offering collateral-free loans with competitive interest rates and affordable repayment terms. We pledge our dedication to crafting unparalleled financing solutions tailored to the myriad aspirations of our clientele. For within each loan we offer, lies the potential to ignite a spark, to pave the path towards fulfillment, and to usher in a future brimming with possibilities.

The Bank's utilization of digital acquisition and score-based underwriting gave far-reaching advantages. On top of this, with credit policies being more relaxed and our acquisition efforts being more aggressive, it is no wonder that new Personal Loan bookings significantly increased by 78% in 2023 from the previous year.

EastWest aims to sustain this momentum through focused digitization and hypersegmentation. Digitization initiatives will be perpetuated in the entire customer

### **Performance Review**

experience from marketing, onboarding, and all the way to fulfillment. The Bank also intends to execute targeted and customized programs for diverse customer segments while modernizing policies to adapt to evolving markets.

Meanwhile, our Auto Loans business grew new bookings by an outstanding 59% from Php 26.9 billion in 2022 to Php 42.6 billion in 2023. Gross receipts from these bookings naturally increased from Php 69.3 billion to Php 86.8 billion, a 25% growth and contributing a hefty 29% of the Bank's total gross loans.

As one of the leading auto loan providers in the country, EastWest has been relentless in widening its territory through reinforced dealerships and strong brand alliances. In July 2023, the Bank formalized partnerships with Mitsubishi Motors Philippines, the country's second-biggest seller of vehicles and with Nissan Philippines, another contender for the top seller of vehicles in the country.

Meantime, our Home Loans business was able to deliver an equally outstanding performance, drawing in Php 19.9 billion in receivables. Our product suite for home ownership financing, Home/ Condo Acquire, Lot Acquire, Home Construct, Home Equity, and Top-up Loan are captivating more and more customers. The business was heavily promoted through a very aggressive broker incentive program targeting both existing and newly accredited developers, as well as an enhanced store incentive program. Additionally, we participated in several brandbuilding and lead-generation events.

#### **Becoming the Best Credit Card**

Consumers' changing lifestyle and growing needs have led them to turn to reliable and suitable sources of easy credit. As such, the Bank focused on pushing income from its credit card business by serving customers better in areas where it is most needed. In 2023, our Credit Card Receivables grew by a robust 31%.

Gradually, EastWest is inching towards its ambition of being a Top Credit Card Issuer in the Philippines and this cannot be further from the truth as we saw a 45% growth in Card Revenues from 2022 and 27% growth in cardholder engagement.

We continued to work with our scheme partners, such as JCB, with its Japan Fiesta event and several attractive Card Acquisition initiatives targeted to attract new EastWest credit cardholders. A year after it was launched, the EastWest JCB Credit Card was awarded

The Asian Banker's "Best Credit Card in the Philippines" Award for 2023, following exceptional customer offerings by EastWest and JCB.

We also successfully relaunched our EastWest Visa Platinum Credit Card with the "Best in Class" cash rebate offer of 8.88%. The relaunching aimed to promote high social visibility in the mass affluent market scene in the EastWest Gala Night held at the 5th Rockwell Mall in July 2023.

Our successful collaboration with Singapore Airlines remains. First launched in 2019, the EastWest Singapore Airlines KrisFlyer Mastercard is positioned as the bestin-class airline co-brand card in the Philippines that enables cardholders to fulfill their aspirations to travel by earning miles faster. The card boasts a generous spend-tomiles conversion rate, with cardholders earning three times more miles when they spend on Singapore Airlines Group, e-commerce and crossborder.

Our continuing success was the fruit of hard work and determination as we pressed our year-round fuel discount partnership with Unioil and alliances with online shopping platforms (Lazada, Shopee, Zalora). We reinforced ongoing promotions through our Perks Program, Travel Perks, Dining Perks, and Hotel Perks, and our tie-ups not only with Filinvest's Crimson and Quest Hotels and Resorts but with other partner hotels not only in Metro Manila but in key cities in several provinces.

#### **Broader Business Banking**

The Bank saw increased business banking activities when it applied a new and unprecedented approach in marketing its services. By employing both industry-focused and hyper-local plan of action, EastWest was able to focus on high-growth industries that have a strong network of customers and prolific industries in specific regions in the country.

We are dedicated to broadening our ecosystem to encompass industries where we matter most. Whether it is for a small, medium or large-scale company, the Bank aims to increase its share of the business market by enhancing digital solutions and expanding its cash management services.

From collections, disbursement, payroll services, liquidity management, eGov, and a host of other business transactions, we utilize our administrative, financial, and digital competencies to address general and specific business clients' requirements. The Bank does not have a

one-size-fits-all template but offers a bespoke product suite for every industry.

In 2023, our Cash Management Services significantly helped in filling up corporate CASA with Php83.7 billion, higher by 11% than last year's Php 74.1 billion. This can be attributed to 5,627 new enrolments or 22% more than in 2022.

# **Elevating Customer Centricity**

Best customer service in EastWest cannot be empty talk, which is why we continually improve, enhance, and ensure that processes are being executed at an optimal level. The Bank lists several small and big initiatives intended to elevate our customers' best experience:

- We proactively informed our customers by sending advance notices for accounts maturing in 2024 and 2025 that are part of the Bayanihan program. This initiative ensures that our customers are well-informed and prepared for their upcoming account maturities. Moreover, a dedicated Hotline number and Customer Service Representatives were set up to address Bayanihan-related inquiries.
- Under our One Call Resolution Campaign, we worked towards the improvement of our Call Center service by halting all call transfers (except those for Lost Cards) and having the Customer Service Representative handle and resolve concerns aptly. This initiative significantly impacted service level across all splits, bringing down call volume and improving CSAT on transfer waiting time.
- We have improved the Interactive Voice Response System (IVRS) by introducing numerous enhancements:
  - a. A One Time Pin (OTP) is sent to the client when calling the hotline prior to being connected to a Customer Service Representative.

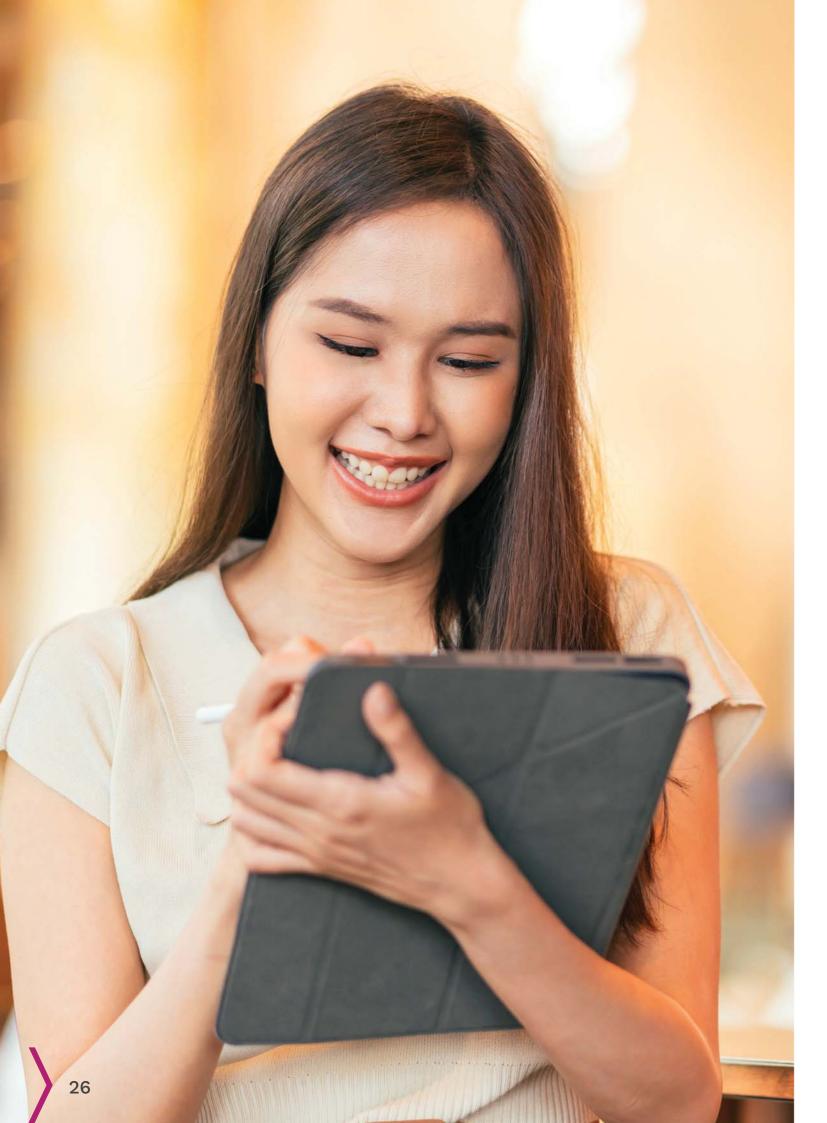

- b. Online Banking Option Availability enables clients to directly speak to an Online Banking Customer Service Representative (CSR) specialist to curtail the long wait time.
- The Bank developed a tool which automatically enrolls Newly Booked Personal Loans under the Automatic Debit Arrangement (ADA).
- We developed a Social Media Tracker to monitor feedback across various platforms, providing valuable insights to enhance our customer engagement strategies. Call Interaction is monitored by the Screen Capture Recording capability to ensure that CSRs apply the correct tools in addressing customers concerns.

For us to be a true customer-centric organization, we define and measure key indicators that ensure our adherence to our consumer protection policy. Thus, we came up with the Customer Experience Key Result Areas (CX KRA). In 2023, CX KRA was implemented as part of the functional KRA of Business Units. All the existing and baselining metrics are reported in a dashboard which aims to show trends and identify causes of clients' pain points. In line with this, we launched a Touchpoint Heatmap which monitors the adherence of different EastWest channels available to our customers.

Our fully devoted department for Customer Experience has accomplished several initiatives that will level up our consumers' rights and protection as well as elevate positive experience leaving little room for complaints.

- Completion of the Bank-wide consumer protection policy (CPP) gap analysis and submission to Bangko Sentral ng Pilipinas (BSP) in lieu of the new provisions under BSP Circular 1160 last December 21, 2023
- Creation of the EW Customer-Centric Champion Training Curriculum
- Creation of a new complaints
  handling policy in compliance with
  BSP Circular 1160 which provides
  for enhanced handling of customer
  concerns to ensure an improved
  and effective resolution process
- Implementation of enhancements in the current complaints tracking systems such as inclusion of additional data trending points for better data analysis
- Publication of the Touchpoint Heatmap
- Integration of the Closed Loop Feedback and Net Promoter Score in the current CSAT survey
- Use of QR code as a channel for our customers to share their feedback
- Installation of a store validation process as a mechanism to check adherence to the store display standards
- Delivery of 100% Operational Risk
   Management Compliance Rating

24 EastWest Bank 2023 Annual and Sustainability Report

# The Future of Banking

In today's fast-paced world, convenience and control are key. As such, we developed a wide range of digital products, tailored to fit seamlessly into our customer's evolving needs. Our methodology is straightforward yet impactful: we actively listen to our customers' needs, continuously learn from their feedback, and innovate accordingly.

## ESTA (EastWest System Tech Assistant):

- AI-powered Convenience:

   Facebook Messenger may
   be used to securely perform
   numerous credit card tasks.
- Seamless Experience: Balance transfers, convert transactions to installments, and access Insta-Cash-all through chat.

EastWest's chatbot in Facebook Messenger, ESTA, saw heightened engagement in 2023. About 51% of credit cardholder base have used ESTA for various inquiries, requests and transactions using artificial intelligence (AI). ESTA played a big role in increasing the registered number of cards by 37%. During the year, new features and functions were added to ESTA, including:

- ChatGPT or Al-powered customer service representative
- Display of real time transactions including declines
- Redemption of EastWest VISA Platinum rebates
- Real time notification of select declines via SMS
   Virtual card activation/display
- for ecommerce transactions New variations can now accommodate Personal Loans servicing, Auto Auction, ROPA

warehouse management, collections, Customer Service for auto loans, Credit Cards/PL acquisition/application, and even Cards delivery.

#### EW Pay:

- Contactless Payments: NFCenabled Android phones may be used to pay at participating merchants.
- Simple & Secure: Convenience and peace of mind afforded by contactless payments.

We are proud to be the first to implement an in-store payment app that uses a mobile phone's NFC (near field communication) antenna. EastWest Pay is the Bank's latest mobile payment app that allows contactless transactions for EastWest VISA credit cardholders. This is performed using an NFC-capable Android mobile phone at merchant point-of-sale "POS" terminals instead of plastic credit cards.

In June 2023, EastWest Pay or EW Pay was commercially launched to EastWest Visa credit cardholders with Android phones and supported with usage promos with partners ACE Hardware and Watsons from the SM Retail Group, and Jollibee. Over a period of six months, the Bank has recorded 7,290 EW Pay transactions and billings amounting to Php 11.8 million. There were about 7,500 users out of an estimated 100,000 eligible users.

On top of this, EastWest Pay won the Best Product Innovation Award in the Visa Annual Awards of 2023.

#### KOMO:

- Unparalleled Control: Block cards, transfer funds, and pay hills
- Competitive Rates boosted by the efficiency of its digital model.

Komo is more than a mobile app. It is an exclusively digital banking service that allows customers to open and manage their account completely online, anywhere except in physical branches. All bank transactions starting from account opening to card blocking can be done in the comforts of one's home or office or actually, anywhere but the bank by using the mobile app.

Aptly called Komo, which is short for KOntrol MO ang pera mo, in the vernacular, it is also the acronym for Keep Our Money Online. The online channel is the only place where the customer's money moves. There is no need to hold a physical wallet because the app allows customers to enjoy free fund transfers and easy bills payment. Customers have complete control and flexibility over their accounts while enjoying one of the highest interest rates. The app also comes with a customized Komo debit card, that can be used for free ATM withdrawals anywhere in the country. Because there are very minimal costs in a mobileonly business model, EastWest allows Komo customers to enjoy the highest interest rates among local banks.

More and more consumers are using our exclusive digital banking service, Komo. Aside from a high-interest earnings savings account, this online application offers more than basic banking services including teachers' loans, personal loans, insurance, and analytics. Its endto-end features and functions, from online onboarding, management, security, and support have gained more and more users. Komo's user base doubled from 2022 to 2023. The app registered 82% user engagement per month, making it the highest-rated app across all finance apps in Apple Store at 4.4/5, App Gallery at 4.5/5, and Google Play at 4.7/5.

2023 was a winning year for Komo which was awarded the Most Innovative Smart Banking Services Providers in the Digital Bank category during the International Finance Magazine Awards for its efforts in providing a unique set of services and unparalleled customer experience.

experience.

EWOP & EWOC:

- Personal & Corporate Banking: Individuals and businesses can manage accounts, pay bills, and transfer funds with
- Streamlined Business
   Operations: Corporate clients can enjoy eGOV features for seamless payments to government agencies.

EastWest Online Personal or EWOP lets retail customers experience convenient and secure banking from almost anywhere. Whether using the mobile app or the internet browser, personal online banking means the depositor can manage accounts, pay bills, set up recurring payments, deposit checks, securely send money to anyone, view statements, and receive email alerts. These features empower customers with the tools they need to accurately monitor and manage their personal financial activities.

On the other hand, EastWest Online Corporate or EWOC is an online banking tool that allows corporate account holders to perform a heap of business banking activities easily and securely. EWOC lets its customers view balances real-time, manage their savings and checking accounts, send payments to companies, and transfer funds to other accounts. EWOC also allows auto debit and account sweeping arrangements. Additionally, EWOC gives corporate accounts the convenience of the eGOV feature for payment of SSS, Philhealth, Pag-Ibig, and BIR obligations.

The EastWest Online Personal (EWOP) platform and its mobile app experienced a 33% rise in registered users and a 9% growth in active users. Notably, there was a 31% surge in fund transfers to other banks through PESONet, a 29% increase in bill payments, and a 51% uptick in check deposits. Similarly, our EastWest Online Corporate (EWOC) platform saw a significant boost in transaction volume, particularly in corporate bill payments, which soared by 151%. Additionally, there was a 52% increase in fund transfers to other banks via Upload.

Our commitment goes beyond catering solely to tech-savvy or digital natives; rather, we extend our pioneering digital solutions to individuals aiming to achieve their financial success sooner. Whether it pertains to daily funding requirements, special occasions, or retirement planning, the Bank stands ready to provide financial solutions.

## **Operational Highlights**

# Harnessing Technology for Data

In our journey towards technological advancement, we've achieved significant milestones that have revolutionized our operations. Among our proudest accomplishments are the successful deployment of a robust cloud architecture, the establishment of our data lakehouse, the development of a cutting-edge Machine Learning Ops platform, and the implementation of a centralized Reporting solution utilizing Olik Sense for comprehensive management information—truly establishing a single source of truth for our data.

These achievements mark a pivotal moment for EastWest, as they not only signify our transition towards cloud-based operations but also pave the way for a future of innovation and efficiency. With the deployment of our cloud architecture, we've

initiated the process of federating data, facilitating seamless integration across various applications. This foundational step empowers us to build and deploy Machine Learning models swiftly, granting us the capability to seamlessly integrate models and data into any application, thereby revolutionizing processes like credit scoring and decision-making, transforming lengthy approval procedures into mere seconds.

Moreover, our endeavors extend beyond conventional boundaries. We're actively engaged in realtime transaction level fraud detection, a groundbreaking initiative poised to revolutionize security protocols. Once operationalized, this system will enable us to monitor transactions in real-time, swiftly identifying and preventing fraudulent activities.

Furthermore, our cloud data platform is not just limited to technical experts. Through innovative solutions like our Chat GPT-like AI assistant, we've democratized data access. This means that non-technical users can effortlessly extract and analyze data, empowering them to make informed decisions. Imagine simply stating, "write me a code that will show me corporate clients' deposit holdings at Beaufort branch," and our Al assistant generates the necessary code, simplifying complex tasks into intuitive interactions.

In essence, these achievements signify more than technological prowess; they represent a paradigm shift towards a future where innovation, efficiency, and accessibility converge to redefine our organizational capabilities. We stand poised at the precipice of transformation, ready to embrace the endless possibilities that lie ahead.

### **Enabled Workforce:** Ready Supply of Capable & Engaged People

- 749 promotions active as of December 2023, 13% of average headcount
- LinkedIn Learning 100% activation, total of 2,500 active users
- People Centered Leadership (PCL): 5 courses, 41 runs, 1,062 trained with 96% completion rate
- RBG Development Programs: 72 graduates, 58 ongoing, 37 in the pipe; 124 upskilled as Universal Customer Service Associate

- Other Development Programs: 1st Management Development Program (36 participants, 4 internal), CBG Development Program (12 participants)
- Other Learning Programs: Unit Investment Trust Fund (UITF) Certification, Analytics, External and Blended Programs linked to Outcomes Based Development Program (OBDP); Certified Subject Matter Expert for building capabilities of Eastwest Academy
- People Related Orientation for EW Leaders (PROPEL)
- Increased Social Media followership/ mindshare: Heightened frequency, improved branding collaterals/ads (content and form)

- Evolved Performance Management System: shared ownership of People & Culture and Governance deliverables, formalized Enabling Performance Program

- Partnerships in Organization Structure Redesign and Workforce Planning outcomes
- Continuous improvement in Human Capital Processes and Tools: People Analytics Dashboard, Process Simplification, Onboarding of HR Systems

## **Sustainability Report**

Sustainability lies at the core of EastWest's banking success, underscored by our commitment to a consumercentric approach. Central to this philosophy is our recognition of Filipino consumers as the engine propelling our nation towards economic advancement and sustainable development. With every stride we take and with every decision we make, our primary focus remains on the customer. This steadfast dedication drives our pursuit of sustainable growth and societal progress.

#### **Sustainability Framework**

We are working comprehensively with our stakeholders and our parent company, Filinvest Development Corporation, to develop a strong sustainability framework and a set of commitments for specific sustainability areas. Guided by our mission and our strategy, this framework will ensure that management's focus and efforts have maximum impact on relevant Economic, Environmental, Social, and Governance (EESG) aspects, leading to enhanced business opportunities and risk control. The framework will also reference the Global Reporting Initiative (GRI) Standards as well as other emerging sustainability frameworks and international reporting guidelines.

We strive to have a customercentric sustainability mindset by enabling the organization to meet the needs of our customers. We remain committed to managing risks and opportunities relevant to our business EESG practices and to our stakeholders. We identify and address potential risks and carry out initiatives that have a positive impact on our stakeholders, on the environment, and on society. We also espouse transparency of all information related to our performance and on EESG topics that have material impact to our internal and external stakeholders.

We want to develop and keep healthy governance and risk management for all EESG issues. Thus, we continue to embed sustainability principles into our corporate culture and integrate these into our decision-making processes. More specifically, we are strengthening good governance practices through

the Bank's Employee Code of Discipline and Ethics (Code of Conduct), Whistleblowing Policy, Ethics-Direct initiative, Equal Opportunity policy, Consumer Protection program, and employee grievances mechanism.

#### Materiality

For financial and non-financial reporting, we assess materiality from Economic, Environmental, Social, and Governance perspectives. We have identified the following material topics that are relevant to present and potential issues that matter most to all our stakeholders. Sustainable materiality is evolving but those indicated below allow us to address stakeholder concerns and ultimately help in managing our business better.

Material Topics	
Economic	<ul> <li>Economic value distributed (e.g., wages and benefits, payments to providers of capital, taxes paid)</li> <li>Jobs generated (direct and indirect)</li> <li>Financing support to identified market segments, including SMEs</li> </ul>
Environmental	<ul> <li>Environmental compliance</li> <li>Environmental housekeeping (resource use, waste management and emissions)</li> </ul>
Social	<ul> <li>Employee and customer health and well-being</li> <li>Employee development and engagement</li> <li>Occupational health and safety</li> <li>Customer data privacy and protection</li> <li>Service resilience, including cybersecurity</li> <li>Community engagement and social investments</li> </ul>
Governance	<ul> <li>Regulatory compliance</li> <li>Risk management</li> <li>Anti-corruption and business ethics</li> <li>Related party transactions</li> <li>Disclosure and transparency</li> </ul>

## **Sustainability Report**

#### **Sustainability Governance**

Our Board of Directors (BOD) has the responsibility of sustainability and EESG oversight. The directors are tasked to oversee the identification of material risks, including sustainability risks, and to ensure that these are evaluated and mitigated. The Board also plays a critical role in establishing our EESG strategy as well as in developing and implementing sustainability initiatives, assessing its impact on the Bank's performance, and communicating this information to stakeholders.

EastWest will re-assess its integration of sustainability principles with corporate governance, risk management frameworks, business strategies, and operations to effectively identify, assess, and manage environmental and social risks.

We will soon appoint a dedicated sustainability champion who will coordinate with our parent company, Filinvest Development Corporation. The role will also be responsible for implanting sustainability objectives into our performance appraisal systems. Our Environmental and Social Risk Management System (ESRMS) and Credit Risk Management System (CRMS) will play an important function in defining our credit strategy and setting strategic

E&S objectives and targets for our credit operations.
Additionally, by using our Operational Risk Management System (ORMS), we will be able to ensure operational resilience and assess the impact of E&S risks on our operations.

We will strengthen our commitment to sustainability through independent review and testing by our Internal Audit and Compliance Divisions. Risks will be actively monitored, and control measures immediately implemented to mitigate these risks. Senior Management is responsible for communicating the Bank's progress in

implementing sustainability policies and ESRMS, ensuring that the Board is informed of potential internal and external issues relevant to the Bank and its clients.

#### **Stakeholder Engagement**

Stakeholder engagement is an essential component of materiality assessments as well as identifying concerns. Our stakeholders also take part in reporting and developing our sustainability strategy. The following are the concerns of our key stakeholders and the corresponding plan for responding and engaging with them.

Voy Stakobaldor	Concerns	Decreases /Channels of Engagement
Key Stakeholder Employees	Employee headcount, competencies, and engagement     Occupational health and safety	Responses/Channels of Engagement  Learning and development program, including online trainings, on-the-job training, job rotation, and coaching/mentoring  Competitive salary and benefits  Work from Home arrangement
Customers	Consumer protection     Data privacy     Service reliability     Health and safety     Online banking reliability     ATM cash availability     Branch/Store accessibility	Provision of online banking tools/digital solutions     Development of innovative products and services     e-Statements of Account     Cybersecurity program     Data privacy trainings for employees
Regulators	Regulatory compliance     Transparency     Good governance	Compliance with permit renewals and mandatory disclosures/reports
Industry Peers	Regulatory risk     Emerging regulatory risks	· Common advocacies
Investors	<ul><li>Business Risks</li><li>Good governance</li><li>Transparency</li></ul>	· Risk management · Corporate disclosures
Local Community and Environment	Local community concerns     Environmental impact     Paper consumption     Carbon footprint	Community social investments     Relationship management     Environmental housekeeping

#### **Economic Value**

EastWest's business operations contribute to fulfilling the dreams of the Filipino consumer while contributing directly to a sustainable economy. Our retail banking and consumer lending activities generate quantifiable direct value through the loan assistance to teachers, families, workers, the payment of wages and salaries, suppliers' and other operating costs, and more importantly, taxes to the Philippine government.

Php 19.9 billion in home loans

Php 86.8 billion in auto loans

Php 6.8 billion in personal loans

Php 59.6 billion to businesses (corporate lending)

Php 70.0 billion in teachers' loans\*

# Direct Economic Value Generated and Distributed in 2023 (Amounts are presented in millions of Philippine Pesos)

Direct economic value generated (revenue)	35,660
Direct economic value distributed:	
Operating costs	20,293
Employee wages and benefits	7,349
Dividends given to stockholders and interest payments to fund providers (does not include principal debt payments)	6,921
Taxes paid to government	1,444

The Bank's donation of approximately 280 computer units to the Learners' Rights Protection Office of DepED aligned with DepED's mission to protect students' rights. Notably, we are the exclusive Private Lending Institution supporting this initiative of DepED.

<sup>\*</sup>Teachers' loans are presented separately from personal / individual loans.

## **Sustainability Report**

#### Responsible Supply Chain

It is our responsibility to oversee the groups and organizations comprising our supply chain and to ensure the success of our operations and consistency of their activities with our sustainability practices.

- Our prospective suppliers are evaluated keeping in mind their environmental practices are consistent with our sustainability principles. We investigate activities relating to forced or child labor in their operations, their approach to labor and human rights issues, and their mechanisms to ensure that bribery and corruption do not occur in their company or in relation to ours.
- We build strategic relationships and partnerships with suppliers who support small and medium enterprises (SMEs) through the provision of goods and services. Our store network is designed to encourage banking locally.
- SharePro, a shared services subsidiary of the Filinvest Group, is handling EastWest's procurement requirements. SharePro operates the centralized Supply Chain Management and other corporate services of the Group. It has also been supervising the implementation of a Supplier Accreditation Program since 2015.
- The Filinvest Group ensures that quality management is practiced in the entire organization by securing certifications from and rendering yardstick programs set by the International Organization for Standardization (ISO), Department of Environment and Natural Resources (DENR), and Occupational Safety & Health Act (OSHA), and by requesting data on the sources of materials delivered to the subsidiaries. As with any Filinvest subsidiary, reviews and vendor performance assessments are regularly

performed so that potential supply chain partners comply with local laws and the operating subsidiaries' requirements. A process for blacklisting violators is in place.

In the coming years, we will expand our knowledge of our supply chain and suppliers. We will delve into a deeper understanding of the overall value chain and wider assessment of ESG risks and opportunities. We would like to determine the impact of these in relation to our operations and our relationship to our suppliers.

#### **Environmental Performance**

Global climate change and energy security are very critical issues we are all facing. EastWest's value chain is environmentally sustainable and socially responsible. As a conscientious financial institution, our sustainability commitment includes our devotion to helping in the preservation of our environment.

We are always compliant with environmental regulations set forth by the Department of Environment and Natural Resources (DENR) and the Laguna Lake Development Authority (LLDA) for offices situated within the Laguna Lake region. In addition, we continue to strictly adhere to environmental policies established by local government units in the areas where our stores and offices are located.

EastWest and its subsidiaries have never been called out nor given any notice of violation of environmental regulations. As of the end of 2023, there are no pending investigations or resolutions, fines, or penalties imposed.

Since we primarily operate in office settings, our direct and indirect impacts on the environment come from our energy and water consumption, as well as in waste generation.

Energy Consumption and Greenhouse Gas Emissions	2023	2022	2021
Gasoline consumption, by liters	92,907	146,885	Not monitored
Diesel consumption, by liters	41,907	55,953	Not monitored
Electricity consumption, by kilowatt hours	6,099,547	3,434,409.53	2,824,341
Scope 1 GHG emissions due to diesel and gasoline, in tonnes CO2-e	Diesel: 216.29 Gasoline: 113.40	144	Not monitored
Scope 2 GHG emissions due to purchased electricity, in tonnes CO2-e	4,344	2,446	2,011

EastWest sources all its electricity from the local energy utility, Meralco. The emission factor used is 0.7122 tons CO2 per MWH of electricity.

#### Notes:

The point-to-point shuttle pick-ups of the Bank that were primarily driven by the rules imposed during the pandemic were significantly reduced from 2022, resulting in a subsequent decrease in fuel consumption (both for gasoline and diesel).

The significant increase in electricity consumption was due to the location movements and renovations that the Bank underwent in 2023. This is also one of the factors that caused the increase in the Bank's water consumption

Water Consumption and Wastewater Generation, in cubic meters	2023	2022	2021
Water consumed	27,516	19,959	13,337

Water used at our headquarters and satellite offices is sourced from Metro Manila's East Zone water utility concessionaire. The Beaufort, however, gets its water supply from the Angat-Ipo-La Mesa dams water source, which is replenished by annual rainfall and considered a sustainable surface water body. Wastewater generated from the headquarters' operations is collected by the Bonifacio Global City's (BGC) sewerage system and conveyed to an offsite facility for full treatment by the water utility.

We sustained our environmental initiatives in 2023, particularly the intensified efforts to convert from printed credit card statements of account into electronic (PDF) versions sent via email. This shift to e-Statements of Account (eSOA) resulted in saving over

23 million printed pages and reducing fuel consumption associated with motorcycle courier deliveries. By the end of 2023, 97% of active EastWest credit cardholders had enrolled in eSOA, resulting in savings exceeding Php 100 million.

Aside from our present initiatives, we are looking beyond basic environmental housekeeping. While we intend to achieve more and at the same time, consume less energy, generate less waste, and reduce carbon emissions, we also want to create a more significant positive impact on the environment through the deployment and financing of projects that are geared towards environmental and social sustainability.

# Sustainability Report Social Performance/People

We owe our successes and our competency in delivering the best customer experience to our People. They are our greatest asset, our wealth, and our cache of talents with diverse backgrounds and perspectives. We ensure that the EastWest work environment is one where our employees feel secure, safe, and empowered to create ways that will optimally delight consumers.

As of the end of 2023, the EastWest Group was made up of an 8,165-strong workforce. Of this, there are 6,578 employees from EastWest Bank, 35 from EastWest Insurance Brokerage, 1,047 from EastWest Rural Bank and 505 from EastWest Ageas.

# Sustainability Report Talent Advantage Agenda

At EastWest, opportunities for professional growth while promoting work-life balance are continuously created. More importantly, we have programs and policies in place to contribute to our people's professional development, employee satisfaction, and engagement through the Talent Advantage Agenda. This encompasses four strategic imperatives that the Bank collaborates on to enhance employee excellence and organizational success. The first imperative focuses on Enabling the Workforce, emphasizing growth in capability and career development to bring out the best in employees both professionally and personally.

The second imperative revolves around building an Engaging Workplace, recognizing that attracting and retaining talent hinges on creating a conducive work environment where employees can thrive. EastWest Bank emphasizes the importance of ascertaining its Employer Value Proposition to attract top talent and ensure a consistent and compelling employee experience throughout their journey with the bank.

EastWest Bank further highlights the need to evolve a Unifying Culture, acknowledging the diverse backgrounds and values of its employees. The Bank underscores the importance of aligning beliefs, standards, and norms to accomplish its growth ambitions while embracing diversity and fostering a sense of unity and belonging among employees. Additionally, the Bank outlines the importance of building an organization Fit to Purpose, with an organizational design and structure that enables strategy execution and adaptation to future challenges, ensuring sustained success.

The Talent Advantage Agenda aims to position EastWest employees to excel individually and collectively, fostering growth in an engaging work environment characterized by a consistent culture and an organizational design that positions the Bank for success today and in the future. By making talent the source of competitive advantage, EastWest Bank aims to elevate itself to new levels of success.

# Sustainability Report **Enabled Workforce**

Becoming a customer-centric organization calls for us to invest in the enhancement of the talent and capabilities of our employees. We offer them the opportunities to become better. We equip them with the knowledge and tools necessary so that they can better serve our customers. By regularly providing these tools and training, we empower them so that they can come up with the best customer experience and ultimately draw customer satisfaction and loyalty to EastWest.

EastWest conducted a lengthy list of learning and development programs that provided employees with an extensive knowledge of their respective fields, enabling them to perform better and be more confident in doing their jobs as well as prepare them for future roles aligned to their career aspirations. The Bank had 41 runs of its People Centered Leadership program in 2023 and utilized LinkedIn Learning where 2,500 user licenses were 100% activated and optimized.

We focus on building talent capacity, competency, and engagement. We ensure that leadership and functional competencies are developed, and employee engagement programs are in place. Our goal is to continuously deepen our pool of capable and energized talents who will drive our sustainable growth.

In 2023, we conducted and delivered a total of 718,348 training hours, nearly double the training hours clocked in 2022. As the post-pandemic environment eased in, more employees were able to attend faceto-face and virtual training sessions. The average training hours per employee is 94 hours, which was almost twice as many as compared to 2022.

#### **Equal Opportunities and Growth**

EastWest provides a promotion process for employees to advance in their respective careers. Promotion references the employee's job content in terms of scope and organization impact linked to job evaluation results, consistency of performance and significance of contribution through the years, and capabilities as well as potential to assume higher levels of responsibility.

Given the objective promotion criteria referenced, clearly EastWest ensures that there are equal opportunities for career growth based on fair and relevant basis, not gender or any other unrelated factors. We are committed to diversity and inclusivity representation as shown by our promotion statistics.

There were 749 promotions as of December 2023 which comprises of 13% of our headcount, reflecting our commitment to recognizing the contributions and commitment exhibited by our employees.

EastWest espouses a culture of diversity and inclusivity. It allows us to attract and retain top talent. This also builds a work environment that encourages every employee to excel and achieve their career goals and align these with the Bank's successes.

#### Salaries and Benefits

Full-time employees receive competitive salaries and benefit packages. The lowest salary given is above the statutory minimum wage in the National Capital Region and 8% higher than in provincial areas.

In addition, we provide multiple benefits and actively promote wellbeing among employees. More importantly, we give performance-related

rewards such as merit increases, profit sharing, spot incentives, and other recognition schemes.

In May 2023, we delivered an early payout of merit increases and profitsharing proceeds as well as conducted salary alignments on a selective basis.

#### **Benefits Availment\***

#### **Communication and Engagement**

We foster a culture of collaboration and open communication. We regularly come up with thematic engagement events and utilize team building activities. We also recognize our people's milestones such as birthdays and anniversaries through personal greetings.

Our townhall "Kamustahan with Jerry" sessions drew in 89 participants held in different Bank locations. An employee communications gateway called THE S.H.O.R.E was also recently launched. To promote employee satisfaction and engagement, we completed the View of the Workforce (V.O.W), an employee engagement survey that delivered a 98% response rate.

EastWest Bank 2023 Annual and Sustainability Report EastWest Bank 2023 Annual and Sustainability Report

<sup>\*\*</sup>Covers EastWest, and EastWest Insurance Brokerage

# Sustainability Report Enterprise Winning

EastWest is committed to building a cohesive organizational culture. This entails defining and communicating its values, mission, and vision to all employees. This begins with the leadership commitment to model the desired behaviors and foster a sense of belonging among team members.

We have increased our efforts to implement a bankwide cascade on our recently adopted One Filinvest Values, pivotal in cultivating a unified culture. To expedite this process, the Bank has trained over a thousand leaders to conduct these sessions with their respective teams.

To support the cascade, 2 Values Recognition programs were launched and in 2023—474 Values Sowers in the Spot Recognition platform. In addition, 121 employees were nominated to the Values Cultivators Recognition Program which generated 64 finalists and 32 winners.

Our Performance Management System evolved towards the shared ownership of People and Culture and Governance deliverables which ultimately became a formalized Enabling Performance Program. We have forged ongoing partnerships with the business for Organization Structure Redesign and Workforce Planning as well as in continuously shaping and improving Human Capital Philosophies, Policies, Processes, Programs, and Practices.

# Labor Management Relations and Freedom of Association

We continue to create harmonious managementlabor relations through our Employee Relations Council (ERC) which has cross-functional and cross-rank representation. While we do not have collective bargaining agreements, we held a total of 1,000 consultation meetings with employees concerning employee-related policies in 2023.

#### Succession

EastWest has a succession planning policy and implementation guidelines to ensure that a steady channel of talents is ready to take on any vacated critical roles or fill up new roles that open up from new business opportunities.

#### Separations\*

Reasons	Female	Male	Total

\*\*The grounds for termination under the Bank's Code of Conduct include the following, but are not limited to: conflict of interest, serious misconduct, unauthorized use of bank property.

#### Occupational Health and Safety

We continued to be vigilant over the health and safety of our employees even as mobility restrictions eased in the last two years and there has been no serious Covid-like threat. We remained focused on initiatives that ensure our employees receive adequate and satisfactory support by ensuring that they are healthy and happy in their jobs.

We provide health insurance, group life insurance and retirement benefits to all full-time employees to help safeguard their wellness. This has been a part of the benefits we offer even prior to the pandemic.

Each EastWest office and Store is committed to enhancing working conditions and fostering a conducive environment. We prioritize instilling discipline to prevent work-related injuries and diseases while safeguarding and promoting the health of EastWest bankers.

Outlined below are the Health and Safety programs implemented by the Bank to ensure the protection and enhancement of the safety and well-being of EastWestbankers:

- 1. Emergency Response Procedure (ERP)
- **2.** Annual Emergency Response and Safety Trainings
- 3. Drug-Free Workplace
- 4. TB-Free Workplace
- 5. Medical Emergency Response
- **6.** Hepatitis B Awareness
- 7. Breast Feeding Program
- **8.** Sexual Harassment Awareness
- 9. Family Welfare
- 10. Environmental Safety and Health
- **11.** Health and Safety Advisories thru Intranet and Marketing Communication
- **12.** Medical Specialists Services
- **13.** Wellness Fairs
- **14.** Business Continuity Management
- 15. Travel and Flu Pandemic Policy
- 16. HIV/AIDS Awareness
- 17. Cervical Cancer Vaccination
- 18. Flu Vaccination
- 19. Responsible Smoking Campaign
- **20.** Employee OSH Orientation
- **21.** Fitness Programs
- **22.** Annual Physical examination
- 23. Personal Sanitation and Hygiene
- **24.** Hybrid work arrangement
- **25.** Mandatory Occupational Safety and Health (OSH) Orientation of New Hires
- **26.** Deployment of Certified Safety Officers for each office and store
- **27.** Deployment of Certified Occupational First Aiders for each office and store

#### **Labor Standards and Human Rights**

We do not tolerate discrimination in our workplace. Moreover, we strictly comply with all laws and regulations related to labor and human rights, including those that prohibit forced labor and the hiring of children. We have five policies that explicitly disallow violations of labor laws

and human rights as enumerated below. We have had no legal actions or employee grievances involving forced or child labor in 2023.

- 1. Anti-Sexual Harassment Policy
- 2. Code of Discipline and Ethics Policy:
  Promulgated as a guide in promoting and
  enforcing discipline and order that ensures
  employees adhere to ethical and work
  standards and corporate values of the Bank.
  Pertinent sanction is imposed upon those
  who violate basic human rights and law of
  the land.
- 3. Compensation Policy: Embodies the Bank's principles on fair and just compensation wherein salaries and benefits are not only within but above what is prescribed by law.
- 4. Employment Policy: There is no discrimination on employment. Employment is based on fitness to role based on the Bank's requirements and in compliance to Fit and Proper Rule under BSP's Manual of Regulations for Banks.
- **5.** Health and Wellness Policy: This is related to various programs that protect the interest of the employees, such as but not limited to the following:
  - Drug Prevention
  - HIV and AIDS
  - Breastfeeding
  - Health and Safety in the workplace

#### **Corruption and Bribery**

We strictly abide by our Code of Conduct which prohibits corruption and bribery among our Board of Directors, employees, vendors, and suppliers. We have no incidents involving the removal of directors, dismissal, or disciplinary actions taken against employees, or contract termination of business partners due to corruption.

42 EastWest Bank 2023 Annual and Sustainability Report

## **Risk Management**

he year 2023 was marked by the continued momentum of our post-pandemic rebound. As the country kept growing, it was tempered by a rapid surge in inflation exacerbated by geopolitical conflicts that significantly affected many global economies.

Still, this moderate growth opened doors for the Bank to be able to shift to asset expansion from capital preservation, accompanied by purposeful capital allocation and calculated risk management. EastWest continued to improve its risk management framework, focusing on Credit Risk. We continue to perform a thorough scan and assessment of economic conditions to be able to identify credit losses and defaults. Our efforts at fine-tuning our risk models and assumptions ensure that a strong capital position is aligned with regulatory capital standards and provides adequate risk coverage.

We strive to strengthen our enterprise-wide risk management culture by imbuing in our people the daily practice of managing risks that come with their respective operations. We are making significant headway in raising risk awareness beyond compliance or recognition. This is done by leveraging and integrating the risk tools employed by the Bank into our day-to-day operational processes. We accomplished this through the establishment of risk maturity assessments that enable operating units to constantly improve on risk management capabilities.

Risk Management is strictly practiced in all processes and operations of the organization. Our Board of Directors, through the oversight

of its Risk Management Committee, is responsible for the governance of risk. As primary owners of risks and internal controls, Senior Management is mandated to be the anchor point in enforcing risk management discipline.

Credit Risk remains to be the principal risk exposure in our business, followed by operational risk, interest rate risk in the banking book, and market risk in the trading book. It also recognized marginal risk exposures to liquidity, credit concentration, compliance, reputational, and strategic risks. In addition to these risks inherent in banking, other risks borne out by more stringent industry regulations are also recognized.

## CAPITAL RISK

This is the risk faced when a company loses the value of its capital, which consequently puts it into a situation of having inadequate capital to cover its risk exposures. We mitigate this by implementing capital risk management to ensure capital is preserved and shareholder value is maximized, while maintaining capital ratios compliant with the minimum prescription of the Bangko Sentral ng Pilipinas (BSP).

## Risk Management

This type of risk arises when borrowers fail to meet credit obligations based on the agreed terms, may it be repaying a loan or meeting a contractual obligation. Under the Philippine Financial Reporting Standards 9, banks use models to estimate credit losses on its portfolio on a forward-looking perspective. This entails banks to forecast a loan account or portfolio's potential loss from a 12-month period up to the entire life cycle as its credit quality deteriorates.

In 2023, the Bank's Credit Risk remained reasonable. Its manageability is founded on satisfactory levels of asset quality, credit concentration, collateral, loss rate level, and more importantly, adequacy of loss coverage. This is realized through mitigating measures during the early stage of credit underwriting, aided mainly by credit scoring tools for consumer products and the internal Credit Risk rating system for corporate clients. Likewise, in line with portfolio maintenance and management, we regularly monitor key Credit Risk indicators under normal conditions and perform stress tests based on internally determined and BSP-prescribed scenarios to anticipate and prepare for its impact if found to be plausible.

This risk relates to potential loss arising from systems, people, processes, and external events in the conduct of our business and

operations. Lapses and failures in the delivery and performance of our operations are not without consequences. Considering our heavy reliance on technology to deliver products and services to our customers, information technology (IT) risks such as cybersecurity, data privacy, and legacy IT infrastructure and operations are deemed relevant.

We address this risk by espousing selfregulation through regular risk and control self-assessment by all the concerned Bank units, which investigate potential risk incidents inherent in one's process and operations, relevant mitigating measures, and periodic monitoring of operational risk indicators relative to defined risk appetite and tolerances. Specific to IT risk, a defense in-depth strategy involving multiple security tools, people awareness and education, as well as continued modernization of our legacy infrastructure and applications are in play to diminish such risk.

Market risk arises as the fair value or future cashflows of financial instruments fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. Interest rate risk is the risk to current or anticipated earnings or capital arising from movements in interest rates. This capital of the Bank arising from positions in the banking book.

The major factors that lead to increased interest rate risk are the volatility of interest rates and mismatches between the interest reset dates on assets and liabilities. We manage this risk by increasing the proportion of our less sensitive funding, which aims to minimize the impact of rising interest rates on our banking book. Meanwhile, market risk is managed through judicious trading activities.

Even as the Philippine government has targeted a growth of 6.5% to 7.5%, there are persistent challenges that the Bank is wary of. Key growth drivers such as stronger consumption, government spending, and higher export demand will be toned down by high inflation and the impact on production by El Niño. The government aims to address food supply concerns through investments in infrastructure and financial assistance to farmers. The BSP may implement modest rate cuts in the third quarter of 2024, should inflation be managed within the target range.

Managed inflation and decrease in interest rates can further stimulate credit demand which can spur more economic activity. We remain cautious of domestic challenges such as severe natural disasters, which pose potential threats to the country's economic outlook. Global threats such as unresolved geopolitical issues in the Eurozone (Ukraine-Russia) and Middle East (Israel-Palestine) can continue to impact inflation, supply chain, and cause higher market volatility.

We remain vigilant of present and emerging risks, with Credit Risk remaining to be the largest risk exposure, followed by operational and interest rate risks. With the expected expansion of its loan portfolio, the Bank will continue to maintain sufficient capital levels to cover its risk exposures.

Despite these challenges, the government is determined to manage inflation by increasing infrastructure spending and supporting farmers to stabilize food prices. The Bangko Sentral ng Pilipinas (BSP) tipped at modest interest rate cuts by the third quarter of 2024 if the inflation level is managed within target, which could catalyze credit demand and spur further economic activity.

Despite these challenges, the Development Budget Coordination Committee (DBCC) expects the Philippines to remain one of the strongest economies in the Asia Pacific region. This confidence is echoed by credit agencies Fitch, S&P, and Moody's, which have affirmed the country's investment grade rating with a stable outlook, signaling trust in its macroeconomic fundamentals.

#### **BSP CIRCULAR 1128: ENVIRONMENTAL AND** SOCIAL RISK MANAGEMENT FRAMEWORK

In keeping with its commitment, EastWest completed the establishment of its Environmental and Social (E&S) Risk Management Framework. The Bank has taken the necessary updates to ensure its existing risk management policies meet the regulation of Circular 1128, including provisions specific to operational and credit risks. This is in line with the three-year transition period set out by BSP Circular 1085 on Sustainable Finance issued in 2020 which takes effect in May 2023. The Bank continues its commitment through integrating the principles of E&S Risk Management Framework by periodically reviewing and updating its risk management processes.

can potentially affect the financial results and

EastWest Bank 2023 Annual and Sustainability Report EastWest Bank 2023 Annual and Sustainability Report

#### **Background**

BSP Circular 1085; Sustainable Finance Framework, defines Environmental & Social (E&S) Risk as the potential financial, legal, and/or reputational negative effect of environmental and social issues on the Bank. E&S issues include environmental pollution, climate risk, hazards to human health, safety and security, and threats to community, biodiversity and cultural heritage, among others.

Climate Risk encompasses Physical and Transition Risk. Physical Risk refers to the potential loss or damage to tangible assets arising from climate change and/or other weather-related conditions such as floods, typhoons, droughts, earthquakes, extreme weather variability, and rising sea levels. Meanwhile, Transition Risk refers to potential economic adjustment cost resulting from policy, legal, technology, and market changes to meet climate change mitigation and adaptation requirements.

E&S Risk Management (ESRM) System refers to the policies, procedures, and tools to identify, assess, monitor, and mitigate exposures to E&S risks.

By effectively managing these E&S risks, banks can contribute to sustainable development, promote financial stability, and enhance their resilience against emerging challenges such as climate change and social inequalities. Moreover, proactive risk management aligns with the growing demand from stakeholders for responsible and ethical banking practices, ultimately fostering trust and credibility within the financial sector.

# BSP Guidelines Relevant to ESRM System

Cognizant of the evolving nature of Sustainable Finance concepts and best practices, the BSP adopted a phased approach in introducing sustainability-related guidelines with due regard to the principle of proportionality.

- Sustainable Finance Framework (BSP Circular 1085 on Sustainable Finance)

  The Framework emphasizes the role of the Board in leading and institutionalizing the adoption of sustainability principles and prescribes the general prescriptions for banks' Environmental and Social Risk Management (ESRM) System. The Framework also enumerates the E&S disclosure requirements for banks' annual reports on information covered by the Framework.
- Environment and Social Risk Management Framework (Circular No. 1128)

The Circular outlines detailed guidelines for banks to manage E&S risks associated with credit and operational exposures. Banks are required to establish strategic environmental and social objectives across short, medium, and long-term periods. Additionally, banks must implement robust policies, processes, and procedures to address operational risks stemming from environmental and social factors, ensuring prompt recovery and operational resilience in the face of events like extreme weather.

 Guidelines on the Integration of Sustainability Principles in Investment Activities of Banks (Circular No. 1149)
 The Circular specifies the requirements for banks to incorporate sustainability principles into their investment endeavors, particularly in the banking book. Banks are mandated to factor in their sustainability goals and tolerance for risk when engaging in investment activities, ensuring that their investments do not support sectors deemed detrimental to the environment or society.

Guidance on the Implementation of the Environmental and Social Risk Management (ESRM) System (Memorandum No. M-2022-042)

The Guidance informs banks on the initial steps they can take to establish an ESRM System. It outlines the BSP's minimum expectations as laid out in its Circulars. It offers resources such as publications from relevant international organizations to assist banks in creating an effective ESRM System.

# Disclosure Requirements Relevant to ESRM System (ESRMS)

As laid down in BSP Circular 1085 on Sustainable Finance, below are the disclosure requirements relevant to ESRMS:

- Risk appetite
- Overview of E&S risk management system
- Breakdown of E&S exposures per industry or sector
- Information on existing and emerging E&S risks and their impact

# EastWest Bank's E&S Risk Appetite Statement

At EWBC, we are committed to embedding sustainability into all aspects of our business and operations.

The Bank's E&S risk appetite is defined to assume all E&S risks inherent in its businesses aligned with its strategic intent, including but not limited to, sustainability cause/s. Provided that, the Bank's risk exposures on indirect risks are well diversified, i.e., no significant concentration on any specific risk driver, and that mitigants are adopted by the client or the Bank to address the E&S risks.

#### Embedding Sustainability

The Bank recognizes that environmental and social risk events impact its primary risk areas, such as Credit and Operational Risks.

The Bank maintains a low tolerance level for environmental and social risks that could potentially harm it and result in losses. Thus, it does not allow risk taking beyond its current risk appetite and limits for each of its primary risks.

The Bank's guiding principle is to integrate sustainability practices into the core of its business and operations, while managing and mitigating any risks principally impacted by the sustainability agenda, such as Credit and Operational Risks. The Bank strives to ensure that environmental and social factors are integral considerations in all risk management decision-making processes.

The Bank actively monitors current and emerging environmental and social risks across its lending and investment activities and other related bank operations. The Environmental and Social (E&S) Risk Management Framework is embedded in the Bank's overall Enterprise Risk Management Framework that is the foundation of our approach to managing these risks. It covers tolerance thresholds within existing risk limits for each major risk to guide our mitigation efforts effectively. This framework is regularly reviewed and updated to ensure alignment with evolving sustainability challenges and risk profile.

#### Customer Empowerment

To ensure continued product and service delivery amidst the transition risk linked to pursuing sustainability goals, on the operational front, the Bank maintains low risk appetite for Operational Risk and related environmental and social risk events.

The Bank empowers its customers by offering tailored banking products that adhere to or promote sustainability. Digital innovations play a crucial role in this endeavor. Digitalization initiatives help minimize environmental footprints. We also manage Operational Risks associated with digital platforms, ensuring data security, system reliability, and customer privacy to maintain customer trust and confidence that will bolster the transition to more environmentally sound banking practices.

The Bank manages its Operational Risks through its dynamic Operational Risk Management Framework and sound Business Continuity Management (BCM), ensuring resilience and continuity in business and operations.

#### Employee Engagement

The Bank maintains a low tolerance for legal disputes and business disruption arising from employment practices and workplace safety. It is committed to avert risks jeopardizing the health and safety of its employees. It has zero tolerance for discrimination and bias, ensures gender equality throughout the workplace, and is committed to inclusive and sustainable economic growth for all.

The Bank proactively mitigates workplace hazards, promotes wellness programs, enforces anti-discrimination policies, provides equal opportunities for all genders, and prioritizes fair labor practices and environmental sustainability. Any action contrary to these principles will be swiftly addressed, as the Bank strives to foster a workplace culture that supports the wellbeing of employees, promotes gender equality, and contributes to sustainable economic development.

The Bank is committed to attracting and retaining employees guided by environmental and social risk management principles.

Employees play a vital role in risk management as we espouse the principle that everyone is a risk manager. Employees help in identifying and managing risks effectively, driving continuous improvement and innovations across all aspects of our business and operations. Through continuous education and training, employees are empowered to champion risk management, including the management of environmental and social related risks within the organization.

Balancing Shareholder Interest and Societal Contribution

The Bank is committed to identifying and managing environmental and social risks, including those that may arise from its lending activities which could impact the Bank's financial performance. These include exposures to industries that are either a cause of or will be impacted by environmental and social risk that may lead to credit defaults as well as business and operational disruptions.

The Bank actively assesses and mitigates these risks to ensure that they remain within pre-defined risk limits for direct risk exposures such as Credit and Operational Risks. These risk management activities support our dual objectives of shareholder value creation and societal benefit.

The Bank manages its Credit and Operational Risks through its dynamic Credit and Operational Risk Management Frameworks that ensure satisfactory credit quality of credit exposures and resilience and continuity of business and operations to be well-maintained.

The Bank aims to balance financial performance with environmental and social initiatives, ensuring that its banking products and services contribute to the long-term

sustainability of both the organization and the communities it serves. Its approach includes regular monitoring, assessment, and mitigation of environmental and social risks inherent in its activities. It upholds high standards of corporate governance, transparency, and accountability, aligned with the expectations of its shareholders and broader society.

# Overview of EastWest's Environmental and Social Risk Management (ESRM) Framework

Cognizant of the banking sector's part in the ESG agenda, EastWest has made sustainability a key initiative. With the global drive and regulatory push, the Bank integrated its E&S risk management into its existing risk management frameworks.

The Bank's framework defines E&S Risks as the potential financial, legal, and/or reputational negative impact of environmental and social issues on the Bank. These issues can present themselves as either Physical Risk or Transition Risk.

The Bank sets its E&S risk appetite to manage potential E&S business impact within the established risk appetite and tolerances of the Bank's primary risks (i.e., Credit and Operational).

EastWest established its ESRM Framework that is integrated in its existing risk management system, ensuring a holistic approach to risk identification, assessment, mitigation, and monitoring. The ESRM Framework serves as the Bank's cornerstone of its bank-wide implementation into core business processes.

EastWest sets the criteria to ensure that the E&S risks identified are rightfully applicable to EWBC. The criteria are as follows: localization of the scenario, government guidance, information access, and assessment of likelihood and severity. With this guidance, EWBC identified four (4) relevant subcategories of E&S risks, namely: physical risk, transition risk, social inequality, and financial exclusion.

#### E&S Risk and Credit Risk

Credit-related E&S Risks manifest in large loan deployments to industries that may become obsolete due to E&S concerns. The type, quantity, and severity of E&S risks should be evaluated considering various factors such as the type of loan, location of the borrower, collateral for the account, and industry of the borrower. Corresponding actions to facilitate the integration of E&S principles may include changes in the composition of the loan portfolio which may have existing exposures in markets, sectors, or geographic areas vulnerable to material E&S risks and may ultimately result to an increased allocation to sustainable financing.

#### E&S Risk and Operational Risk

E&S Risks events, in the context of Operational Risk, may contribute to business disruption of the Bank's operations. For example, severe

weather events may lead to damage of stores/ offices or labor issues may materialize to vacancies or absenteeism. Such risk events may ultimately result in financial losses, regulatory non-compliance or reputational impact, among others.

# **EWBC E&S Risk Loan and Investment Exposures**

The Bank assessed its total credit portfolio for E&S related exposures. To facilitate the assessment, the Bank used the Department of Environment and Natural Resources' (DENR) Environmental and Social Risk Categorization Guide as a basis for the identification of environmentally high-risk industries and sectors. The Bank's counterparties were examined based on the nature of their services and products, which were then checked versus the DENR's Guide.

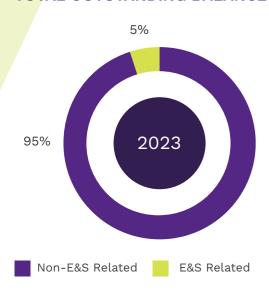

The Bank concluded that its primary E&S-related exposures are in the following industries:

- Fishery and aquaculture projects
- Mining and quarrying
- Non-ferrous metal industries
- Petroleum refineries
- Pulp and paper industries
- Steel mills
- Thermal power plants (coal)

The Bank's identification of E&S-related exposures is focused on its corporate loans and investment exposures as its consumer loan portfolio is assessed as a positive contributor to the UN SDGs.

Per the Bank's assessment, its E&S-related exposures only amount to 5% of its total credit exposures. It is assessed to be marginal and, therefore, low risk.

#### TOTAL OUTSTANDING BALANCE

Further, since the Bank deems E&S Risks as part of its identified primary risks, the above E&S-related exposures already form part of the Bank's overall Credit Risk assessment and should not significantly change the risk profile of the Bank.

# EastWest Bank's Environmental and Social Risk Scenarios and Risk Assessment

Beyond traditional financial risks, the banking industry is increasingly facing environmental and social (E&S) risks directly or through their clients' activities. Thus, understanding and managing E&S risks is no longer an option, but a necessity. Below presents the Bank's E&S Risk Assessment, outlining its commitment to proactively manage its risk. The assessment examines potential impacts on EWBC arising from:

- Physical risk: Climate change, natural disasters, and resource depletion can disrupt operations, impact borrowers' ability to repay, and damage collateral, leading to financial losses.
- Transition risk: Evolving regulations, shifting market demands towards sustainability, and technological advancements can create stranded assets, reputational damage, and legal challenges if not properly addressed.

The Bank continuously performs a comprehensive E&S risk identification and assessment. The major potential business impact will manifest as credit losses arising from exposures to industries susceptible to physical and transition risks. Moreover, from an operational standpoint, the Bank's physical assets are also exposed to climate-related natural disasters that may cause physical damage. These risk events were assessed as the direct impact of E&S related events while the other direct risks of the Bank (e.g., Liquidity, Interest Rate, etc.) may have secondary effects arising from the aftermath of climate related natural disasters.

Part of the Bank's assessment is to identify emerging E&S risks. These are relatively new risks that are not yet fully understood or widely recognized but need to be monitored to be managed proactively. The Bank assessed that there are no such risks to the Bank beyond what have been identified in this risk assessment.

#### Credit Risk

EWBC is exposed to Credit Risk when a borrower is unwilling and/or unable to fulfil its contractual obligations associated with a transaction as a result of E&S issues.

The main risk is the reduction in the counterparty's willingness/ability to repay the Bank due to the following:

- Loss of revenue: Changing regulations, market demands for sustainable practices, and operational disruptions due to E&S issues that may severely reduce corporate borrowers' profitability. On consumer lending, loss of livelihood and source of income may result in credit defaults. This is particularly applicable for unsecured loan portfolios as the collaterals for the Bank's secured loans are covered by insurance.
- Reputational damage: Public backlash and negative media attention surrounding their unsustainable practices can erode trust and brand value.
- Costly litigation: Legal challenges arising from environmental or social violations by clients can result in hefty fines and settlements.

The Bank primarily manages E&S Risk as a driver of Credit Risk by identifying its possible E&S risk exposures in its credit portfolio. The tools the Bank employs for this purpose are as follows:

- Industry analysis for counterparties and income sources of individual borrowers to assess their continued viability, thus, not affecting the borrower's ability to honor their credit obligations
- Tagging of defaults driven by the manifestation of E&S Risks to provide the Bank with an assessment of the impact of E&S risk events on its portfolio
- Appraisal policies considering E&S risk exposures of collaterals to allow the Bank to implement mitigating measures prior to granting of credit
- E&S Risk Stress Testing to assess the Bank's capital resilience should Credit Risk losses manifest through E&S Risks

#### Operational Risk

The Philippines, being a tropical country, is exposed to severe wet and dry weather conditions in form of "El Niño" and "La Niña". Over the years, the changes in the climate of the country have aggravated affecting economy and businesses where certain cases of heavy typhoon and extreme flooding have led to unexpected business disruption as well as damage to Bank facilities, ultimately affecting the Bank's profitability. Specifically, heavy typhoons have restricted key personnel from reporting to work causing disruptions to critical processes and restricting the Bank's ability to serve customers. Extreme flooding, on the other hand, has caused shutdown of operations of affected branches as well as financial losses from damage to property caused by strong winds, heavy downpour, and flooding.

The Bank has been cognizant of the risk exposure arising from impact of typhoon and flooding. In this regard, mitigations have been put in place to proactively manage environmental risk through:

 Proper geographical assessment of store and office location considering the location's susceptibility to effects of severe typhoons like flooding

- Periodic maintenance of Bank facilities against damage from environmental factors
- Securing risk financing through property insurance
- Appropriate personnel skeletal system, backup system, and succession planning

#### Market Risk, Interest Rate Risk, and Liquidity Risk Management

Climate-related natural disasters like severe typhoons present significant challenges to banking institutions, particularly concerning Market and Liquidity Risks. In the aftermath of these events, the resulting property damages often trigger increased funding needs among depositors, leading to heightened withdrawal activity. Simultaneously, disruptions to local infrastructure may hinder the Bank's access to funding, potentially causing liquidity shortages and operational disruptions. Moreover, climaterelated natural disasters can impact the creditworthiness of counterparties, potentially resulting in investment losses, particularly in corporate bonds, as concerns about issuers' ability to repay their debt emerge. Market volatility induced by such disasters can also affect interest rate movements. Additionally. damage to crops and infrastructure can lead to food supply disruptions, driving inflation and causing interest rate volatility and margin compression due to increased funding costs.

The Bank's exposures that are sensitive to Market Risk, Interest Rate Risk, and Liquidity Risks have its management of risk in place during the normal course of its operations. This includes policies, processes, and tools that mitigate the impact of the abovementioned E&S-related risks in the Bank's trading, investment, and balance sheet exposures.

e at EastWest are dedicated to our desire for paramount customer service and we consider Trust as the vital factor that helps build robust relationships. We take proactive steps to earn the trust of customers by acting with integrity, transparency, and accountability in all our endeavors. Our business is guided by strict adherence to corporate governance principles found in our Corporate Governance Manual. The Manual contains a clear definition of corporate governance as well as procedures for nomination, elections, meetings, and quorum requirements. It also lists the duties of Board members, Board committees, and key officers and employees. In addition, it discusses a disclosure system which highlights adherence to the principles of transparency, accountability, and fairness.

#### **Governance Structure**

Corporate governance commences with our Board of Directors (BOD) and Senior Management team who facilitate crucial dialogue and impartial decisionmaking. They establish the standard and guarantee the implementation of

comprehensive disclosure mechanisms, along with safeguarding shareholders' rights and ensuring equitable treatment.

#### **Board of Directors**

As the principal governing authority within the Bank, the BOD assumes stewardship over our management and activities, endorsing our overarching strategy, guided by our fundamental values and principles, with a focus on sustainable, long-term performance.

The BOD also holds the responsibility for cultivating our enduring success and maintaining our competitive edge in accordance with its fiduciary obligations. It is dedicated to upholding the highest standards of honesty, integrity, and transparency in fulfilling its duties, functions, and responsibilities. Regular and special meetings are convened to deliberate on our strategic trajectory, performance, policies, and advancements in risk management, IT, governance, and pertinent operational processes.

Comprised of 11 directors, with a majority being non-executive, the BOD undergoes annual nomination and

shareholder vote, each serving a one-year term until the subsequent election. Through its Corporate Governance and Compliance Committee, the BOD ensures the suitability of all directors for election, considering criteria such as integrity, competence, education, community standing, and relevant business or banking expertise, without bias towards gender, age, ethnicity, political affiliation, religion, or cultural background.

#### **Independent Directors**

Among the 11 individuals comprising our BOD, five serve as independent directors, tasked with offering impartial judgment, external expertise, and objectivity to the Board's deliberations. They maintain a limit of no more than five seats in other publicly listed companies.

#### **Non-Executive Directors**

Non-Executive Directors (NEDs) may convene separate periodic meetings with the external auditor and heads of governance units—namely Internal Audit, Compliance, and Risk Management— without the presence of any executive director or senior management, as deemed

necessary to ensure the establishment of effective checks and balances within the Bank. These meetings will be spearheaded by the Lead Independent Director who initiated the session.

Last June 20, 2023, the meeting among NEDs without the presence of management was presided over by Lead Independent Director Gregorio U. Kilayko.

As a Non-Executive Director (NED), Chairman Jonathan T. Gotianun refrains from any involvement in the Bank's daily operations, instead offering counsel to Senior Management on strategic and policy-related issues. In his capacity as chairman of the BOD, he chairs both Board and stockholders' meetings, ensuring that the BOD makes well-informed decisions concerning the Bank and its shareholders.

#### **Executive Directors**

Jacqueline Fernandez is responsible for ensuring the attainment of the strategic objectives established by the BOD. Holding direct and immediate oversight, she manages both the long-term and daily operations of EastWest, implementing administrative and operational policies sanctioned by the Board.

Isabelle Gotianun Yap serves as a Special Projects Officer within the Executive Management Office (EMO), collaborating with the Bank's Senior Management team to formulate and assess high-level strategies. She also provides support to the President and CEO in managing the Bank's diverse projects.

#### **Board Self-Evaluation**

Every director undergoes regular self-evaluation to assess their performance in alignment with the responsibilities and mandate as a member of the BOD and its respective committees. This practice ensures the ongoing effectiveness of the Board in contributing to our long-term sustainability and success.

For comprehensive selfevaluation, each director is required to complete a minimum of three assessment sheets: one for individual assessment. the second for the overall performance of the Board, and the third for evaluation as a committee member. These sheets delve into specific details such as the clarity and relevance of the functions of the Board and committees, the effectiveness of meetings, and the constructive utilization of available reports to discuss concerns that may impact their roles as directors or committee members.

#### **Board Remuneration**

Our model for compensating directors and executives follows best practices for good governance. This model establishes formal and transparent procedures for the development of a policy on executive remuneration or determination of remuneration levels for individual directors, depending on the Bank's specific needs.

No director is allowed to participate in deciding his remuneration. Each director receives a monthly professional fee for attending Board and committee meetings. This is also in consideration of their valuable contributions in the formulation and continuing review of our overall strategy and performance. Remunerations given to directors which were approved by the Board Remuneration Committee amounted to Php 26.3 million in 2023. Directors and Filinvest Development Corporation-affiliated Directors continue to waive their professional fees.

#### **Board Training**

Directors must possess sufficient qualifications (both individually and collectively) and a comprehensive understanding of both the business landscape and regulatory frameworks. To ensure optimal contribution to the BOD, new directors undergo thorough induction training, and all directors participate in an annual Corporate Governance training session.

Furthermore, directors receive periodic updates on regulatory shifts and market advancements, with encouragement to attend pertinent training programs aimed at enhancing and updating their expertise.

The Annual Corporate Governance Seminar took place virtually on December 6, 2023, organized by the Institute of Corporate Directors. This event is a vital component of our ongoing efforts to ensure a competent BOD and Senior Management team, committed to implementing a clear strategy that safeguards the rights of our stakeholders while ensuring profitable business operations.

The seminar covered a range of topics pertinent to corporate governance, including updates on regulatory standards, the consequences of noncompliance with laws and regulations, fundamentals of money laundering and terrorist financing, preventive measures, obligations of covered entities, targeted financial sanctions, and the latest regulatory issuances from the Anti-Money Laundering Council (AMLC).

Additionally, the seminar addressed best practices for effective boards, focusing on key roles and core practices rooted in timeless governance principles. It explored how boards can enhance effectiveness through collaborative leadership and emphasized the importance of mindfulness in the workplace for Senior Management.

#### **Retirement and Succession**

Directors are elected by the shareholders and their tenure on the BOD is not solely dependent on age.

The key criterion for their continuation is their ability to effectively fulfill their duties. Our retirement policy for the BOD is based on the capability of directors to carry out their functions rather than their age.

The Corporate Governance and Compliance Committee assesses the suitability of BOD nominees. Upon election, directors serve a one-year term, eligible for re-election the following year. Independent directors have a maximum cumulative term of nine years, after which they cannot be reelected as independents but remain eligible for nomination and election as regular directors. However, there is no fixed term limit for regular directors.

#### **Shareholder Communication**

The BOD and Senior
Management keep
shareholders abreast
of developments in the
Bank through its annual
shareholders' meeting, annual
report, general information
sheet, quarterly financial
reports, news releases,
and corporate disclosures.
Our website provides
extensive information about
the BOD, its mandate, the
BOD committees and their
charters, and its directors.

#### **Board Meetings**

The BOD holds a meeting for organizational purposes every calendar year immediately after election and holds its regular meetings once a month. Special meetings of the BOD may be called at any time by the Chairman or upon written request of at least a majority of the directors.

There are seven Board-level committees which were created to assist the BOD in performing its duties and responsibilities—ensuring efficiency and focus.

Directors continue to exercise their role and responsibilities to the Bank by virtually attending and voting in BOD meetings. The BOD utilizes video conferencing as an alternative mode of communication, which was allowed under the Securities and Exchange Commission's Memorandum Circular No. 6.

#### **Board Attendance**

We held 17 Board meetings in 2023, broken down as 12 regular Board meetings, 4 special Board meetings, and 1 organizational meeting.

Directors	Meetings Attended	% Present

The Board of Directors has the flexibility to conduct meetings using modern technologies, including teleconferencing and video conferencing. This approach ensures active participation from the directors regardless of their physical location. Each Board member attends at least fifty percent (50%) of all meetings and physically attends a minimum of twenty-five percent (25%) annually.

#### **Board Committees**

Pursuant to our Corporate Governance Manual, our BOD created the following committees and appointed Board members. Each member of the respective committees has been holding office as of the last Annual Stockholders' Meeting which was on April 24, 2023, and will serve until their successor shall have been elected and qualified.

#### **Executive Committee**

The Executive Committee is empowered to direct the business of the Bank vested by law in the BOD insofar as such powers and authority may be lawfully delegated to the Executive Committee, including the power to review and approve proposals and transactions related to credit in amounts within the limits of its delegated authority.

The Executive Committee is composed of five members who meet weekly or as often

as it may be necessary to address all matters referred to it. In 2023, it held 28 Regular Executive Committee Meetings.

# Corporate Governance and Compliance Committee (CGCC)

The CGCC leads the Bank and assists the BOD in defining and fulfilling the corporate governance policies and attaining best practices while overseeing the implementation of compliance programs, money laundering prevention programs, and ensuring that regulatory compliance issues are resolved expeditiously.

In addition to its governance role, the CGCC also assumes the nomination function whereby it reviews and evaluates the qualifications of all persons nominated to the BOD, all direct reports of the CEO and the President, heads of Governance Units and other positions requiring appointment by the BOD.

The Committee oversees the annual performance evaluation of the BOD, its committees, and individual directors and conducts an annual self-evaluation of its performance as prescribed under and in accordance with the Corporate Governance

Manual and the SEC Code of Corporate Governance for Publicly Listed Companies and BSP Manual of Regulations for Banks (MORB).

The Committee, composed of four members, three of whom are independent directors, meets every other month or when necessary. In 2023, 13 meetings were conducted and attended by Committee members.

# Related Party Transactions (RPT) Committee

The RPT Committee assists the BOD in ensuring that transactions with related parties of the Bank are handled in a sound and prudent manner, with integrity and in compliance with the applicable laws and regulations to protect the interest of depositors, creditors, and other stakeholders. It also ensures that related party transactions are conducted on an arm's length basis and that no stakeholder is unduly disadvantaged by such transactions.

The RPT Committee is composed of three members, two of whom are independent directors. It meets every other month or whenever necessary to discuss and agree on matters to be endorsed to the BOD for approval or confirmation.

Cristina Q. Orbeta	Member	12	100%
	Total Meetings	Held: 12	

In 2023, eight meetings were conducted and attended by Committee members.

#### **Audit Committee**

The Audit Committee assists the BOD in overseeing our financial reporting process, system of internal controls and the process for monitoring compliance with laws and regulations, and the code of conduct. It also provides reasonable assurance to the Board on our overall management of risks. It is responsible for setting up the Internal Audit Division, and for appointing the Chief Audit Executive and an independent external auditor who both report to the Audit Committee. It monitors and evaluates the

effectiveness and accuracy of our internal control system through the Internal Audit Division.

The Internal Audit Division provides independent, objective assurance and consulting services designed to add value and improve our operations. It helps the organization accomplish its objectives by bringing a systematic, disciplined approach in evaluating and improving the effectiveness of risk management, internal control, and governance processes. It functionally reports to the Audit Committee and administratively to the CEO. The Internal Audit Division is independent of our other

organizational units as well as of the personnel subject of the audit.

The Audit Committee has evaluated and confirmed the adequacy of our internal controls/risk management. The Audit Committee, composed of five members, four of whom are independent directors, meets once a month. In 2023, 12 regular meetings were conducted and attended by Committee members.

# Risk Management Committee (RMC)

The RMC assists the BOD in fulfilling its responsibilities in managing our risk-taking activities. The RMC reviews and approves principles, policies, strategies, processes, and controls all frameworks pertaining to risk management. It also recommends to the BOD any necessary modification or amendment to strategies and policies relative to risk management. Its functions include identifying and evaluating our risk exposures, estimating its impact to the organization and assessing the magnitude, direction and distribution of risks across the Bank, which it uses as basis in determining risk tolerances. RMC reports to the Board the overall risk exposures as well as the effectiveness of its

	Total Meetings	Held: 2	

risk management practices and processes while recommending further policy revisions when necessary.

The RMC is composed of three independent directors. Members of the Committee possess adequate knowledge and understanding of the institution's risk exposures and expertise in developing appropriate risk policies and strategies. In 2023, 12 regular meetings were conducted and attended by all the Committee members.

#### Rewards & Talent Management Committee

The Rewards & Talent Management Committee is composed of five members, including our Chairman, CEO, one director and two independent directors. It ensures that the compensation policies and practices are consistent with the corporate culture, strategy, and the business environment under which it operates. It evaluates and recommends to the BOD incentives and other equitybased plans designed to attract and retain qualified

and competent individuals.

The Committee meets at least once a year and provides overall direction on our compensation and benefits strategy. In 2023, one meeting was conducted and attended by Committee members.

#### **Trust Committee**

The Trust Committee assists the Board in fulfilling its responsibilities to oversee the proper management and administration of our trust and other fiduciary businesses. Duly constituted and authorized by the BOD, the Committee acts within the sphere of authority as provided in our By-laws and/or as may be delegated by the BOD. It undertakes such responsibilities but not limited to the following:

- Acceptance and closing of trust and other fiduciary accounts;
- Initial review of assets placed under the trustee's fiduciary custody;
- Investment, reinvestment and disposition of funds or property;
- Review and approval of transactions between trust and/or fiduciary accounts; and

 Review of trust and other fiduciary accounts to determine the advisability of retaining or disposing of the trust or fiduciary assets and/or whether the account is being managed in accordance with the instrument creating the trust or other fiduciary relationship.

The Trust Committee also presides over the proper conduct of our Trust business, periodically reviewing the business development initiatives such as staffing and delineation of responsibility/accountability, proactive development and implementation of strategies for the cultivation of revenue streams and cost management, and application and monitoring of the proper performance benchmarks.

The Trust Committee is composed of five members: a Trust Officer, 3 directors and one independent director.

It meets once every quarter or more frequently as circumstances may warrant. In 2023, 5 regular meetings were conducted and attended by Committee members.

#### **Independent Audit**

Audit is an essential part of our governance framework and internal control system. Our Internal Audit, which performs year-round audits to check operational efficiency, and our external audit firm, which annually validates the accuracy of financial statements, work independently and collaboratively to examine and evaluate the controls in place and determine if they are working as intended.

#### Internal Audit (IA)

Internal Audit, which provides functional support to the Audit Committee, is mandated to evaluate the effectiveness of systems and controls as well as recommend appropriate

courses of action to Senior Management and the BOD to improve our risk management, compliance, internal controls, and corporate governance processes.

#### **Cascading Compliance**

Compliance with corporate governance standards and regulatory guidelines and directives is a shared responsibility of everyone in the organization. Each employee is expected to have a working knowledge of all relevant laws, rules, and regulations applicable to his assignment and must fulfill his tasks in compliance with our policies, code of conduct, and standards of good governance.

The Compliance Office, headed by the Chief Compliance Officer, is vested with the role of designing our Compliance Program and overseeing and coordinating its effective implementation towards the sound management of compliance risks. It is also responsible for promoting the right compliance culture across the organization.

The Bank appointed Business Compliance Officers (BCO) in every unit who are responsible for ensuring the consistent implementation in his unit of the Compliance Program and cascaded regulatory issuances. As designated by the CEO, the heads of business units are automatically assigned to perform this role, having the sole responsibility for efficiently running the dayto-day operations in his unit. The BCOs are each tasked to appoint a Deputy Business Compliance Officer (DBCO) to serve as their eyes on the ground and facilitate faster and easier coordination with our Compliance Division. In addition, the governance

units, namely Compliance, Risk Management, and Internal Audit, coordinate and work together in meeting our common governance, risk management, and internal control goals.

# Selection and Remuneration Policy for Senior Management

The selection of our Senior Management goes through a thorough process of evaluation. Candidates go through assessment by the Talent Management and Acquisition Head, Hiring Manager and Business or Functional Group Head concerned, and the Group Head of HR based on set standards and parameters such as but not limited to knowledge, expertise and competencies required for the role, integrity and probity, experience and training. The candidates' values are also appraised against those espoused by the Bank.

## **EastWest Organizational Chart**

As of November 2023

<sup>\*</sup>Concurrently the Assistant Corporate Secretary reporting to the Corporate Secretary

## EastWest Rural Bank (EWRB)

## **Building Dreams, Making Heroes**

Originally known as Finman Rural Bank, EWRB's roots trace back to its service to Caniogan, Pasig, over twenty-five years ago. In 2012, it came under EastWest Bank's ownership, fully acquiring it on May 21, 2013, and renaming it EastWest Rural Bank, Inc. (EWRB). Shortly after, EWRB expanded through an asset purchase agreement with Green Bank (of Caraga) in 2013, relocating its headquarters to Davao City on May 13, 2017.

EWRB specializes in catering to the financial needs of teachers and pensioners, offering specialized

Php 30.2B

Php 22.9B

Deposit

Loan Portfolio, gross

ATM accounts like ATM Teachers' Savings and ATM Pensioners' Savings, requiring minimal balances and earning competitive interest rates. Additionally, it provides regular savings options, including passbook accounts and EastWest Special Savings Accounts with flexible terms and competitive interest rates.

Moreover, EWRB serves as a convenient platform for various bill payments, including EastWest credit card bills and SSS contributions, without any service fees.

#### **Performance and Metrics**

**Commitment to Education** 

In October 2023, EWRB utilized its Facebook

teachers nominated by students across the

presence by running the "My Teacher, My Hero!"

Campaign. The campaign recognized outstanding

EWRB participated and sponsored the Department of Education (DepEd) celebration of National

Teachers' Month in October 2023. It ran the "I

presence. The "I Respond Award" is an annual

Respond Award" campaign utilizing its Facebook

recognition given to exemplary teachers who have been very responsive and selfless, making significant contributions to the community. During the "Together4Teachers" culmination celebration, the Bank also provided various prize items which included an E-tricycle for the grand prize as well as motorcycles and tablets as minor prizes for teacher awardees.

These initiatives were to recognize the hardwork and perseverance of the Department of Education and its teachers in pursuing the provision of quality education to the Filipino people.

#### **Increasing Recognition**

EWRB, committed to supporting the teaching population and enhancing public awareness of its offerings, launched its official Facebook Page in March 2023. This platform serves as a vital channel for disseminating bank information, promotions, and announcements, as well as receiving feedback.

Celebrating a decade of outstanding customer service on November 1, 2023, EWRB received special recognition from the DepEd's Learners' Rights Protection Office (LRPO) at the Manila Hotel on November 27, 2023. The award honored EWRB's

dedication to improving the learning environment through initiatives such as donating 280 used computer units.

Furthermore, EWRB collaborated with LRPO during the 2023 Palarong Pambansa, continuing its support for Filipino children's rights and education. The bank's ongoing involvement in initiatives like the annual Brigada Eskwela highlights its commitment to education. Contributions including educational materials, school supplies, construction supplies, and health essentials have been featured in the August 2023 issue of the Palawan Times.

## VICE PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES SECRETARY OF THE DEPARTMENT OF EDUCATION

## **EastWest Ageas Insurance (EWA)**

## **Creating Distinctive Enhancements**

EastWest Ageas (EWA), previously known as Troo, is a joint venture established by EastWest and Ageas. Ageas, with a rich 200-year heritage, is the foremost player in the Life insurance sector in Belgium and operates across multiple countries, cementing its dominant position in the global insurance industry. Since its establishment in 2015, it has operated as a versatile insurance company with multiple channels, catering to various needs of the Bank and the Group.

EWA offers variable and traditional life insurance products that cater to individual and group client needs such as protection against death, sickness, accident, savings for retirement and education, investment, and business funding.

#### Stable Growth

EWA managed quite well in 2023 despite the difficult economic backdrop. Before the year ended, EWA already ranked 12th in terms of Annualized Premium Equivalent (APE) across all 32 life insurance companies in the Philippines.

Assets under management (AUM) closed at Php 12 billion, higher by 22% from the previous year, due to the increase in customer subscriptions. EWA also insured 7% more lives this year. Its overall contribution from commission fees to EastWest's income reached Php 526 million, slightly higher than 2022 figures.

It ended the year with total premiums amounting to Php 5.2 billion, reflective of overall industry performance. Net result, in addition, improved by 33% from the previous year as the company was able to successfully implement an expense management program.

#### **Stepping Up**

In 2023, EWA undertook strategic programs that aim to give its customers more comprehensive insurance options, improve customer experience, and increase its profits in the long run. First, it launched Life Essentials, the newest traditional life and critical illness insurance product that provides coverage up to age 100. Life Essentials was made for individuals who are looking for protection against death and critical illness until age 100 on top of their HMO coverages.

The year also saw the launching of a systems improvement program called Project Discovery, aimed at improving profitability and speed-to-market, boosting employee productivity and effectiveness, and most importantly, giving a better customer experience. This new system has significantly reduced the duration of the application process to 30 minutes while expediting issuance of a policy to one day from the usual three days. Customers now have the ease and advantage of obtaining real-time account information.

#### **Retail Banking Support**

EWA has also provided invaluable support to the Sales Team of EastWest Retail Banking Group. The use of its Leads Management System for encoding cross-sell referral within the bank system has significantly helped in consistent monitoring as data is readily available.

The Bancassurance products are also receiving much-needed awareness and appreciation as they are being marketed to existing Mass Affluent Customers as well as the New-To-Priority Customers who are given personal accident insurance without cost.

#### **Motivated People**

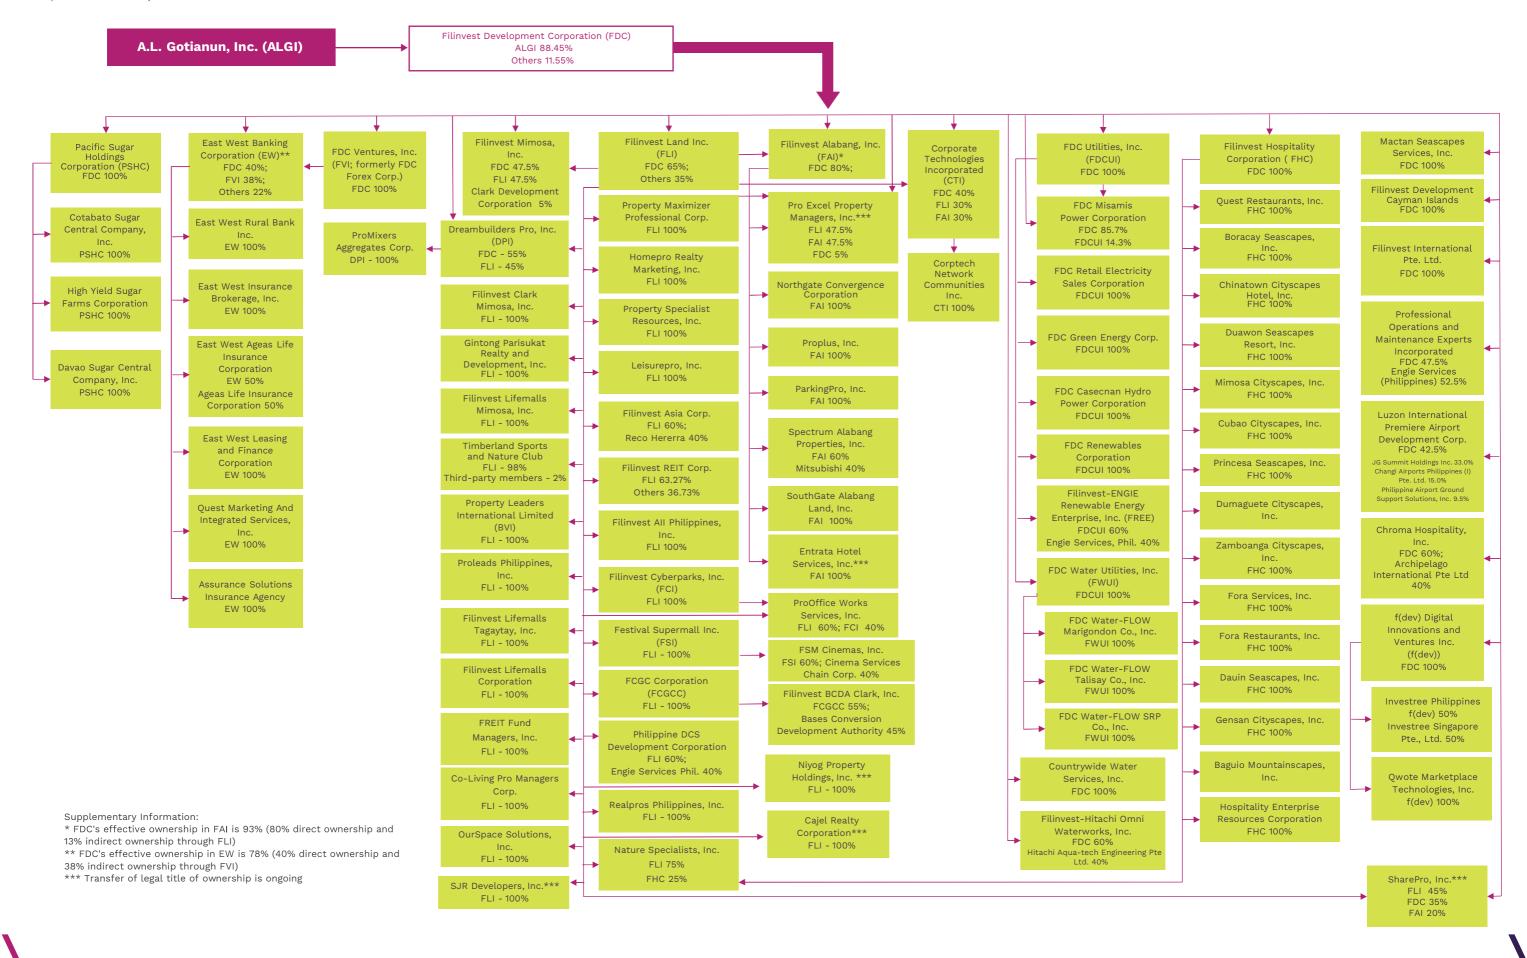

EWA sales team regularly attend 3P and Persona Workshops to sharpen skills in providing relevant solutions to its customers. The Bancassurance performers who stood out among their peers were treated to an all-expense paid trip to Hong Kong and Paris.

Looking ahead, EastWest Ageas stands firm in its commitment to delivering unrivaled service and pioneering solutions to its valued policyholders. Embracing a steadfast dedication to excellence, the company remains fueled by the unwavering support of its stakeholders, propelling its resolve to thrive and evolve within the dynamic landscape of the insurance industry. With a keen focus on innovation and customer-centricity, EastWest Ageas continually strives to anticipate and meet the evolving needs of its clients, ensuring their peace of mind and financial security for years to come.

#### **Relationship with Community**

Significant Impacts on Local Communities	2023
For operations affecting IPs, total number of Free and Informed Prior Consent (FPIC) consultations and Certification Preconditions (CPs) secured	N/A

#### **Customer Management**

Customer Satisfaction	2023
Customer Satisfaction Score	93%
NPS	57

The CSAT, or Customer Satisfaction Score is a metric used to measure the level of customer satisfaction, allowing us to identify areas for improvement and track changes in customer sentiment over time. We typically ask customers to rate their satisfaction over a specific interaction or transaction, often using a scale (e.g., from "very dissatisfied" to "very satisfied"). The CSAT score is then calculated based on the average or percentage of positive responses received from customers.

On the other hand, the NPS, or Net Promoter Score, is a valuable measure of customer loyalty, reflecting the positive relationships we have built with our customers. We obtain our NPS by conducting customer surveys asking a single question: "On a scale of 0 to 10, how likely are you to recommend our bank to a friend or colleague?" Higher scores indicate a higher level of customer satisfaction and loyalty. This metric helps us understand how likely our customers are to recommend our services, which is often seen as a key indicator of business growth and success.

Product/Service Health and Safety	2023
Number of substantiated complaints on product or service health and safety	N/A
Number of complaints addressed	N/A

Marketing and Labeling	2023
Number of substantiated complaints on product or service health and safety	0
Number of complaints addressed	0

Customer Privacy	2023
Number of substantiated complaints on customer privacy	0
Number of complaints addressed	0
Number of customers, users, and account holders whose information is used for secondary purposes	0

#### **Data Security**

Data Security	2023
Number of data breaches, including leaks, thefts, and loss of data	0

# Audited Financial Statements

# Statement of Management's Responsibility for Financial Statements

The management of East West Banking Corporation and Subsidiaries (the Group) is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2023 and 2022, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip, Gorres, Velayo & Co., the independent auditors appointed by the stockholders, have audited the consolidated financial statements of the Group in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed their opinion on the fairness of presentation upon completion of such audit.

# **Independent Auditor's Report**

The Stockholders and the Board of Directors East West Banking Corporation East West Corporate Center The Beaufort, 5<sup>th</sup> Avenue corner 23<sup>rd</sup> Street Fort Bonifacio Global City Taguig City

### Report on the Audit of the Consolidated and Parent Company Financial Statements

### **Opinion**

We have audited the consolidated financial statements of East West Banking Corporation (the Parent Company) and its subsidiaries (the Group) and the parent company financial statements of the Parent Company, which comprise the consolidated and parent company statements of financial position as at December 31, 2023 and 2022 and the consolidated and parent company statements of income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2023, and notes to the consolidated and parent company financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2023 and 2022, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2023, in accordance with Philippine Financial Reporting Standards (PFRSs).

# **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

# Adequacy of allowance for credit losses on loans and receivables

The Bank's application of the expected credit loss (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Bank's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset and expected recoveries from defaulted accounts, and impact of any financial support and credit enhancements extended by any party; and incorporating forward-looking information (called overlays) in calculating ECL.

Allowance for credit losses on loans and receivables of the Group and the Parent Company as of December 31, 2023 amounted to ₱11.92 billion and ₱11.29 billion, respectively. Provision for credit losses on loans and receivables of the Group and the Parent Company in 2023 amounted to ₱6.54 billion and ₱6.22 billion, respectively.

The disclosures related to the allowance for credit losses on loans and receivables are included in Note 15 to the financial statements.

### Audit response

We obtained an understanding of the board-approved methodologies and models used for the Bank's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments*, to reflect an unbiased and probability-weighted outcome, the time value of money, and the best available forward-looking information.

We (a) assessed the Bank's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts and credit risk management policies and practices in place; (c) tested the Bank's application of internal credit risk rating system by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Bank's records and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries including the timing, related direct costs, write-offs and collateral valuations, and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme; (g) evaluated the forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Bank's lending portfolios and broader industry knowledge; and (h) tested the effective interest rate used in discounting the expected loss.

# **Independent Auditor's Report**

Further, we compared the data used in the ECL models from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis.

We recalculated impairment provisions on a sample basis. We involved our internal specialists in the performance of the above procedures. We reviewed the completeness of the disclosures made in the financial statements.

We involved our internal specialists in the performance of the above procedures.

### Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 17-A, SEC Form 20-IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2023, but does not include the financial statements and our auditor's report thereon. The SEC Form 17-A, SEC Form 20-IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2023 are expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

# Responsibilities of Management and Those Charged with Governance for the Consolidated and the Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

# Auditor's Responsibilities for the Audit of the Consolidated and the Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial
  statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,
  and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
  not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as
  fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
  activities within the Group to express an opinion on the consolidated financial statements. We are
  responsible for the direction, supervision and performance the audit. We remain solely responsible for our
  audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and

# **Independent Auditor's Report**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Reports on the Supplementary Information Required Under Section 174 of the Manual of Regulations for Banks (MORB) and Revenue Regulations No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Section 174 of the Manual of Regulations for Banks (MORB) in Notes 36 and Revenue Regulations No. 15-2010 in Note 37 to the financial statements is presented for purposes of filing with the BSP and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of the Parent Company. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is Veronica Mae A. Arce.

# 1. Corporate Information

East West Banking Corporation (EW or the Bank or the Parent Company) is a domestic universal bank which was registered with the SEC on March 22, 1994. The Bank was granted authority by the Bangko Sentral ng Pilipinas (BSP) to operate as a commercial bank and operate an expanded foreign currency deposit unit in 1994. Subsequently in 2012, the Parent Company was authorized by the BSP to operate as a universal bank. The Parent Company's common shares were listed and commenced trading in the Philippine Stock Exchange (PSE) on May 7, 2012 (Note 23).

As of December 31, 2023 and 2022, the Parent Company is effectively 77.85%, owned by Filinvest Development Corporation (FDC). The Parent Company's ultimate parent company is A.L. Gotianun, Inc. The Parent Company's head office is located at East West Corporate Center, The Beaufort, 5th Avenue corner 23rd Street, Fort Bonifacio Global City, Taguig City.

Through its network of 468 branches as of December 31, 2023 and 2022, the Bank and its subsidiaries (the Group) provide a wide range of financial services to consumer and corporate clients, which includes deposit-taking, loan and trade finance, treasury, trust services, credit cards, cash management, custodial services, insurance services and leasing and finance.

# 2. Material Accounting Policy Information

# Basis of Presentation

The accompanying financial statements have been prepared on a historical cost basis except for financial assets at fair value through profit or loss (FVTPL), financial assets at fair value through other comprehensive income (FVTOCI) and derivative financial instruments that have been measured at fair value. The financial statements are presented in Philippine peso (₱) and all values are rounded to the nearest thousand except when otherwise indicated.

The financial statements of the Parent Company include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of the RBU and the FCDU is the Philippine peso and United States dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in Philippine peso, which is the Parent Company's presentation currency (accounting policy on Foreign Currency Transactions and Translation). The financial statements individually prepared for these units are combined after eliminating inter-unit accounts.

The functional currency of all subsidiaries and the joint venture is the Philippine peso.

# Statement of Compliance

The accompanying financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

# Presentation of Financial Statements

The Group presents its statement of financial position broadly in order of liquidity. An analysis regarding recovery or settlement within 12 months after the statement of financial position date (current) and more than 12 months after the statement of financial position date (non-current) is presented in Note 22.

# Basis of Consolidation

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company using consistent accounting policies. The following are the wholly-owned subsidiaries of the Parent Company as of December 31, 2023 and 2022:

	Principal Activities
East West Rural Bank, Inc. (EWRB)	Consumer banking
East West Insurance Brokerage, Inc. (EWIB)	Non-life insurance brokerage
Quest Marketing and Integrated Services, Inc. (Q iMIS)	Sales and marketing
Assurance Solutions Insurance Agency (ASIA)*	General insurance and marketing
East West Leasing and Finance Corporation (EWLFC)*	Finance and leasing
* Non operational since 2017	

All significant intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in the consolidated financial statements.

The subsidiaries are fully consolidated from the date of acquisition, being the date on which the Parent Company obtains control and continues to be consolidated until the date when control ceases. Control is achieved when the Parent Company is exposed, or has rights, to variable return from its involvement with an entity and has the ability to affect those returns through its power over the entity. The Parent Company has power over the entity when it has existing rights that give it the current ability to direct relevant activities (i.e., activities that significantly affect the entity's returns). Consolidation of subsidiaries ceases when control is transferred out of the Parent Company. The results of subsidiaries acquired or disposed of during the period are included in the consolidated statement of income from the date of acquisition or up to the date of disposal, as appropriate.

# Changes in Accounting Policies and Procedures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new pronouncements effective as at January 1, 2023. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements.

- Amendments to Philippine Accounting Standards (PAS) 1, Presentation of Financial Statements, and PFRS Practice Statement 2, Disclosure Initiative – Accounting Policies
   The amendments provide guidance and examples to help entities apply materiality judgments to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:
  - Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies; and
  - Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to the Practice Statement provide non-mandatory guidance. The amendments have had an impact on the Group's disclosure of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's financial statements.

Amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors –
 Definition of Accounting Estimates
 The amendments introduce a new definition of accounting estimates and clarify the distinction
 between changes in accounting estimates and changes in accounting policies and the correction of
 errors. The amendments also clarify that the effects on an accounting estimate of a change in an

input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

- Amendments to PAS 12, Income Taxes Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction
  - The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases. The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense). The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented.
- Amendments to PAS 12, *Income Taxes International Tax Reform Pillar Two Model Rules*The amendments have been introduced in response to the Base Eroson and Profit Sharing Pillar Two model rules of the Organization for Economic Cooperation and Development and include:
  - o A mandatory temporary exemption to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
  - Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exemption – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after January 1, 2023 but not for any interim periods ending on or before December 31, 2023.

The amendments had no impact on the Group's financial statements as the Group is not in the scope of the Pillar Two model rules as its revenue is less than EUR750 million per year.

### Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, amounts due from Bangko Sentral ng Pilipinas (BSP) and other banks, and interbank loans receivables and SPURA with original maturities of three months or less from dates of placements and that are subject to insignificant risks of changes in value. Due from BSP includes the statutory reserves required by the BSP which the Group considers as cash equivalents wherein withdrawals can be made to meet the Group's cash requirements as allowed by the BSP.

# Foreign Currency Transactions and Translation

The financial statements are presented in PHP, which is the Group's functional and presentation currency. The book of accounts of RBU are maintained in PHP, while those of the FCDU are maintained in USD.

# RBU

For financial reporting purposes, the foreign currency-denominated monetary assets and liabilities in the RBU are translated in Philippine peso based on the Philippine Dealing System (PDS) closing rate prevailing at the statement of financial position date and foreign currency-denominated income and expenses, at the prevailing exchange rate at the date of transaction. Foreign exchange differences arising from revaluation and translation of foreign currency-denominated assets and liabilities of the RBU are credited to or charged against operations in the period in which the rates change.

Non-monetary items that are measured in terms of historical cost are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

# FCDU

As at the reporting date, the assets and liabilities of the FCDU of the Parent Company are translated into the Parent Company's presentation currency (the Philippine Peso) at PDS closing rate prevailing at the statement of financial position date, and their income and expenses are translated at Bankers Association of the Philippines (BAP) weighted average rate for the year. Exchange differences arising on translation are taken to the statement of comprehensive income under 'Cumulative translation adjustment'. Upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statement of comprehensive income is recognized in the statement of income in the RBU books.

# Fair Value Measurement

The Group measures certain financial instruments such as financial assets at FVTPL, financial assets at FVTOCI and derivative financial instruments at fair value at each statement of financial position date. Also, fair values of financial instruments carried at amortized cost and investment properties carried at cost are measured for disclosure purposes.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each statement of financial position date.

External appraisers are involved for valuation of significant non-financial assets, such as investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are adhered to.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy (Note 5).

# **SPURA**

Securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the balance sheet. The corresponding cash paid including accrued interest is recognized in the balance sheet as SPURA. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the EIR method.

# Financial Instruments - Initial Recognition and Subsequent Measurement

Date of recognition

The Group recognizes financial instruments when, and only when, the Group becomes a party to the contractual terms of the financial instruments.

Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date, i.e., the date that an asset is delivered to or by the Group. Settlement date accounting refers to (a) the recognition of an asset on the day it is received by the Group, and (b) the derecognition of an asset and recognition of any gain or loss on disposal on the day that it is delivered by the Group. Securities transactions and related commission income and expense are recorded also on a settlement date basis. Deposits, amounts due to banks and customers, and loans and receivables are recognized when cash is received by the Group or advanced to the borrowers.

Derivatives are recognized on trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. Trade date accounting refers to (a) the recognition of an asset to be received and the liability to pay for it on the trade date, and (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

# Initial recognition of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing instruments, as described below. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction cost are added in, or subtracted from this amount. When the fair value of financial instrument at initial recognition differs from the transaction price, the Group accounts for Day 1 profit or loss, as described below.

# 'Day 1' Difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the statement of income. In

cases where the transaction price used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

Financial Instruments - Classification, Reclassification and Subsequent Measurement
Financial assets are measured at FVTPL unless these are measured at FVOCI or at amortized cost.
Financial liabilities are classified as either financial liabilities at FVTPL or financial liabilities at amortized cost. The classification of financial assets depends on the contractual terms and the business model for managing the financial assets. Subsequent to initial recognition, the Bank may reclassify its financial assets only when there is a change in its business model for managing these financial assets. Reclassification of financial liabilities is not allowed.

The Bank determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Bank's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios. As a second step of its classification process, the Bank assesses the contractual terms of financial assets to identify whether they pass the contractual cash flows test (SPPI test).

# Contractual cash flow characteristics test

The Group assesses the contractual terms of financial assets to identify whether they meet the 'solely payments of principal and interest' (SPPI) test. Principal, for the purpose of this test, is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset.

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than *de minimis* exposure to risks or volatility in the contractual cash flows that are unrelated to a basis lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

### Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-on-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model, and the financial assets held within that business model) and in particular, the way those risks are managed
- How managers of the business are compensated
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of

the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Financial assets at amortized cost

Financial assets are measured at amortized cost if both of the following conditions are met:

- the contractual terms of the instrument give rise on specified dates to cash flows that are SPPI on the principal amount outstanding; and
- the asset is held within the Group's business model whose objective is to hold assets in order to collect contractual cash flows.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method less any allowance for credit losses, with the calculated interest recognized as 'Interest income in the statement of income.

The Group's financial assets at amortized cost are presented in the statement of financial positions as 'Due from BSP', 'Due from other banks', 'Interbank loans receivables and SPURA', 'Investment securities at amortized cost', 'Loans and receivables' and other financial assets (i.e., security deposits, deposit to suppliers and returned cash and other cash items) under 'Other assets'.

The Group may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria above as at FVTPL if that designation eliminates or significantly reduces an accounting mismatch that would arise had the financial asset been measured at amortized cost. As of December 31, 2023 and 2022, the Group has not made such designation.

Financial assets at FVTOCI

Financial assets at FVTOCI include debt and equity securities.

Debt securities at FVTOCI

Debt securities at FVTOCI are those that meet both of the following conditions:

- the contractual terms of the financial asset give rise to cash flows that are SPPI on the outstanding principal amount;
- the asset is held within a business model whose objective is both to sell or hold the financial asset in order to both collect contractual cash flows.

Debt securities at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for sale or disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income as 'Change in net unrealized gains (losses) on debt securities at FVTOCI'. The effective yield component and foreign exchange gains (losses) of debt securities at FVTOCI are reported on the statement of income. The ECL arising from impairment of such investments are recognized in OCI with a corresponding charge to 'Provision on credit and impairment losses' in the statement of income.

On derecognition, cumulative gains or losses previously recognized in OCI are reclassified from OCI to profit or loss.

Financial assets at FVTPL

Debt instruments that do not meet the amortized cost or FVTOCI criteria, or that meet the criteria but the Group has chosen to designate as at FVTPL at initial recognition, are measured at fair value through profit or loss. Equity investments are classified as at FVTPL, unless the Group designates an investment that is not held for trading as at FVTOCI at initial recognition. Derivative assets classified as at FVTPL are those that are not designated under hedge accounting treatment.

The Group's financial assets at FVTPL include government securities, private bonds, equity securities held for trading purposes and derivative assets.

Financial assets at FVTPL are initially measured at fair value without considering transaction costs. Subsequently, financial assets at FVTPL are re-measured fair value, and fair value gains and losses on these instruments are recognized as 'Trading and securities gain' in the statement of income. Interest earned on these investments is reported in the statement of income under 'Interest income' while dividend income is reported in the statement of income under 'Miscellaneous income' when the right of payment has been established. Quoted market prices, when available, are used to determine the fair value of these financial instruments. If quoted market prices are not available, their fair values are estimated based on inputs provided by the BSP, Bureau of Treasury and investment bankers. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques.

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the PDS closing rate at the statement of financial position date. The foreign exchange component forms part of its fair value gain or loss. For financial assets classified as at FVTPL, the foreign exchange component is recognized in the statement of income. For equity financial assets designated as at FVTOCI, any foreign exchange component is recognized in OCI. For foreign currency-denominated debt instruments classified as at amortized cost and as at FVTOCI, the foreign exchange gains and losses are determined based on the amortized cost of the asset and are recognized in the statement of income.

# Reclassification of financial assets

Subsequent to initial recognition, the Group may reclassify financial assets only if the objective of its business model for managing those financial assets changes.

The Group is required to reclassify the following financial assets:

- from amortized cost or FVTOCI to FVTPL, if the objective of the business model changes so that the amortized cost or FVTOCI criteria are no longer met
- from FVTPL to amortized cost or FVTOCI, if the objective of the business model changes so that the amortized cost or FVTOCI criteria start to be met and the characteristics of the instruments contractual cash flows are SPPI
- from amortized cost to FVTOCI if the business model changes so that the objective becomes both to collect contractual cash flows and to sell or from FVTOCI to amortized cost if the business model becomes solely for the collection of contractual cash flows.

Reclassification of financial assets designated as at FVTPL or equity financial assets at FVTOCI at initial recognition is not permitted.

A change in the Group's business model must be effected before the reclassification date. The reclassification date is the beginning of the reporting period following the change in the business model.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or is designated as at FVTPL.

A financial liability is held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or

• it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Management may designate a financial liability at FVTPL upon initial recognition when the following criteria are met, and designation is determined on an instrument by instrument basis:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the liabilities or recognizing gains or losses on them on a different basis; or
- The liabilities are part of a group of financial liabilities which are managed, and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The financial instrument contains an embedded derivative, unless the embedded derivative does not significantly modify the cash flows, or it is clear, with little or no analysis, that it would not be separately recorded.

Financial liabilities at FVTPL are initially measured at fair value without considering transaction costs. Subsequently, financial liabilities at FVTPL are re-measured fair value, and fair value gains and losses on these instruments are recognized as 'Trading and securities gain' in the statement of income. Interest earned on these investments is reported in the statement of income under 'Interest income' while dividend income is reported in the statement of income under 'Miscellaneous income' when the right of payment has been established. Quoted market prices, when available, are used to determine the fair value of these financial instruments. If quoted market prices are not available, their fair values are estimated based on inputs provided by the BSP, Bureau of Treasury and investment bankers. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques.

As of December 31, 2023 and 2022, the Group's financial liabilities at FVTPL include derivative liabilities.

# Financial liabilities at amortized cost

Issued financial instruments or their components, which are not designated as at FVTPL, are classified as financial liabilities at amortized cost under deposit liabilities, bills and acceptances payable, subordinated debt or other appropriate financial liability accounts, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, financial liabilities not qualified and not designated as FVTPL are subsequently measured at amortized cost using the effective interest amortization method. Amortized cost is calculated by taking into account any discount or premium on the issuance and fees that are an integral part of the effective interest rate (EIR).

# Impairment of Financial Assets

PFRS 9 requires the Group to record ECL for all loans and other debt financial assets not classified as at FVTPL, together with irrevocable loan commitments and financial guarantee contracts.

# Expected credit loss methodology

ECL represent credit losses that reflect an unbiased and probability-weighted amount which is based on reasonable and supportable information about past events, current conditions and forecasts of future economic conditions, and the time value of money. The objective of the new impairment model is to record lifetime losses on all financial instruments which have experienced a significant increase in credit risk (SICR) since their initial recognition. As a result, ECL allowances are now measured at amounts equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which have experienced a SICR since initial recognition (General Approach). The 12-month ECL is the portion of lifetime ECL that results from default events on a financial instrument that are possible within the next 12 months after the reporting date. Lifetime ECLs are credit losses that result from all possible default events over the expected life of a financial instrument.

# Staging assessment

For non-credit-impaired financial instruments:

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced SICR since initial recognition. The Group recognizes a 12-month ECL for Stage 1 financial instruments.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced SICR since initial recognition, evidenced by missed payments (for monthly amortizing exposures) and/or the significant increase in the likelihood of default. The Group recognizes a lifetime ECL for Stage 2 financial instruments.

# For credit-impaired financial instruments:

• Financial instruments are classified as Stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of the financial asset. The ECL model requires that lifetime ECL be recognized for credit-impaired financial instruments.

For the movement of accounts to better stages (i.e. from Stage 2 or 3 to Stage 1 or 2):

• Financial instruments are moved to better stages when there is significant improvement to the credit risk such that the criteria for assessment of the better stage are met and there is consistent evidence of good credit behavior by the borrower.

Financial assets that are credit-impaired on initial recognition are classified as purchased or originated credit-impaired (POCI) assets. These are recorded at fair value at initial recognition and interest income is subsequently recognized based on a credit-adjusted EIR. ECL is only recognized or released to the extent that there is a subsequent change in the ECLs.

# Definition of "default" and "cure"

For the calculation of ECL, the Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, in all cases when the borrower becomes: 1) 91 days past due for amortizing exposures; or 2) non-collection of full amounts at maturity date for non-amortizing loans or bullet-payment loans. As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate likelihood of non-payment when an account is under litigation. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (i.e., cured) when it no longer meets any of the default criteria and there is sufficient evidence to support full collection thru payments received for at least 6 months.

# Credit risk at initial recognition

The Group has an internal credit assessment process to determine the credit risk of exposures at initial recognition. The Group has separate models for its key portfolios in which the customers are rated using internal credit rating grades. The models incorporate both qualitative and quantitative information.

# Significant increase in credit risk (SICR)

The Group monitors all assets subject to ECL. In order to determine whether an instrument or a portfolio of instruments is subject to 12-month ECL or lifetime ECL, the Group assesses whether there has been a SICR since initial recognition. A set of defined empirical-based rules and expert judgment that discriminate good and bad credit make up the SICR model. For corporate loans and investments to debt-type instruments, accounts are considered to have a SICR if the equivalent Probability of default (PD) exceeds the Group's set threshold. The Group also considers an account to have a SICR if contractual payments are more than thirty (30) days past due or the account is considered "watchlist".

To capture the impact of the pandemic to the credit portfolios, the Bank performed the following: 1) updated the macroeconomic forecasts to reflect the downturn caused by the pandemic and the outlook on the recovery; and 2) identified borrower segments that are likely to experience income disruption due to the community quarantine restrictions and factor adjustments are applied to the expected loss parameters based on the estimated potential increase to defaults and/or difficulty in recoveries as determined through expert credit judgment.

# Restructuring

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to create a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges. Accounts subjected to distressed restructuring with indications of unlikeliness to pay are categorized as impaired accounts and are initially moved to Stage 3.

# Assessment of ECL on a collective basis

The Group calculates ECL either on an individual or collective basis. The Group performs collective impairment by grouping exposures into smaller homogenous portfolios based on a combination of borrower and account characteristics. Accounts with similar attributes (i.e., type of facility) are pooled together for calculating provisions based on the ECL models.

# ECL parameters and methodologies

ECL is a function of the PD, Exposure at default (EAD) and Loss given default (LGD), with consideration for the expected timing of the loss, and is estimated by incorporating forward-looking economic information through the use of statistical techniques and/or experienced credit judgment.

The PD represents the likelihood that a credit exposure will not be repaid and will go into default in either a 12-month horizon for Stage 1 or within the remaining life of the exposure for Stage 2. The PD for each individual instrument is modelled based on historical data and is adjusted for current market conditions and reasonable and supportable information about future economic conditions. The Group segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristics of the portfolio, behavior of the accounts and materiality of the portfolio as compared to the total portfolio.

EAD is modelled on historical data and represents an estimate of the outstanding amount of credit exposure at the time a default may occur. For off-balance sheet and undrawn amounts from irrevocable committed credit lines, EAD includes an estimate of any further amounts to be drawn at the time of default (i.e., credit conversion factor). LGD is the amount that may not be recovered in the event of default and is modelled based on historical net cash flow recoveries from collections and the sale of foreclosed assets.

### Economic overlays

The Group incorporates economic overlays into its assessment of SICR and its measurement of ECL. A broad range of economic overlays are considered as economic inputs, such as GDP growth, inflation rates, unemployment rates and interest rates. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect these, quantitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

The Group's loans and receivables consists of different portfolios, such as auto, corporate, credit card receivables, mortgage loans, as well as other receivables (e.g., personal, branch, emerging enterprise lending, and Department of Education (DepEd) loans). In compliance with PFRS 9, the Group has developed ECL parameters and methodologies for each portfolio, using historical data as well as forward-looking inputs and assumptions.

### Undrawn Loan Commitments

Undrawn loan commitments and letters of credit are commitments under which over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. The nominal contractual value of undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the statement of financial position. Starting January 1, 2019, these contracts are in the scope of the ECL requirements where the Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to financial guarantees and undrawn amounts of irrevocable loan commitments is recognized in 'Other liabilities'.

### Financial guarantees

Financial guarantees are initially recognized at fair value. Subsequent to initial recognition, the Group's liability under each financial guarantee is measured at the higher of the amount initially recognized less cumulative amortization recognized in the income statement and the amount of related ECL.

### Restructured loans

Loan restructuring may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subjected to an individual or collective impairment assessment, calculated using the loan's original EIR. The difference between the recorded value of the original loan and the present value of the restructured cash flows, discounted at the original EIR, is recognized in 'Provision for impairment and credit losses' in the statement of income.

# Derecognition of Financial Assets and Financial Liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired or transferred;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risk and rewards of the asset but has transferred the control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial assets are written off either partially or fully only when the Group has stopped pursuing the recovery. If a write-off is later recovered, any amounts formerly charged are credited to 'Recovery on charged-off assets' under 'Miscellaneous income' in the statements of income.

# Modification of financial assets

In certain circumstances, the Group modifies the original terms and condition of a credit exposure to form a new loan agreement on payment schedule. The modification can be given on the borrower's or counterparty's current or expected financial difficulty. The modification may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of period payments and accrual of interest and charges.

The Group derecognizes a financial asset when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference between its carrying amount and the fair value of the new asset recognized as a derecognition gain or loss in profit or loss, to the extent that an impairment loss has not already been recorded.

The Bank considers both qualitative and quantitative factors in assessing whether a modification of financial asset is substantial or not. When assessing whether a modification is substantial, the Bank considers the following factors, among others:

- Change in currency
- Introduction of an equity feature
- Change in counterparty
- If the modification results in the asset no longer considered "solely payment for principal and interest"

The Bank also performs a quantitative assessment similar to that being performed for modification of financial liabilities. In performing the quantitative assessment, the Bank considers the new terms of a financial asset to be substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the present value of the remaining cash flows of the original financial asset.

When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of a new financial asset, the modified asset is considered a 'new' financial asset. Accordingly, the date of the modification shall be treated as the date of initial recognition of that financial asset when applying the impairment requirements to the modified financial asset. The newly recognized financial asset is classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be originated as credit impaired (POCI).

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Bank recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the statement of income.

If the modification does not result in cash flows that are substantially different, as set out above, then it does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

### Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

# **SSURA**

Securities sold under agreements to repurchase at a specified future date ('repos') are not derecognized from the statement of financial position. The corresponding cash received, including accrued interest, is recognized in the statement of financial position as SSURA included in 'Bills and acceptances payable and SSURA' and is considered as a loan to the Group, reflecting the economic substance of such transaction.

# Offsetting Financial Instruments

Financial assets and financial liabilities are offset, and the net amount reported in the statement of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

## Property and Equipment

Land is stated at cost less any impairment in value and depreciable properties including buildings, leasehold improvements and furniture, fixtures and equipment are stated at cost less accumulated depreciation and amortization, and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the assets to their working condition and location for their intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs, and maintenance are normally charged against operations in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures

have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional cost of the assets. When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and any accumulated impairment in value are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Depreciation and amortization are computed using the straight-line method over the following estimated useful lives (EUL) of the property, equipment and ROU assets.

	Group	Parent
Buildings	25-40 years	30-40 years
Major furniture, fixtures and equipment	3-5 years	3-5 years
ROU asset	6-10 years	6-10 years

The EUL of the vaults of EWRB is 20 years. The cost of the leasehold improvements is amortized over the shorter of the covering lease term or the EUL of the improvements of 10 years.

The estimated useful life and the depreciation and amortization method are reviewed periodically to ensure that the period and the method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognition of the asset calculated as the difference between the net disposal proceeds and the carrying amount of the asset is included in the statement of income in the period the asset is derecognized.

# **Investment Properties**

Investment properties are measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at the fair value of the asset acquired unless the fair value of such an asset cannot be measured in which case the investment property acquired is measured at the carrying amount of the asset given up. Foreclosed properties are recorded as 'Investment properties' upon: (a) entry of judgment in case of judicial foreclosure; (b) execution of the Sheriff's Certificate of Sale in case of extra-judicial foreclosure; or (c) notarization of the Deed of Dacion in case of dation in payment (dacion en pago). Subsequent to initial recognition, depreciable investment properties are carried at cost less accumulated depreciation and any impairment in value. Investment properties comprise completed property and property under construction or redevelopment (land, buildings and malls) that are held to earn rentals or capital appreciation or both and that are not occupied by the Group. Investment properties also include right-of-use assets involving real properties that are subleased to other entities.

For those right-of-use assets that qualify as investment properties, i.e., those land and buildings that are subleased by the Group, these are classified under investment properties in accordance with paragraph 48 of PFRS 16. Consistent with the Group's policy regarding the measurement of investment properties, these assets are subsequently measured at cost less amortization and impairment in value.

Investment properties are derecognized when they have either been disposed of or when the investment properties are permanently withdrawn from use and no future benefit is expected from their disposal. Any gains or losses on the retirement or disposal of investment properties are recognized in the statement of income under 'Gain on sale of assets' in the year of retirement or disposal.

Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are normally charged to income in the period in which the costs are incurred.

Depreciation is calculated on a straight-line basis using the remaining useful lives from the time of acquisition of the investment properties but not to exceed 10 years for both buildings and condominium units.

Foreclosed properties of land or building are classified under Investment properties from foreclosure date.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

# Other repossessed assets

Other repossessed assets comprise of repossessed vehicles which are measured at cost less accumulated depreciation and impairment. Depreciation is calculated on a straight-line basis using the remaining useful life from the time of acquisition of the asset. The useful life of other repossessed assets is estimated to be five (5) years.

The carrying values of other properties acquired are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Nonfinancial Assets).

### Investments in Subsidiaries

Investments in subsidiaries in the Parent Company's separate financial statements are accounted for under the equity method.

Under the equity method, an investment in subsidiary is carried in the statement of financial position at cost plus post-acquisition changes in the Parent Company's share of the net assets of the subsidiary. Post-acquisition changes in the share of net assets of the subsidiaries include the share in the: (a) income or losses; and (b) remeasurement of retirement plans. Dividends received are treated as a reduction in the carrying amount of the investments. The statement of income reflects the share of the results of operations of the subsidiary. Where there has been a change recognized directly in the equity of the subsidiary, the Parent Company recognizes its share of any changes and thus, when applicable, discloses in the statement of changes in equity. If the Parent Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Parent Company discontinues recognizing its share in further losses.

# Investment in a Joint Venture

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investment in a joint venture is accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the joint venture since the acquisition date. The statement of income reflects the Group's share of the results of operations of the joint venture. Any change in OCI of the investee is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the joint venture, the Group recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture. The aggregate of the Group's share of profit or loss of a joint venture is shown on the face of the statement of income and represents profit or loss after tax.

On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in a joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in a joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognizes the loss as 'Share in net income (loss) of joint venture' in the statement of income.

Upon loss of joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of joint control and the aggregate of the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

The financial statements of the joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

## Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value at the date of acquisition. Following initial recognition, intangible assets, excluding goodwill and branch licenses, are carried at cost less any accumulated amortization and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each statement of financial position date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of income.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually or more frequently, either individually or at the CGU level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of income when the asset is derecognized.

Intangible assets include goodwill, branch licenses, customer relationship, core deposits and capitalized software (Note 13).

### Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. Following initial recognition, goodwill is measured at cost less accumulated impairment losses. Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

### Branch licenses

Branch licenses are determined to have indefinite useful lives. These are tested for impairment annually either individually or at the CGU level. Such intangible assets are not amortized. The useful life is reviewed annually to determine whether indefinite useful life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

# Customer relationship and core deposits

Customer relationship and core deposits are the intangible assets acquired by the Group through business combination. These intangible assets are initially measured at their fair value at the date of acquisition. The fair value of these intangible assets reflects expectations about the probability that the expected future economic benefits embodied in the asset will flow to the Group.

Following initial recognition, customer relationship and core deposits are measured at cost less accumulated amortization and any accumulated impairment losses. Customer relationship related to the credit cards business is amortized on a straight-line basis over its useful life of 40 years while the customer relationship related to the auto loans business and core deposits are amortized on a straight-line basis over its useful life of 13 and 10 years, respectively (Note 13).

### Capitalized software

Capitalized software acquired separately is measured at cost on initial recognition. Following initial recognition, capitalized software is carried at cost less accumulated amortization and any accumulated impairment losses. The capitalized software is amortized on a straight-line basis over its estimated useful life of 5-10 years.

# Impairment of Nonfinancial Assets

An assessment is made at each statement of financial position date whether there is any indication of impairment of property and equipment, investment properties, other repossessed assets and intangible assets, or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated at the higher of the asset's value in use or its fair value less cost to sell. In assessing value in use, the estimated future

cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognized only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged against the statement of income in the period in which it arises, unless the asset is carried at a revalued amount in which case the impairment loss is charged against the revaluation increment of the said asset.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is credited to current operations, unless the asset is carried at a revalued amount in which case the reversal of the impairment loss is credited to the revaluation increment of the said asset.

The following criteria are also applied in assessing impairment of specific assets:

Property and equipment, investment properties and other repossessed assets

The carrying values of the property and equipment and investment properties are reviewed for impairment when events or changes in circumstances indicate the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, the assets or CGUs are written down to their recoverable amounts.

### Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the statement of income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods.

# Branch licenses

Branch licenses are tested for impairment annually at the statement of financial position date either individually or at the CGU level, as appropriate.

# Other intangible assets

Other intangible assets such as customer relationship, core deposits and capitalized software are assessed for impairment whenever there is an indication that they may be impaired.

### Revenue Recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. Revenue from contracts with customers is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

The following specific recognition criteria must also be met before revenue is recognized:

# Service charges and penalties

Service charges and penalties earned over a period of time are accrued over that period as the customer simultaneously receives and consumes the benefits provided by the Group. Service charges and penalties are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised services to a customer and excludes amounts collected on behalf of third parties.

### Interest income

Under PFRS 9, interest income is recorded using the EIR method for all financial assets measured at amortised cost, interest rate derivatives for which hedge accounting is applied and the related amortisation/recycling effect of hedge accounting. Interest income on interest bearing financial assets at FVOCI under PFRS 9 is also recorded using the EIR method. Interest expense is also calculated using the EIR method for all financial liabilities held at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset or liability or, when appropriate, a shorter period, to the gross carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the financial asset) is calculated by taking into account transaction costs and any discount or premium on the acquisition of the financial asset, as well as fees and costs that are an integral part of the EIR. The Group recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, the EIR calculation also takes into account the effect of potentially different interest rates that may be charged at various stages of the financial asset's expected life, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations of fixed rate financial assets' or liabilities' cash flows are revised for reasons other than credit risk, then changes to future contractual cash flows are discounted at the original EIR with a consequential adjustment to the carrying amount. The difference from the previous carrying amount is booked as a positive or negative adjustment to the carrying amount of the financial asset or liability on the balance sheet with a corresponding increase or decrease in Interest revenue/expense calculated using the effective interest method.

For floating-rate financial instruments, periodic re-estimation of cash flows to reflect the movements in the market rates of interest also alters the effective interest rate, but when instruments were initially recognized at an amount equal to the principal, re-estimating the future interest payments does not significantly affect the carrying amount of the asset or the liability.

The IBOR reform Phase 2 amendments allow as a practical expedient for changes to the basis for determining contractual cash flows to be treated as changes to a floating rate of interest, provided certain conditions are met. The conditions include that the change is necessary as a direct consequence of IBOR reform and that the transition takes place on an economically equivalent basis.

# Commissions earned on credit cards

Commissions earned on credit cards are taken up as income upon receipt from member establishments of charges arising from credit availments by credit cardholders. These commissions are computed based on certain agreed rates and are deducted from amounts remittable to member establishments.

Purchases by credit cardholders, collectible on an installment basis, are recorded at the cost of the items purchased plus certain percentage of cost. The excess over cost is credited to Unearned discount and is shown as a deduction from Loans and receivables in the statement of financial position.

The unearned discount is taken to income over the installment terms and is computed using the effective interest method.

### Gain on sale of assets

Income from sale of assets include any gains or losses on the retirement or disposal of property and equipment, investment properties, and other repossessed assets. The gain or loss arising from the derecognition is recognized in the statement of income in the year of retirement or disposal.

### Other income

Income from sale of services or properties is recognized when control of such services or properties are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

# **Expense Recognition**

Expenses are recognized in the statement of income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Expenses are recognized in the statement of income:

- on the basis of a direct association between the costs incurred and the earning of specific items of income:
- on the basis of systematic and rational allocation procedures when economic benefits are
  expected to arise over several accounting periods and the association can only be broadly or
  indirectly determined; or
- immediately when the expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify or cease to qualify, for recognition in the statement of financial position as an asset.

Expenses in the statement of income are presented using the nature of expense method. General and administrative expenses are cost attributable to administrative and other business activities of the Group.

# Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

### Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized adjusted by lease payments made at or before the commencement date and lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the depreciable assets. The depreciation expense is presented under 'Depreciation and Amortization' in the statement of income.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in Impairment of Nonfinancial Assets.

### Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

### Short-term leases and low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of ATM sites (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of ATM sites that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognized as expense on a straight-line basis over the lease term.

# Retirement Cost

# Defined benefit plan

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset; and
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of income. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets (excluding net interest on defined benefit asset) and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods. All remeasurements are recognized in other comprehensive income account. Remeasurement gains (losses) on retirement plan are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

## Termination benefit

Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes the related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

# Employee leave entitlement

Employee entitlement to annual leave is recognized as a liability when the employees render the services that increase their annual leave entitlement. The cost of accumulating annual leave is measured as the additional amount that the Group expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period.

# Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at pre-tax rate that reflects current market assessments of the time value of money and where, appropriate, the risk specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as Interest expense in the statement of income.

Contingent liabilities are not recognized in the financial statements but are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed in the notes to financial statements when an inflow of economic benefits is probable.

### Debt Issue Costs

Issuance, underwriting and other related expenses incurred in connection with the issuance of debt instruments (other than debt instruments designated at FVTPL) are deferred and amortized over the terms of the instruments using the effective interest method. Unamortized debt issuance costs are included in the measurement of the related carrying value of the debt instruments in the statement of financial position.

# **Income Taxes**

### Current taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the statement of financial position date.

# Deferred taxes

Deferred tax is provided, using the balance sheet liability method, on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from the excess of Minimum Corporate Income Tax (MCIT) over the regular income tax and unused Net Operating Loss Carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward of unused tax credits from excess MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Current tax and deferred tax relating to items recognized directly in equity is recognized in other comprehensive income and not in the statement of income.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date.

# **Equity**

Capital stock is measured at par value for all shares issued. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

When the shares are sold at a premium, the difference between the proceeds and the par value is credited to Additional paid in capital account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Group, the shares shall be measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

Direct cost incurred related to the equity issuance, such as underwriting, accounting and legal fees, printing costs and taxes are charged to 'Additional paid in capital' account. If additional paid-in capital is not sufficient, the excess is charged against 'Surplus'.

Surplus represents accumulated earnings of the Group less dividends declared.

# **Dividends on Common Shares**

Dividends on common shares are recognized as a liability and deducted from equity when declared and approved by the Board of Directors (the Board or BOD) of the Parent Company and approved by the BSP. Dividends for the year that are declared and approved after the statement of financial position date, if any, are dealt with as an event after the financial reporting date and disclosed accordingly.

# Earnings Per Share (EPS)

Basic EPS is determined by dividing the net income for the year attributable to common shares by the weighted average number of common shares outstanding during the year while diluted EPS is computed by dividing net income for the year attributable to common shares by the weighted average number of outstanding and dilutive potential common shares. Basic and diluted EPS are given retroactive adjustments for any stock dividends declared and stock rights exercised in the current year, if any. The Group does not have dilutive potential common shares.

# Segment Reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is one that provides products or services within a particular economic environment that is subject to risks and returns that are different from those segments operating in other economic environments.

The Group's operations are organized according to the nature of products and services provided. Financial information on business segments is presented in Note 6.

# Events after the Financial Reporting Date

Post year-end events that provide additional information about the Group's position at the statement of financial position date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes when material to the financial statements.

# Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Parent Company acts in a fiduciary capacity such as nominee, trustee or agent.

# Standards Issued but Not Yet Effective

Listed below are accounting standards and interpretations issued but not yet effective up to the date of issuance of the Group's consolidated financial statements. The Group intends to adopt these standards when they become effective. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards and interpretations to have significant impact on the financial statements.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current* The amendments clarify:
  - That only covenants with which an entity must comply on or before the reporting date will affect a liability's classification as current or non-current;
  - That classification is unaffected by the likelihood that an entity will exercise its deferral right;
  - O That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on its current practice and whether existing loan agreements may require renegotiation.

• Amendments to PAS 7, Statement of Cash Flows, and PFRS 7, Financial Instruments:

Disclosures – Supplier Finance Arrangements

The amendments clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024. Early adoption is permitted, but will need to be disclosed.

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies; and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to the Practice Statement provide non-mandatory guidance. Early adoption of the amendments is permitted as long as this fact is disclosed.

Amendments to PFRS 16, Lease Liability in a Sale and Leaseback
 The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right-of-use retained. The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. Earlier adoption is permitted and that fact must be disclosed.

Effective beginning on or after January 1, 2025

• PFRS 17, Insurance Contracts

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

On December 15, 2021, the Philippine Financial and Sustainability Reporting Standards Council (FSRSC) amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two years after its effective date as decided by the International Accounting Standards Board (IASB).

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

# Deferred effectivity

• PFRS 10, Consolidated Financial Statements, and PAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FSRSC postponed the original effective date of January 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

# 3. Significant Accounting Judgments and Estimates

The preparation of the Group's financial statements in compliance with PFRS requires the management to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as these become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

Unless otherwise stated, below significant judgements and estimates apply as of and for the years ended December 31, 2023, 2022 and 2021:

### Judgments

- a) Determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
  - Upon adoption of the Interpretation, the Group has assessed whether it has any uncertain tax position. The Group applies significant judgement in identifying uncertainties over its income tax treatments. The Group determined, based on its tax compliance review, that it is probable that its income tax treatments (including those for the subsidiaries) will be accepted by the taxation authorities. Accordingly, the interpretation did not have an impact on the consolidated financial statements of the Group.
- b) Evaluation of business model in managing financial assets and sale of investment securities at amortized cost

The Group manages its financial assets based on business models that maintain adequate level of financial assets to match expected cash outflows and maintain adequate level of high-quality liquid assets while maintaining a strategic portfolio of financial assets for investment and trading activities consistent with its risk appetite.

The Group's business model allows for financial assets to be held to collect contractual cash flows even when sales of certain financial assets occur. PFRS 9, however, emphasizes that if more than infrequent and more than insignificant sales are made out of a portfolio of financial assets carried at amortized cost, the entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers the following to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if the Group can explain the reason for those sales and why those sales do not reflect a change in the Group's objective for the business model:

- sales or derecognition of debt instrument under any of the circumstances spelled out under the relevant BSP Circulars on PFRS 9;
- sales in preparation for funding a potential aberrant behavior in the depositors' withdrawal
  pattern triggered by news of massive withdrawals or massive withdrawal already experienced
  by other systemically important banks in the industry;
- sales attributable to an anticipated or in reaction to major events in the local and/or international arena that may adversely affect the collectability of the debt instrument and seen to prospectively affect adversely the behavior of deposits or creditors; and
- sales that the Asset-Liability Management Committee (ALCO) deems appropriate to be
  consistent with managing the Group's balance sheet based upon but are not limited to the set
  risk limits and target ratios that have been approved by the BOD.

In 2021, the Parent Company sold investment securities at amortized cost and assessed that the disposal was not inconsistent with the hold-to-collect (HTC) business model (see Note 8).

c) Testing the cash flow characteristics of financial assets
In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of these financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is

denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria.

d) Determination of joint control over EW Ageas Life
Control is presumed to exist when an investor is exposed, or has rights, to variable returns from
its involvement with the investee and has the ability to affect those returns through its power over
the investee. On the other hand, joint control is presumed to exist when the investors
contractually agree on the sharing of control of an arrangement, which exists only when decisions
about the relevant activities require the unanimous consent of the parties sharing control. Based
on the provisions of the joint venture arrangement between the Parent Company and Ageas
(Note 10), both parties have to agree in order for any resolution to be passed relating to the joint
venture entity's relevant activities. This joint arrangement is classified as a joint venture since

the parties have rights to the net assets of the joint venture entity.

# e) Contingencies

The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsels handling the Group's defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on its financial position.

It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (Note 30).

# **Estimates**

# a) Fair values of derivatives

Management applies valuation techniques to determine the fair value of derivatives that are not quoted in active market. Valuation techniques are used to determine fair values which are validated and periodically reviewed by qualified independent personnel. All models are reviewed before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. To the extent practicable, the models use only observable data, however areas such as credit risk (both own and counterparty), volatilities and correlations require management to develop estimates and assumptions. Changes in assumptions about these factors could affect reported fair values of derivatives. The Group uses judgements to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

Fair value measurements of financial instruments (including derivatives) as of December 31, 2023 and 2022 are disclosed in Note 5.

# b) Estimation of expected credit losses on financial assets

The ongoing recovery from the COVID-19 pandemic, the war in Ukraine and the Middle East (i.e. Israel and Palestine), and the global cost of living crisis are the prevailing events that continue to contribute to the uncertainty in the global economy. In response to these external events, the Group made changes and updates in the methodology used in calculating for the expected credit losses.

In 2023, the Group made some enhancements and updates to the ECL model of the Group as follows:

- updating of the coverage data for the historical components of the model, thus, incorporating the impact of the post-pandemic recovery;
- refinements to the segmentation that further granularizes and therefore, differentiates between borrower behavior; and
- refinements to the framework for the selection of the base, best and worst economic outlook to be applied to ECL and their corresponding weights or likelihood of occurrence.

The updated data coverage is the basis for establishing the relationship between economic conditions and default through the macroeconomic overlay model tas well as the through the cycle (i.e. historical) default and recovery experience of the Group. The framework for the selection of economic outlook is used in the generation of economic forecasts that serve as input for estimating the forward-looking expected loss.

The measurement of credit losses under PFRS 9 across all categories of financial assets requires significant judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a SICR. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and interdependencies. Significant elements of the models include, among others:

- segmenting the Group's credit risk exposures;
- the Group's definition of default;
- determining the method to estimate ECL;
- identifying exposures with significant deterioration in credit quality;
- determining assumptions to be used in the ECL model such as the counterparty credit risk rating;
- the expected life of the financial asset and expected recoveries from defaulted accounts; and
- incorporating forward-looking information (called overlays) in calculating ECL.

The carrying values of loans and receivables and the related allowance are disclosed in Notes 9 and 15, while the carrying values of debt financial assets at FVTOCI and amortized cost and their related allowances are disclosed in Notes 8 and 15.

- c) Impairment of non-financial assets (excluding goodwill and branch licenses) The Group assesses impairment on non-financial assets and considers the following impairment indicators:
  - significant underperformance relative to historical or projected future operating results;
  - significant changes in the manner of use of the acquired assets or the strategy for overall business; and
  - significant negative industry or economic trends.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. Except for investment properties where recoverable amount is determined based on fair value less cost to sell, the recoverable amount of all other non-financial assets is determined based on the assets' value in use computation which considers the present value of estimated future cash flows expected to be generated from the continued use of the asset. The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

The carrying values of the investment in subsidiaries and joint venture, property and equipment, investment properties, intangible assets (excluding goodwill and branch licenses), and other non-financial assets recorded in 'Other Assets' of the Group and the Parent Company are disclosed in Notes 10, 11, 12, 13, and 14.

# d) Impairment of goodwill and branch licenses

The Group determines whether goodwill and branch licenses are impaired at least on an annual basis. Goodwill and branch licenses are written down for impairment where the net present value of the forecasted future cash flows from the CGUs is insufficient to support its carrying value. The Group has used the cost of equity as the discount rate for the value in use (VIU) computation. The Group determined the cost of equity using the capital asset pricing model.

The recoverable amount of the CGU has been determined based on a VIU calculation using cash flow projections from financial budgets approved by the BOD covering a five-year period. Future cash flows from the CGU are estimated based on the theoretical annual income of the CGU. Average growth rate was derived from the average increase in annual income during the last 5 years. The discount rate applied reflects the current market assessment of the risk specific to each CGU. Key assumptions in VIU calculation of CGUs are most sensitive to the following assumptions: a) interest margin; b) discount rates; c) market share during the budget period; and d) projected growth rates used to extrapolate cash flows beyond the budget period.

The carrying values of goodwill and branch licenses of the Group and the Parent Company are disclosed in Note 13.

## *e)* Recognition of deferred tax assets

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that taxable income will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Key assumptions used in forecast of future taxable income include loan portfolio and deposit growth rates.

The Group believes it will be able to generate sufficient taxable income in the future to utilize its deferred tax assets. Taxable income is sourced mainly from interest income, and earnings from service charges, fess, commissions and trust activities.

The recognized and unrecognized net deferred tax assets of the Group and of the Parent Company are disclosed in Note 25.

# 4. Financial Risk Management Objectives and Policies

# Risk Management

To ensure that corporate goals and objectives, and business and risk strategies are achieved, the Parent Company utilizes a risk management process that is applied throughout the organization in executing all business activities. Employees' functions and roles fall into one of the three categories where risk must be managed: business units, operating units and governance units.

The Parent Company's activities are principally related to the use of financial instruments and are exposed to credit risk, operational risk and market risk, the latter being subdivided into trading and banking book risks such as liquidity and interest rate risk. Forming part of a coherent risk management system that the Parent Company employs are the risk concepts, control tools, analytical models, statistical methodologies, historical research, and market analysis. These tools support the key risk processes that involve identifying, measuring, controlling, and monitoring risks.

# Risk Management Structure

# a. Board of Directors (BOD)

The Parent Company's risk culture is practiced and observed across the Group, putting the prime responsibility on the BOD. It establishes the risk culture and the risk management organization and incorporates the risk process as an essential part of the strategic plan of the Group. The BOD approves the Parent Company's articulation of risk appetite which is used internally to help management understand the tolerance for risk in each of the major risk categories, its measurement and key controls available that influence the Parent Company's level of risk taking. All risk management policies and policy amendments, risk-taking limits such as but not limited to credit and trade transactions, market risk limits, counterparty limits, trader's limits and activities are based on the Parent Company's established approving authorities which are approved by the Parent Company's BOD. At a high level, the BOD also approves the Parent Company's framework for managing risk.

# b. Executive Committee

This is a BOD level committee, which leads the bank-wide strategic planning and the execution thereof, and reviews the bankwide credit strategy, profile and performance. It approves the credit risk-taking activities based on the Parent Company's established approving authorities and likewise reviews and endorses credit-granting activities, including the Internal Credit Risk Rating System.

### c. Loan and Investments Committee

This committee is headed by the Chairman of the Parent Company and whose primary responsibility is to: oversee the Parent Company's credit risk-taking activities and overall adherence to the credit risk management framework; review business/credit risk strategies, quality and profitability of the Parent Company's credit portfolio; and recommend changes to the credit evaluation process, credit risk acceptance criteria and the minimum and target return per credit or investment transaction. All credit risk-taking activities based on the Parent Company's established approving authorities are evaluated and approved by this committee. It establishes infrastructure by ensuring business units have the right systems, and adequate and competent manpower support to effectively manage its credit risk.

d. Asset-Liability Management Committee (ALCO)

ALCO, a management level committee, meets on a weekly basis and is responsible for the overall management of the Parent Company's market, liquidity, and financial position related risks. It monitors the Parent Company's liquidity position and reviews the impact of strategic decisions on liquidity. It is responsible for managing liquidity risks and ensuring exposures remain within established tolerance levels. The ALCO's primary responsibilities include, among others, (a) ensuring that the Parent Company and each business unit holds sufficient liquid assets of appropriate quality and in appropriate currencies to meet short-term funding and regulatory requirements, (b) managing financial position and ensuring that business strategies are consistent with its liquidity, capital and funding strategies, (c) establishing asset and/or liability transfer pricing policies that are consistent with the financial position objectives, (d) recommending market and liquidity risk limits to the Risk Management Committee and BOD, and (e) approving the assumptions used in contingency and funding plans. It also reviews cash flow forecasts, stress testing scenarios and results, and implements liquidity limits and guidelines.

# e. Risk Management Committee (RMC)

RMC is a BOD level committee that convenes monthly and is primarily responsible in assisting the BOD in managing the Parent Company's risk-taking activities. This is performed by the Committee by institutionalizing risk policies and overseeing the Parent Company's risk management system. It recommends risk appetite and tolerances for the Parent Company's major risk exposures to the BOD. Risk management principles, strategies, framework, policies, processes, and initiatives and any modifications and amendments thereto are reviewed and endorsed by the RMC to the BOD for approval. It oversees and reports to the BOD the effectiveness of the risk management system, overall risk profile, and compliance with the risk appetite and tolerances that the BOD approved.

# f. Audit Committee (Audit Com)

The Audit Com is a BOD level committee that assists the BOD in fulfilling its responsibilities for overseeing senior management in establishing and maintaining an adequate, effective and efficient internal control framework. It ensures that systems and processes are designed to provide reasonable assurance in areas including reporting, monitoring compliance with laws, regulations and internal policies, efficiency and effectiveness of operations, and safeguarding of assets. It is tasked to discuss with management the Parent Company's major risk exposures and ensures accountability on the part of management to monitor and control such exposures including the Parent Company's risk assessment and risk management policies. The Audit Com oversees the internal audit function and is responsible for monitoring and reviewing its effectiveness while ensuring its independence.

# g. Corporate Governance and Compliance Committee (CGCC)

The CGCC is a BOD level committee that leads the Parent Company in defining and fulfilling the corporate governance policies and attaining best practices while overseeing the implementation of the Parent Company's compliance program, money laundering and terrorist financing prevention program and ensuring that regulatory compliance issues are resolved expeditiously. In addition to its governance role, the CGCC also assumes the nomination function whereby it reviews and evaluates the qualifications of all persons nominated to the BOD, all direct reports of the President and Chief Executive Officer (CEO), Heads of Governance Units regardless of rank, and other positions of the Parent Company requiring appointment by the BOD. The committee oversees the annual performance evaluation of the BOD, its committees, and individual directors and conducts an annual self-evaluation of its performance as prescribed under and in accordance with the Corporate Governance Manual and Securities and Exchange Commission (SEC) Code of Corporate Governance for Publicly Listed Companies.

# h. Related Party Transactions (RPT) Committee

The RPT Committee is a BOD level committee that assists the BOD in ensuring that the transactions with related parties of the Parent Company are handled in a sound and prudent manner, with integrity and in compliance with the applicable laws and regulations to protect the interest of depositors, creditors and other stakeholders. It also ensures that related party transactions are conducted on an arm's length basis and that no stakeholder is unduly disadvantaged by such transactions.

# i. Asset Impairment Committee (AIC)

AIC is a management level committee that convenes monthly in a year and shall officially represent the Parent Company's source of experienced credit judgement insofar as the asset impairment exercise is concerned. This experienced credit judgment is tapped to provide guidance under the conditions that include, but are not limited to the following: 1) The result of the calculation is assessed to be unreasonable such that it is considered as not fairly representative of the Parent Company's historical experience, current, and prospective credit condition or other conditions deemed relevant in reasonably determining the recoverable value of the Parent Company's assets; 2) There is an adverse change in the prevailing or foreseen prospective economic condition relative to the embedded presumption in the existing impairment framework; and 3) The data set in the calculation parameters is not available or insufficient to complete the calculation.

# j. Risk Management Division (RMD)

RMD performs an independent risk governance function within the Parent Company. RMD is tasked with identifying, measuring, controlling, and monitoring existing and emerging risks inherent in the Parent Company's overall portfolio (on- or off-balance sheet). RMD develops and employs risk assessment tools to facilitate risk identification, assessment and measurement. It is responsible for developing and implementing the framework for policies and practices to assess and manage enterprise-wide market, credit, operational, and all other risks of the Parent Company.

It also develops risk tolerance limits for BOD approval, as endorsed by the RMC, and monitors compliance with approved risk tolerance limits. Finally, it regularly apprises the BOD, through the RMC, the results of its risk monitoring.

# k. Internal Audit (IA)

IA provides an independent assessment of the adequacy of the Parent Company's internal controls, risk management, governance framework and execution/operational practices. Internal audit activities are conducted in accordance with the International Standards for the Professional Practice of Internal Auditing (ISPPIA) and the Code of Ethics. IA has adopted a risk assessment methodology, which provides a sound basis in the selection of areas of coverage and frequency of audit for the preparation of the annual audit plan. IA employs a risk-based audit approach that examines both the adequacy of the policies and the Parent Company's compliance with the procedures while assuring audit coverage of the areas identified as representing the greatest current risk. It discusses the results of assessments with management, and reports its findings and recommendations to the Audit Com. IA's activities are suitably designed to provide the BOD with reasonable assurance that significant financial and operating information is materially complete, reliable and accurate; internal resources are adequately protected; and employee performance is in compliance with the Parent Company's policies, standards, procedures and applicable laws and regulations.

# l. Compliance Division

Compliance Division is vested with the responsibility of overseeing the design of the Parent Company's Compliance Program and coordinating its effective implementation towards the sound management of Business and Compliance Risks. It also manages the implementation of the Money Laundering and Terrorist Financing Program. Its mandate is to ensure that the Parent Company is compliant with relevant and applicable laws, rules, regulations, codes of conduct and standards of good practice while avoiding an overly risk-averse environment that inhibits business growth. It serves as the Parent Company's central point of contact with banking regulators.

The major risk types identified by the Group are disclosed in the following section:

### **Credit Risk**

Credit risk refers to the potential loss of earnings or capital arising from an obligor/s, customer/s or counterparty's failure to perform and/or to meet the terms of any contract with the Group. Credit risk may last for the entire tenor of the exposure, may be set at the full amount of the transaction and in some cases, may exceed the original principal exposure. The risk may arise from lending, trade financing, trading, investments and other activities undertaken by the Group. To identify and assess this risk, the Group has: 1) approval process per borrower, business and/or product segment; and 2) structured and standardized internal credit risk rating system for corporate borrowers and score models for consumer products such as credit cards, auto, mortgage and personal loans. For large corporate credit transactions, the Parent Company has a comprehensive procedure for credit evaluation, risk assessment, and well-defined concentration limits that are established for each borrower. The Group's credit risk is managed at the portfolio level, which may be on an overall perspective or according to product type.

# Credit Concentration

Excessive concentration of lending plays a significant role in the weakening of asset quality. The Group reduces this risk by diversifying its loan portfolios across various sectors and borrowers. The Group believes that good diversification across economic sectors and geographic areas, among others, will enable it to ride through business cycles without causing undue harm to its asset quality.

The Group's loan portfolio is in line with the Group's policy of not having significant concentrations of exposure to specific industries or group of borrowers. Management of risk concentration is by client/counterparty, by industry sector, and by geographical location. For risk concentration monitoring purposes, the financial assets are broadly categorized into loans and receivables, loans and advances to banks, and investment securities. The Group ensures compliance with BSP's limit on exposure to any single person or group of connected persons by closely monitoring large exposures and top 20 borrowers for both single and group accounts.

Aside from ensuring compliance with BSP's limit on exposures to any single person or group of connected persons and to large exposures, it is the Parent Company's policy to keep the expected loss (determined based on the credit risk rating of the account) of the latter to, at most, one percent (1.00%) of their aggregate outstanding balance. This is to maintain the quality of the large exposures within the Group's risk appetite. With this, accounts with better risk grades are given priority in terms of being granted a bigger share in the Group's loan facilities.

Aligned with the Manual of Regulations for Banks definition, the Group considers its loan portfolio concentrated if it has exposures of more than thirty percent (30.00%) to an industry.

# Credit Concentration Profile as of December 31, 2023 and 2022

# Maximum exposure to credit risk

The tables below provide the analysis of the maximum exposure to credit risk of the Group and the Parent Company's financial instruments, excluding those where the carrying values are reflected in the statement of financial position and related notes already represent the financial instrument's maximum exposure to credit risk, before and after taking into account collateral held or other credit enhancement:

_	Consolidated									
		2	023			2	2022			
	Maximum Exposure to	Fair Value of	Financial Effect	Maximum  al Effect Exposure to Fair Value of Financial Effect of						
	Credit Risk	Collateral [B]	of Collateral	Net Exposure [D] = [A] - [C]	Credit Risk	Collateral [B]	Collateral [C]	Net Exposure $[D] = [A] - [C]$

Corporate lending	59,557,798	26,561,069	8,806,878	50,750,921	68,745,390	29,824,688	8,230,933	60,514,457			
Consumer lending	208,899,438	92,740,786	71,703,227	137,196,210	169,930,472	77,518,761	64,558,998	105,371,474			
	₱284,433,546	₱135,278,165	₱96,486,415	₱187,947,131	₱238,675,862	₱107,343,449	₱72,789,931	₱165,885,931			

Credit risk, in respect of derivative financial products, is limited to those with positive fair values which are included under financial assets at FVTPL (Note 5). As a result, the maximum credit risk is limited to the amounts on the statements of financial position plus commitments to customers such as unused commercial letters of credit, outstanding guarantees and others as disclosed in Note 36 to the financial statements.

For off-balance sheet items, the figures presented below summarize the Group's and the Parent Company's maximum exposure to credit risk:

			2023					2022		
	Notional	Credit	Credit			Notional	Credit	Credit		
	Principal	Conversion	Equivalent	Credit Risk	Net Credit	Principal	Conversion	Equivalent	Credit Risk	Net Credit

\*For all other off-balance sheet exposures (see Note 30), credit conversion factor is 0.00

### Collateral and other credit enhancements

Collaterals are taken into consideration during the loan application process as they offer an alternative way of collecting from the client should a default occur. The percentage of loan value attached to the collateral offered is part of the Group's lending guidelines. Such percentages take into account safety margins for foreign exchange rate exposure/fluctuations, interest rate exposure, and price volatility.

Collaterals are valued according to existing credit policy standards and following the latest appraisal report, serve as the basis for the secured amount of the loan facility. Premium security items are collaterals that have the effect of reducing the estimated credit risk for a facility. The primary consideration for enhancements falling under such category is the ease of converting them to cash.

The Group is not permitted to sell or re-pledge the collateral in the absence of default by the owner of the collateral. It is the Group's policy to dispose foreclosed assets in an orderly fashion. The proceeds of the sale of the foreclosed assets, included under 'Investment Properties', are used to reduce or repay the outstanding claim. In general, the Group does not occupy repossessed properties for business use.

As part of the Group's risk control on security/collateral documentation, standard documents are made for each security type and deviation from the pro-forma documents are subject to legal review prior to implementation.

### Credit collaterals profile

The table below provides the collateral profile of the outstanding loan portfolio of the Group and the Parent Company:

		Conso	lidated		Parent Company			
	2023		2022		2023	2023		
	Gross Amount	%	Gross Amount	%	Gross Amount	%	Gross Amount	%

	₱296,877,371	100.00	₱258,732,213	100.00	₱268,457,236	100.00	₱238,675,862	100.00

<sup>\*</sup>Consists of government securities, corporate bonds, shares of stock, hold-out on deposits, assignment of receivables etc.

The credit exposures, after due consideration of the allowed credit enhancements, are considered the maximum credit exposure to any client or counterparty.

As for the computation of credit risk weights, hold-out on deposits with the Parent Company, Home Guaranty cover, and Philippine sovereign guarantees are the only credit risk mitigants considered as eligible.

# *Large exposures and top 20 borrowers*

The table below summarizes the top 20 borrowers and large exposures of the Group and the Parent Company: (There was change in the regulatory definition of large exposures that was adopted by the Bank in 2023. Refer to the note for each table that captures the respective definition for the covered period.)

		2023							
	Top 20 Bo	rrowers	Large Exp	osures*					
	Single Borrowers	Group Borrowers	Single Borrowers	Group Borrowers					
Aggregate Exposure	₱27,604,739	₱29,125,122	₱11,543,024	₱12,286,823					
Composite Risk Rating	3.24	3.39	1.00	1.00					
Total Credit Loss/Aggregate									
Exposure	1.38%	1.69%	0.01%	0.02%					

<sup>\*</sup>Large exposures refer to exposures to a counterparty or a group of related counterparties equal to or greater than 10.00% of the Parent Company's qualifying capital.

		2022								
	Top 20 Bor	rowers	Large Exposures*							
	Single Borrowers	Group Borrowers	Single Borrowers	Group Borrowers						
Aggregate Exposure	₱27,788,038	₱33,087,135	₱12,350,277	₱19,167,735						
Composite Risk Rating	2.89	3.12	1	2.01						
Total Credit Loss/Aggregate										
Exposure	2.21%	2.05%	0.01%	0.39%						

<sup>\*</sup>Large exposures refer to exposures to a counterparty or a group of related counterparties equal to or greater than 5.00% of the Parent Company's qualifying

# Concentration by industry

The tables below show the distribution of the Group and the Parent Company's financial assets before taking into account any collateral or other credit enhancements analyzed by industry sector as of December 31, 2023 and 2022:

The following summarizes the Group's credit risk management practices and the relevant quantitative and qualitative financial information regarding the credit exposures according to the Group's portfolios:

# Internal Credit Risk Rating System

The Parent Company employs a credit scoring system for borrowers to assess risks relating to the borrower and the loan exposure. Borrower risk is evaluated by considering (a) quantitative factors, such as financial condition and (b) qualitative factors, such as management quality and industry outlook.

For corporate loans, the financial condition assessment focuses on profitability, liquidity, working capital management, and leverage. Management quality determination is based on the borrower's strategies, management competence and skills, and management of banking relationship while industry outlook is evaluated based on its importance to the economy, growth, industry structure and relevant government policies. Based on these factors, each borrower is assigned a Borrower Risk Rating (BRR), that ranges from 1 to 6. A borrower may be downgraded when it exhibits the characteristics of a classified account described below, in which case it will be assigned a risk rating ranging from 7 to 10.

The BRR for each borrower is reviewed annually. A more frequent review is warranted in cases where the borrower has a higher risk profile or when there are extraordinary or adverse developments affecting the borrower, the industry and/or the Philippine economy.

The following is a brief explanation of the Parent Company's risk grades:

Rating	Description	Account/Borrower Characteristics
1	Excellent	<ul> <li>low probability of going into default within the coming year; very high debt service capacity and balance sheets show no sign of any weakness</li> <li>has ready access to adequate funding sources</li> <li>high degree of stability, substance and diversity</li> <li>of the highest quality under virtual economic conditions</li> </ul>
2	Strong	<ul> <li>low probability of going into default in the coming year</li> <li>access to money markets is relatively good</li> <li>business remains viable under normal market conditions</li> <li>strong market position with a history of successful financial performance</li> <li>financials show adequate cash flows for debt servicing and generally conservative balance sheets</li> </ul>
3	Good	<ul> <li>sound but may be susceptible, to a limited extent, to cyclical changes in the markets in which they operate</li> <li>financial performance is good and capacity to service debt remains comfortable</li> <li>cash flows remain healthy and critical balance sheet ratios are at par with industry norms</li> <li>reported profits in the past three years and expected to sustain profitability in the coming year</li> </ul>

Rating	Description	Account/Borrower Characteristics
4	Satisfactory	<ul> <li>clear risk elements exist and probability of going into default is somewhat greater, as reflected in the volatility of earnings and overall performance</li> <li>normally have limited access to public financial markets</li> <li>able to withstand normal business cycles, but expected to deteriorate beyond acceptable levels under prolonged unfavorable economic period</li> <li>combination of reasonably sound asset and cash flow protection</li> </ul>
5	Acceptable	<ul> <li>risk elements for the Parent Company are sufficiently pronounced, but would still be able to withstand normal business cycles</li> <li>immediate deterioration beyond acceptable levels is expected given prolonged unfavorable economic period</li> <li>there is sufficient cash flow either historically or expected in the future in spite of economic downturn combined with asset protection</li> </ul>
5B	Acceptable	<ul> <li>financial condition hard to ascertain due to weak validation of financial statements coupled by funding leakages to other business interests whose financial condition is generally unknown</li> <li>continuous decline in revenues and margins due to competition</li> <li>substantial or unexplained build-up in borrowings with banks financing bulk of working capital and capex requirements coupled by substantial dividends pay-outs</li> <li>chronically tight cash flows with operating income negative or barely enough for debt servicing</li> <li>with past record of past due loans with other banks, cancelled credit cards and court cases</li> </ul>
6	Watchlist	<ul> <li>with identified disruptions that may negatively affect performance but are likely to be resolved within the year</li> <li>deteriorating revenue, net income, margins, and sustained increase in debt levels despite a slowdown in business activity</li> <li>diversion of fund to non-core or start-up businesses and other investments that are known to be unprofitable or high risk</li> <li>past due on interest and/or principal for ≤30 days and the delinquency is deemed temporary in nature</li> <li>account is still in current status but already restructured but no payment experience yet or requesting for payment deferments or loan restructuring</li> <li>with temporary cashflow pressures arising from unexpected circumstances but are likely to be resolved once these adverse events are mitigated or resolved.</li> </ul>

EastWest Bank 2023 Annual and Sustainability Report 20

Rating	Description	Account/Borrower Characteristics
7	Special Mention	<ul> <li>past due on interest and/or principal payments up to 90 days and the delinquency is not temporary in nature</li> <li>intermittent delays or inadequate repayment of principal, interest or amortizations</li> <li>past due account that is already requesting for payment deferments or loan restructuring</li> <li>restructured account that has yet to meet the required track record of sustained payments</li> <li>continuous renewal/extension without reduction in principal and lines with all creditors maxed-out and no clear source of repayment due to chronic tightness in cashflows</li> <li>prolonged contraction in the business brought by adverse economic or market conditions resulting in net losses and affecting its capacity to pay</li> <li>deficiency in documentation which have not been rectified within an agreed period of time unless for justifiable</li> </ul>
8	Substandard	<ul> <li>NPL or with chronic delays in payment because of unstable cashflow or with no definite commitment to pay or restructure</li> <li>loans have already been restructured but conditions have not been fully met or tenor has been renegotiated</li> <li>net loss for the last 2 years that have wiped out capital and business sustainability is a concern unless a major turnaround in business occurs.</li> <li>due to difficulty in generating cashflows to service debt, repayment of the loans depends on non-operating sources such as collateral, personal funds or other assets</li> <li>breach of key financial covenants that will have a significant effect on the borrower's capacity to pay</li> </ul>
9	Doubtful	<ul> <li>business heavily affected by environmental, economic, health, regulatory issues to the point that closure or bankruptcy is becoming imminent</li> <li>business is almost bankrupt and the only possible solution are either merger, acquisition, capital infusion or refinancing plans which are still being worked-out</li> <li>business closure is imminent due to challenging business conditions such as substantial loss of market share, unsalable products due to obsolescence, tight competition and influx of cheap substitutes</li> <li>with uncertainty if the Parent Company could find leviable assets or if there are other assets that can be liquidated, full recovery of principal remains uncertain due to marketability and other outstanding claims</li> <li>client is difficult to coordinate with and is non-responsive to demand letters sent</li> <li>Legal cases filed</li> </ul>

EastWest Bank 2023 Annual and Sustainability Report

Rating	Description	Account/Borrower Characteristics
10	Loss	<ul> <li>business is non-operational and loans are considered</li> </ul>
		absolutely uncollectible due to presence of fraud and
		major build-up of claims and litigation
		<ul> <li>borrower's whereabouts unknown or insolvent or earning</li> </ul>
		power-impaired and guarantors are insolvent or guarantee
		not financially supported

It is the Parent Company's policy to maintain accurate and consistent risk ratings across the corporate credit portfolio. This facilitates a focused management of the applicable risk and the comparison of credit exposures across all lines of businesses, geographic regions, and products. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Parent Company's rating policy. The risk ratings are assessed and updated regularly.

The consumer loan portfolio of the Group is composed of the following product lines: credit cards, auto, mortgage, salary, personal and branch loans. Each of these products have established credit risk guidelines and systems for managing credit risk across all businesses. For credit cards, auto, mortgage and personal loans, application and behavioral scoring models are in place that primarily consider demographic variables and/or payment behavior, for the assessment of the likelihood of default by the borrower. For the other consumer loans, minimum risk acceptance criteria were set for each portfolio according to the nature of the product and the target market and is used for the evaluation of the credit quality of borrowers at origination.

For purposes of comparison of different exposure types, the credit portfolios (corporate and consumer) of the Parent Company are benchmarked against marketable corporate debt securities (using the Standard & Poor's (S&P) global study on corporate exposures) based on credit risk rating and corresponding PDs (i.e., Investment Grade – BRR 1 to 4, Standard Grade – BRR 5, Substandard Grade – BRR 5B to 6, Nonperforming – BRR 7 to 10).

The Parent Company assigns credit risk using the following credit score master scale:

Description	Credit rating
These accounts are of the highest quality	AAA to AA+
and are likely to meet financial	AA
obligations.	AA-
	A+
	A
	A-
	BBB+
	BBB
These accounts may be vulnerable to	BBB-
adverse business, financial and economic	BB+
conditions but are expected to meet	BB
financial obligations.	BB-
	B+
	В
	В-
These accounts are vulnerable to non-	CCC+ to C-
payment but for which default has not yet occurred.	
	These accounts are of the highest quality and are likely to meet financial obligations.  These accounts may be vulnerable to adverse business, financial and economic conditions but are expected to meet financial obligations.  These accounts are vulnerable to non-payment but for which default has not yet

Credit quality	Description	Credit rating
Non-Performing	These refer to accounts which are in	Default
	default or those that demonstrate	
	objective evidence of impairment.	

# **External Ratings**

The Group also uses external ratings, such as S&P's, Moody's, and Fitch, to evaluate its counterparties and in its assignment of credit risk weights to its banking book exposures. Transactions falling under this category are normally of the following nature: placements with other banks, money market lending, debt security investments, and to some extent, equity security investments.

Credit rating grades of gross carrying amounts of financial assets

The credit quality by class of the Group's loans and receivables (gross of allowance for credit losses and unamortized premium) as of December 31, 2023 and 2022 are as follows:

### **Liquidity Risk**

Credit Risk Weighted Assets

Liquidity risk is the risk that sufficient funds are unavailable to adequately meet all maturing liabilities, including demand deposits and off-balance sheet commitments. The main responsibility of daily asset liability management lies with the Parent Company's Treasury Group, specifically the Liquidity Desk, which are tasked to manage the balance sheet and have thorough understanding of the risk elements involved in the respective businesses. Only the Parent Company and EWRB are potentially exposed to liquidity risk exposures, where their liquidity risk management are monitored by their respective ALCOs. Resulting analysis of the balance sheet along with the recommendation is presented during the weekly ALCO meeting where deliberations, formulation of actions and decisions are made to minimize risk and maximize returns. Discussions include actions taken in the previous ALCO meeting, economic and market status and outlook, liquidity risk, pricing and interest rate structure, limit status and utilization. To ensure that both the Parent Company and EWRB have sufficient liquidity at all times, the respective ALCO formulates a contingency funding plan which sets out the amount and the sources of funds (such as unutilized credit facilities) available to both entities and the circumstances under which such funds will be used.

By way of the Maximum Cumulative Outflow (MCO) limit, the Group is able to manage its long-term liquidity risks by placing a cap on the outflow of cash on a cumulative basis. The Group takes a multi-tiered approach to maintaining liquid assets. The Group's principal source of liquidity is comprised of Cash and other cash items, Due from BSP, Due from other banks and Interbank loans receivables and SPURA with maturities of less than one year. In addition to regulatory reserves, the Parent Company maintains a sufficient level of secondary reserves in the form of liquid assets such as short-term trading and investment securities that can be realized quickly.

# Analysis of financial assets and liabilities by remaining contractual maturities

The tables below present the maturity profile of the financial assets and liabilities of the Group and of the Parent Company (reflected in thousands) which it uses to manage its liquidity risk. It is based on its internal methodology to determine the expected date the financial asset will be realized, or the financial liability will be settled. This is done through cash flow measurement and projections using contractual undiscounted cash flows or derived from the behavioral assumptions for the assets or liabilities. This approach is used to properly estimate future cash flows and enable the Group to proactively manage its liquidity requirement.

Consists of cash and cash other items, due from BSP, due from other banks and Interbank loans receivables and SPURA

The Parent Company manages liquidity by maintaining sufficient liquid assets in the form of

cash and cash equivalents, investment securities and loan receivables. As of December 31, 2023, and 2022, ₱118.14 billion (36.35%) and ₱100.62 billion (38.64%) respectively, of the Parent Company's loans and receivables (including interest) had remaining maturities of less than one (1) year. The total portfolio of trading and investment securities is comprised mostly of sovereign-issued securities that have high market liquidity. With the above presented liquidity profile, the Group remains to be inhibited from liquidity risk that it cannot adequately manage.

### **Market Risk**

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. The Parent Company treats exposures to market risk as either trading or accrual or balance sheet exposure. The market risk for the trading and investment portfolio is measured using Value at Risk

(VaR). Interest rate risk of accrual portfolios in the Banking Book are measured using Earnings at Risk (EaR).

### *Market Risk in the Trading Book*

The BOD has set limits on the level of market risk that may be accepted. VaR limits are applied at the instrument level and approved by the BOD based on, among other things, a business unit's capacity to manage price risks, the size and distribution of the aggregate exposure to price risks and the expected return relative to price risks. The Parent Company has a Management Action Trigger (MAT) to control actual losses (composed of realized and unrealized losses) for its Trading Book.

The Parent Company applies the VaR methodology to assess the market sensitive positions held for trading and to estimate the potential economic loss based on parameters and assumptions. VaR is a method used in measuring market risk by estimating the potential negative change in the market value of a portfolio at a given confidence level and over a specified time horizon.

### Objectives and limitations of the VaR Methodology

The Parent Company utilizes the VaR model of Bloomberg Portfolio Analytics using one-year historical data set to assess possible changes in the market value of the fixed income trading portfolio. VaR for the US treasury futures is measured using Historical Simulation, while VaR for Foreign Exchange are calculated through the Parametric methodology- both instruments utilize an internally developed Excel spreadsheet.

The VaR models are designed to measure market risk in a normal market environment. The use of VaR has limitations because correlations and volatilities in market prices are based on historical data and VaR assumes that future price movements will follow a statistical distribution. Due to the fact that VaR relies heavily on historical data to provide information and may not clearly predict the future changes and modifications of the risk factors, the probability of large market moves may be underestimated.

VaR may also be under or overestimated due to assumptions placed on risk factors and the relationship between such factors for specific instruments. Even though positions may change throughout the day, VaR only represents the risk of the portfolio at the close of each business day, and it does not account for any losses that may occur beyond the specified confidence level.

In practice, actual trading results will differ from the VaR calculation and the calculation does not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR model, actual outcomes are monitored through hypothetical backtesting to test the accuracy of the VaR model.

Stress testing provides a means of complementing VaR by simulating the potential loss impact on market risk positions from extreme market conditions, such as risk factor movements based on historical financial market stress conditions and scenarios adopted from the uniform stress testing framework of the BSP.

#### VaR assumptions

The VaR that the Parent Company uses for majority of its trading exposures is at 99% confidence level, while FX uses a confidence level of 90% with a premise that this potential loss estimate is not expected to be exceeded if the current market risk positions were to be held unchanged for a given holding period. Foreign exchange and US Treasury Futures VaR is measured using one (1) day holding period while fixed income VaR has a holding period of five (5) days. The use of a 99% confidence level means that within the set time horizon, losses exceeding the VaR figure should occur, on average, not more than once every hundred days.

<sup>\*\*</sup>Consists of financial assets at FVTPL, investment securities at amortized cost, financial assets at FVTOCI and interest receivables from investment securities at amortized cost \*\*\*Consists of loans and receivables, sales contract receivables, bills purchased, accrued interest receivables, accounts receivables, unearned discounts and other assets classified as

financial assets

\*\*\*\* Consist of demand and savings deposit, time certificate of deposit, long term negotiable certificates of deposit and interest payable for these deposit liabilities

<sup>\*\*\*</sup> Consists of loans and receivables, sales contract receivables, bills purchased, accrued interest receivables, accounts receivables, unearned discounts and other assets classified as financial assets

<sup>\*\*\*\*</sup> Consists of demand and savings deposit, time certificate of deposit, long term negotiable certificates of deposit and interest payable for these deposit liabilities
\*\*\*\*\*\* Consists of forecasted utilization from credit cards lines, and forecasted utilization from CBG credit lines

VaR is an integral part of the Parent Company's market risk management and encompasses investment positions held for trading. VaR exposures form part of the market risk monitoring which is reviewed daily against the limit approved by the BOD. The trading activities are controlled through the Market Risk Limit (MRL). RMD reports compliance to the MRL and trader's VaR limits daily. If the MRL or individual trader's limit is exceeded, any occurrence is promptly reported to the appropriate authorities such as the Treasurer, Chief Risk Officer and the Chief Executive Officer, and further to the BOD through the RMC.

The table below pertains to interest rate risk of the Parent Company's fixed income trading portfolio:

	2023	2022
Year-end VaR	₽137,158	₽60,302
Average VaR	125,374	81,430
Highest VaR	237,091	168,303
Lowest VaR	15,639	48,199

The year-end VaR for 2023 was based on the Parent Company's fixed income trading book valued at \$\mathbb{P}4.06\$ billion with average yields of 6.22% and 7.16% for the peso and foreign currency denominated bonds, respectively. Its average maturities are 10 years for the peso portfolio and 26 years for the foreign currency portfolio.

The year-end VaR for 2022 was based on the Parent Company's fixed income trading book valued at P1.17 billion with average yields of 5.01% and 7.16% for the peso and foreign currency denominated bonds, respectively. Its average maturities are 7 years and 10 months for the peso portfolio and 27 years and 1 month for the foreign currency portfolio.

The market risk in the Parent Company's US treasury futures trading positions is shown in the table below:

	2023	2022
Year-end VaR	₽_	₽_
Average VaR	2,674	2,938
Highest VaR	109,397	27,691
Lowest VaR	_	_

The interest rate risk in the Parent Company's FX forwards positions is shown in the table below:

	2023	2022
Year-end VaR	₽_	₽3,064
Average VaR	_	7,403
Highest VaR	_	17,698
Lowest VaR	_	_

### **Foreign Currency Risk**

The Parent Company holds foreign currency denominated assets and liabilities, thus, foreign exchange rate fluctuations can affect the financials and cash flows of the Parent Company. Managing the foreign exchange exposure is important for banks with exposures in foreign currencies. For the Parent Company, this includes purchase or sell of foreign currency to control the impact of changes in exchange rates on its financial position.

The table below pertains to the foreign exchange risk of the Parent Company:

	2023	2022
Year-end VaR	₽27,318	₽11,832
Average VaR	23,885	21,991
Highest VaR	40,369	56,921
Lowest VaR	8,516	4,504

The Parent Company's foreign currency exposures emanate from its net open spot and forward FX purchase and sell transactions and net foreign currency income accumulated over the years of its operations. Foreign currency-denominated deposits are generally used to fund the Parent Company's foreign currency-denominated loan and investment portfolios in the FCDU.

In the FCDU books, BSP requires banks to match the foreign currency assets with the foreign currency liabilities. Thus, banks are required to maintain at all times a 100.00% cover for their foreign currency liabilities held through FCDU.

Total foreign currency position is monitored through the daily BSP FX position reports, which are subject to the overbought and oversold limits set by the BSP at 25.00% of qualifying capital or US\$150.00 million, whichever is lower.

The tables below summarize the material exposures to foreign currencies of the Parent Company as of December 31, 2023 and 2022:

	2023							
					Other			
	USD	CNY	HKD	JPY	Currencies*	Total

\*Other currencies include GBP, HKD, AUD, NZD and SGD.

The Parent Company's positions in other currencies are not individually significant.

The tables below indicate the sensitivity of the currencies which the Parent Company had significant exposures as of December 31, 2023 and 2022:

Foreign currency appreciates		2023		
(depreciates)	USD	CNY	HKD	JPY
10.00%	<b>(₽513,727)</b>	<b>₽</b> 7,618	(₱5,945)	₽5,539
-10.00%	<b>₽</b> 513,727	<b>(₽7,618)</b>	₽5,945	(₽5,539)
Foreign currency appreciates		2022		
(depreciates)	USD	CNY	EUR	JPY
10.00%	(₱301,298)	₽9,720	(₱7,050)	(₱4,622)
-10.00%	₽301,298	$(\cancel{P}9,720)$	₽7,050	₱4,622

The analysis calculates the effect of a reasonably possible movement of the foreign currency rate against Peso, with all other variables held constant, on the statements of income and equity. A negative amount reflects a potential net reduction in statements of income and equity while a positive amount reflects a net potential increase. The Parent Company manages FX exposures that both impact the statements of income and equity.

Market Risk in the Banking Book

#### Interest rate risk

Interest rate risk in the banking book (IRRBB) is inherent in the Groups' traditional banking activities that include taking deposits to invest or grant loans. The future cash flows from these activities are exposed to variations in interest rates, largely from mismatch in tenors and prices. The Bank employs two perspectives in measuring IRRBB a) through economic perspective with Change in Economic Value of Equity (EVE) and b) through earnings perspective with Earnings-at-Risk (EaR) and VaR specifically for fixed income instruments categorized as fair value through other comprehensive income (FVOCI). EVE is an economic measure or indicator of net cash flow calculated by taking the present value of all asset cash flows and subtracts the present value of all liability cash flows. It is the net present value (NPV) or prevailing value of the Bank's balance sheet cash flows. With the use of EVE, impact to equity may be determined by subjecting the Bank's balance sheet cashflows to shocked rates. Such measure can be used for asset-liability management and in determining the impact of interest rate risk relative to equity. Respectively, EaR measures the net interest income movement due to changes in prevailing interest rates and the balance sheet re-pricing profile of the Group. The EaR limit is set as a function of the Group's net interest margin (NIM). The EaR limit preserves the Group's capital and competitive position by restricting the impact of interest rate sensitivities to NIM within the corridor of above average and within the first quartile of its peer banks. In measuring EaR, the Group's interest re-pricing assets and liabilities are matched by repricing (or maturity if non-repricing) buckets covering tenors within a one-year horizon, and corresponding gaps determined. If positive gap is noted, it implies that an increase in interest rates will positively affect the net interest income. Conversely, a negative gap implies that an increase in interest rates will negatively affect the net interest income. The estimated nominal impact to the Bank's earnings is derived by multiplying the volatility of benchmark yields for each tenor bucket to the repricing gap profile. The result is compared vs EaR limit to monitor the compliance with the limit and is reported to the RMC on a monthly basis. Additionally, EaR limit is reviewed and updated annually to ensure its continued relevance and alignment with the Group's financial targets, strategies, and overall risk appetite.

To complement EaR and provide Management a more holistic view of market risk in the Banking Book, the Group performs forward looking scenario, sensitivity analysis as well as stress testing activities to identify any vulnerabilities. The Bank employs three (3) methodologies in the conduct of stress testing a) economic/historical stress test which assumes a parallel shift in interest yield curves of 660basis points for PhP-denominated assets and liabilities and 270basis points for USD-denominated, b) uniform stress test, a regulatory-prescribed stress test, has three (3) scenarios with assumed parallel shift in interest rates for both PhP (from 300bps to 500bps) and USD (from 100bps to 300bps), c) reverse stress test, which primarily measures the highest swing in interest rates that can potentially wipe out the Parent Company's target net income and net interest income.

The Parent Company employs the Value-at-Risk (VaR) measurement for debt instruments categorized as fair value through other comprehensive income (FVOCI) to manage the potential threat of market fluctuations to its earnings and capital. Fixed income instruments at FVOCI are assets whose objective falls under both to collect contractual cash flows and/or sell the assets. Since fair value changes from items booked at FVOCI directly impact the equity, it is prudent to monitor and manage said risk where capital stability is sustained. The VaR assumptions and methodologies for FVOCI exposures are same as those used for the Trading Book. Similar to the Trading Book, the Parent Company has a MAT to control actual losses (composed of realized and unrealized losses) for its Banking Book.

The table below pertains to interest rate risk of the Parent Company's FVOCI portfolio:

	2023	2022
Year-end VaR	<b>₽</b> 527,505	₽420,478
Average VaR	441,174	427,907
Highest VaR	536,886	493,589
Lowest VaR	334,770	373,706

The year-end VaR for 2023 was based on the Parent Company's FVOCI fixed income portfolios valued at ₱18.47 billion with average yields of 5.00% and 3.82% for the peso and foreign currency denominated bonds, respectively. Its average maturities are 15 years and 3 months for the peso portfolio and 12 years and 9 months for the foreign currency portfolio.

The year-end VaR for 2022 was based on the Parent Company's FVOCI fixed income portfolios valued at P16.70 billion with average yields of 5.00% and 2.09% for the peso and foreign currency denominated bonds, respectively. Its average maturities are 16 years and 2 months for the peso portfolio and 5 years and 7 months for the foreign currency portfolio.

The IRRBB risk profile is also reported to the ALCO. The ALCO deliberates on matters pertaining to the management of the Bank's assets and liabilities, such as achieving optimum asset and liability mix, pricing, liquidity levels, repricing gap positions, and asset quality. The Bank's ALCO meets on a weekly basis.

The Bank manages its IRRBB through effective diversification of funding sources. By offering various deposit, investment and loan products with differing maturities, the Bank is able to meet its short, medium and long-term obligations, optimize returns, and provide options that cater to differing preferences of its target market. The Bank's target funding mix is aligned with the Bank's overall growth plans. While the Bank mainly manages IRRBB through careful planning of its cashflows, it also has access to various derivative products that provide flexibility in responding to more abrupt market developments.

The Group also monitors its exposure to fluctuations in interest rates by using scenario analysis to estimate the impact of interest rate movements on its interest income. This is done by modeling the impact to the Group's interest income and interest expenses of different parallel changes in the

interest rate curve, assuming the parallel change only occurs once and the interest rate curve after the parallel change does not change again for the next twelve months.

The following table sets forth, for the period indicated, the impact of changes in interest rates on the Group's non-trading net interest income. There is no other impact on the Group's equity other than those already affecting the statements of income.

Change in basis points	2023	2022
+100.00 bps	(₱670,912)	(₱378,315)
-100.00 bps	670,912	378,315

The following table sets forth, for the period indicated, the impact of changes in interest rates on the Parent Company's non-trading net interest income. There is no other impact on the Parent Company's equity other than those already affecting the statements of income.

Change in basis points	2023	2022
+100.00 bps	(₱515,757)	(₱403,550)
-100.00 bps	515,757	403,550

### Change in Economic Value of Equity (△ EVE)

The Bank employs change in EVE Model to measure the net present value (NPV) or prevailing value of the Bank's balance sheet cash flows at different interest rate shocks and stress scenarios.  $\Delta$  EVE is calculated by deducting the Base EVE which is the NPV of the Bank's balance sheet cashflows using the effective yield per contract from Shock EVE which is calculated using the BSP prescribed parallel shift in interest rates and the existing economic stress scenario as well as scenarios internally developed by the Parent Company.

The ΔEVE of the Group ranges from ₱2 billion to ₱27 billion and ₱4 billion to ₱22 billion in 2023 and 2022, respectively. The Group's ∆EVE stood at ₱27 billion or 40% of total capital and ₱16 billion or 24% of total capital as of December 31, 2023 and 2022, respectively.

#### **Operational Risk**

Operational risk is the loss resulting from inadequate or failed internal processes, people and systems or from external events. It includes legal, compliance and reputational risks but excludes strategic

Adopting the Basic Indicator Approach below, where computation is based on a percentage (in accordance with BSP-prescribed capital charge) of the average gross income for the past three years, it shows the total operational risk-weighted assets of the Group and Parent Company.

	2023	2022
Group	₱61,760,57 <b>4</b>	₱70,780,936
Parent Company	55,336,923	65,101,904

### Other Risk Exposures

Group risk exposures other than credit, market, operational, and interest rate risk in the banking book, while existent, are deemed insignificant relative to the mentioned risks and if taken in isolation. Hence, management of these risks are instead collectively performed and made an integral part of the Group's internal capital adequacy assessment process (ICAAP) and enterprise risk management initiatives.

#### 5. Fair Value Measurement

The Group has assets and liabilities in the consolidated and Parent Company statements of financial position that are measured at fair value on a recurring and non-recurring basis after initial recognition. Recurring fair value measurements are those that another PFRS requires or permits to be recognized on the statements of financial position at the end of the year. These include financial assets and liabilities at FVTPL and Financial assets at FVTOCI.

The methods and assumptions used by the Group in estimating the fair values of the financial instruments are:

Cash and other cash items, due from BSP and other banks, Interbank loans receivables and SPURA and accrued interest receivables – The carrying amounts approximate their fair values in view of the relatively short-term maturities of these instruments.

*Debt securities* - Fair values are generally based on quoted market prices. If the market prices are not readily available, fair values are estimated using the discounted cash flow methodology.

Equity securities - Fair values of quoted equity securities are based on quoted market prices.

Derivative instruments (presented as other financial assets and liabilities in 'Other assets' and 'Other liabilities') - Fair values of derivative instruments, mainly currency forwards and swaps and interest rate swaps, are valued using a valuation technique using market observable inputs. The valuation technique applied includes forward pricing and swap models using present value calculations. The models incorporate various inputs including foreign exchange spot and forward rates, yield curves of the respective currencies and interest rate curves prevailing at the statement of financial position date. For futures, these are valued considering the prevailing futures prices on the exchange as of the statement of financial position date.

Receivable from customers and unquoted debt securities classified as loans - Fair values of loans and receivables are estimated using the discounted cash flow methodology, using the Group's current incremental lending rates for similar types of loans and receivables.

Accounts receivable, sales contract receivable and other financial assets included in other assets – quoted market prices are not readily available for these assets. These are reported at cost and are not significant in relation to the Group's total portfolio of securities

Investment properties – Fair value of investment properties are determined by independent or inhouse appraisers using the market data approach. Valuations were derived on the basis of recent sales of similar properties in the same area as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made, and comparability of similar properties sold with the property being valued. Significant unobservable inputs in determining fair values include the following:

- Location: Location of comparative properties whether on a main road, or secondary road. Road width could also be a consideration if data is available. As a rule, properties located along a main road are superior to properties located along a secondary road.
- Size: Size of lot in terms of area. Evaluate if the lot size of property or comparable conforms to the average cut of the lots in the area and estimate the impact of the lot size differences on land value.
- **Time element**: An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investor's perceptions of the market over time, in which case, the current data is superior to historic data.

• **Discount**: Generally, asking prices in advertisements posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.

Deposit liabilities (demand, savings and time) – For demand and savings deposit, carrying amounts approximate fair values considering that these are due and demandable. Fair value of time deposit liabilities is estimated using the discounted cash flow methodology using the Group's incremental borrowing rates for similar borrowing with maturities consistent with those for the liabilities being valued.

LTNCDs and subordinated debt - Fair values of LTNCD and subordinated debt are estimated using adjusted quoted market prices of comparable investments. The adjustments on market quoted prices are unobservable inputs.

Bonds Payable – Fair value of Bonds Payable are measured using the Present Value (PV) of the computed cash flows by the PV factor.

Lease Liabilities – Fair value of lease liabilities are measured using the Bloomberg valuation (Bval) rate as of the reporting period plus the spread which is the derived difference between the actual market rate and the Bval rate.

Bills and acceptances payable, cashier's checks and demand draft payable – Carrying amounts approximate fair values due to the short-term nature of the accounts.

Other financial liabilities included in 'Other liabilities' – Quoted market prices are not readily available for these liabilities. These are reported at cost and are not significant in relation to the Group's total portfolio.

The following tables provide the fair value hierarchy of the Group's and of the Parent Company's assets and liabilities measured at fair value and those for which fair values are required to be disclosed:

In 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

### **Derivative Financial Instruments**

The Parent Company's freestanding derivative financial instruments, which mainly consist of foreign currency forwards, foreign currency swaps, US Treasury futures and interest rate swaps, are transactions not designated as accounting hedges. The tables below set out information about the Parent Company's derivative financial instruments and their related fair values as of December 31, 2023 and 2022:

Foreign Currency Forwards and Swaps	2023	2022
Notional amount	\$410,853	\$470,282
Derivative assets	\$21,812	₽18,750
Derivative liabilities	103,083	107,835

The net movements in fair values of all derivative instruments are as follows:

	2023	2022
Derivative liabilities - net at beginning of year	(₱89,085)	(₱197,284)
Net change in fair value and settlements for the year	7,814	108,199
Derivative liabilities - net at end of year	(₽81,271)	(₱89,085)

Fair value changes of foreign currency forwards and swaps are recognized as 'foreign exchange gain' in the statements of income while fair value changes of interest rate swaps and futures are recognized as part of 'trading and securities gain (loss)' in the statements of income (Note 8).

In 2023 and 2022, the Parent Company recognized total foreign exchange gain from foreign currency forwards and swaps amounting to ₱63.26 million and ₱187.64 million, respectively, with corresponding notional amounts of US\$20.85 billion and US\$13.77 billion, respectively.

In 2023 and 2022, the Parent Company recognized total realized trading gain amounting to ₱70.84 million and 23.45 million, respectively, with no outstanding balance as of year end.

### 6. Segment Reporting

The Group's main operating businesses are organized and managed primarily according to the current organizational structure. Each segment represents a strategic business unit that caters to the Group's identified markets. The Group's business segments are:

- (a) Retail banking this segment mainly covers traditional branch banking products and services such as deposits, back-to-back/emerging market loans and other over-the-counter (OTC) transactions. It likewise caters to the needs of high net-worth clients for alternative investment channels. It includes entire transaction processing, service delivery and infrastructure consisting of the Group's network of branches, automated teller machines as well as its internet banking platform;
- (b) Corporate banking this segment handles lending and trade financing for both large corporations and middle market clients;
- (c) Consumer banking this segment primarily caters to loans for individuals; and
- (d) Treasury and Trust this segment consists of Treasury and Trust operations of the Group. Treasury focuses on providing money market, trading and treasury services, as well as the management of the Group's funding operations through debt securities, placements and acceptances with other banks. Trust includes fund management, investment management services, custodianship, administration and collateral agency services, and stock and transfer agency services. In addition, the Parent Company through Trust, provides retail customers with alternative investment opportunities through its unit investment fund products.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment assets are those operating assets employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating activities of a segment and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Interest income is reported net, as management primarily relies on the net interest income as performance measure, not the gross income and expense.

The Group's revenue-producing assets are located in the Philippines (i.e., one geographical location); therefore, geographical segment information is no longer presented. The Group has no significant customers which contribute 10.00% or more of the consolidated revenue, net of interest expense.

The segment results include internal transfer pricing adjustments across business units as deemed appropriate by management. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to the business units based on a pool rate which approximates the marginal cost of funds.

Segment information of the Group as of and for the years ended December 31, 2023, 2022 and 2021 follow:

The 'Elimination Items' includes the Group's executive office and elimination items related to the Group's segment reporting framework.

Non-interest income consists of service charges, fees and commissions, gain on sale of assets, gain (loss) on asset foreclosure and dacion transactions, trading and securities gain (loss), gain on sale of investment securities at amortized cost, foreign exchange gain, trust income, share in net loss of a joint venture and miscellaneous income. The share in net loss of a joint venture has been presented as part of the elimination items in the Group's segment reporting framework. Non-interest expense consists of compensation and fringe benefits, taxes and licenses, depreciation and amortization, rent, amortization of intangible assets, provision for impairment and credit losses, and miscellaneous expenses.

### 7. Due from BSP, Due from Other Banks and Interbank Loans Receivables and SPURA

### Due from BSP

In 2016, the Parent Company entered into a sale of receivables agreement with EWRB, whereby the Parent Company will sell to EWRB, on a without recourse basis, certain employee loans of the Parent Company. In 2023 and 2022, the total employee loans sold by the Parent Company have an aggregate carrying amount of ₱284.05 million and ₱255.97 million, respectively. The selling price of the employee loans approximates the fair value at the date of sale. As of December 31, 2023 and 2022, outstanding principal balance of employee loans purchased from the Parent Company, included in 'Other consumer loans' of EWRB, amounted to ₱475.87 million and ₱448.24 million, respectively. In connection with the sale of receivables agreement, the Parent Company and EWRB also entered into an account servicing and collection agreement whereby EWRB agreed to pay equivalent to 0.37% of the loan amounts collected by the Parent Company on behalf of EWRB. The service fees received by the Parent Company (included under 'Service charges, fees and commission income' in the statements of income) amounted to ₱1.03 million, ₱0.99 million, and ₱0.88 million in 2023, 2022, and 2021 respectively (Note 28).

In 2013, the Parent Company entered into a purchase of receivables agreement with EWRB, whereby the Parent Company will purchase, on a without recourse basis, certain salary loans of EWRB. In 2023 and 2022, the total salary loans purchased by the Parent Company have an aggregate amount of ₱44.25 billion and ₱46.05 billion, respectively. The Parent Company's acquisition cost of the salary loans approximates the fair value at the acquisition date. As of December 31, 2023 and 2022, outstanding principal balance of salary loans purchased from EWRB, included in 'Other consumer loans' of the Parent Company, amounted to ₱41.67 billion and ₱35.40 billion, respectively. In connection with the purchase of receivables agreement, the Parent Company and EWRB also entered into an account servicing and collection agreement whereby the Parent Company agreed to pay service fees equivalent to 0.37% of the loan amounts collected by EWRB on behalf of the Parent Company. The service fees paid by the Parent Company to EWRB (included under 'Miscellaneous expense' in the statements of income) amounted to ₱150.53 million, ₱56.16 million, and ₱17.33 million in 2023, 2022 and 2021, respectively (Note 28).

The Group took possession of various properties previously held as collateral with carrying amounts of ₱4.27 billion, ₱4.68 billion, and ₱7.19 billion in 2023, 2022 and 2021, respectively (Notes 12 and 14).

Interest income on loans and receivables consist of:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021

### Investments in Subsidiaries

#### **EWRB**

The Parent Company's investment cost in EWRB amounted to ₱521.00 million as of December 31, 2022 and 2021. EWRB was incorporated and registered with Philippine SEC on November 5, 1997. It was granted authority by the BSP to operate as a rural bank and commenced operations in March 1998. As a subsidiary of EWBC, its primary mandate is to grant loans to its chosen market −Teacher, SSS Pensioners and Small-scale Entrepreneurs. It also offers a limited list of deposit products with competitive interest rates. Its principal office is located at 3rd and 4th Floors, East West Bank Building, J.P. Laurel Avenue corner Iñigo Street, Bajada, Davao City.

As approved by the Board of Directors in its meeting on June 3, 2022, ₱40.00 per share dividend was declared to stockholders on record as of June 14, 2022 and paid on July 8, 2022. As of December 31, 2022, cash dividends declared was ₱2.00 billion. There were no cash dividends declared nor paid in 2023. There were no issuance of capital stocks in 2023 and 2022.

#### **EWIB**

In 2015, the BSP approved the Parent Company's initial equity investment in EWIB of ₱30.00 million. EWIB was incorporated and registered with the SEC on July 6, 2015 primarily to act as an insurance broker in soliciting, negotiating, and forwarding applications for fire insurance, motor car insurance, engineering insurance, personal accident insurance, travel insurance, bonds & surety, directors and officer's liability insurance, aviation insurance, marine cargo insurance and other non-life insurance services. On September 23, 2015, EWIB received its license to act as an insurance broker from the Insurance Commission ("IC"). It started its commercial operations in September 24, 2015. Its principal place of business is located at The Beaufort, 5th avenue corner 23rd Street, Bonifacio Global City, Taguig City.

#### *EWLFC*

In 2016, the BSP approved and confirmed the initial equity investment in EWLFC of ₱100.00 million. It was registered with the SEC in October 2016 with secondary license to operate as a financing company in accordance with the Financing Company Act of 1998 and its implementing rules and regulations. The principal place of business of EWLFC is at East West Corporate Center, The Beaufort, 5th Avenue corner 23rd Street, Fort Bonifacio Global City, Taguig City.

### *QMIS*

In 2016, the Parent Company acquired 100.00% voting shares of QMIS as part of the asset and share transfer agreement for a consideration amounting to ₱19.93 million. On November 25, 2016, SCMB Overseas Ltd., a wholly-owned subsidiary of Standard Chartered Bank (SCB), completed the transfer of its 100.00% ownership of the Company's capital stock to the Parent Company. Consequently, the Group obtained control and ownership of the QMIS on that date.

The principal place of business of the Company is at 7th Floor, Global Trade Center, 1024 EDSA, Quezon City.

#### **ASIA**

In 2016, the Parent Company acquired 100.00% voting shares of ASIA as part of the asset and share transfer agreement for a consideration amounting to ₱10.31 million. ASIA was registered with the SEC in 2012 primarily to engage in general insurance agency business. The principal place of business is at 5th Floor, 6788 Sky Plaza Building, Ayala Avenue, Makati City.

### Investment in a Joint Venture

On May 28, 2015, the Parent Company and Ageas Insurance International N.V. ("Ageas") entered into a joint venture agreement to form EW Ageas Life. EW Ageas Life, which is primarily engaged in the life insurance business, was incorporated with a capitalization of \$\frac{1}{2}.01\$ billion and with ultimate ownership interest of the Parent Company of 50.00% less 1 share. The Parent Company's initial investment amounted to \$\frac{1}{2}500.00\$ million. The joint venture agreement provided certain conditions that should be satisfied for the consummation of the agreement, which include among others, obtaining all the required regulatory approvals. EW Ageas Life was incorporated and registered with the SEC on October 20, 2015. Its primary purpose is to undertake and write insurance upon the life of individuals, and every insurance appertaining thereto or connected therewith; to make contracts of insurance providing for all risks, hazards, guarantees and contingencies to which life, accident, or health insurance is applicable; to indemnify against legal liability; to compute endowments and grant, purchase or dispose of annuities; to procure re-insurance of its risks; to issue

policies stipulated to be with or without participation in profits; and to purchase for its own benefit any policy of insurance or other obligation as well as claims of policyholders.

On December 22, 2015, EW Ageas Life obtained from the Insurance Commission (IC) a license to operate as a life insurance business. The Certificate of Authority was granted effective from January 1, 2016 to December 31, 2018 and renewed every two years. The latest renewal happened on December 16, 2021 with certificate No. 22/19-R effective from January 1, 2022 to December 31, 2024.

EW Ageas Life started its commercial operations on February 1, 2016. On March 28, 2016, the Parent Company and Ageas entered into a Deed of Sale for the transfer of 1,666,655 shares from Parent Company to Ageas. The resulting shareholder structure became 50% less one share for Parent Company and 50% plus one share for Ageas. The Parent Company and Ageas control EW Ageas Life through a Joint Venture Agreement. Its registered office is at One World Place, 32nd Street, Bonifacio Global City, Taguig City.

In 2017, additional capital aggregating to ₱1.33 billion was solely contributed by Ageas to EW Ageas Life. This increased the Parent Company's investment in the joint venture by ₱665.00 million in 2017 which was recognized as gain on capital transaction. Under the joint venture agreement, within a period of seven (7) years from consummation, the joint venture entity may at any time request for additional funding from the Parent Company and Ageas. Parent Company and Ageas each infused additional capital to EW Ageas Life amounting to ₱216.00 million in 2023 and ₱575.00 million in 2022.

In 2023 and 2022, no dividends was received from EW Ageas Life. As of December 31, 2023 and 2022, the joint venture has no contingent liabilities or capital commitments.

The Group's and the Parent Company's investment properties consist entirely of real estate properties and land improvements acquired in settlement of loans and receivables.

The aggregate fair value of the investment properties of the Group and the Parent Company amounted to ₱2.32 billion as of December 31, 2023, and ₱2.07 billion as of December 31, 2022. Fair value has been determined based on valuations made by independent and/or in-house appraisers. Valuations were derived on the basis of recent sales of similar properties in the same area as the investment properties taking into account the economic conditions prevailing at the time the valuations were made.

As of December 31, 2023 and 2022, the carrying values of foreclosed investment properties of the Group and of the Parent Company still subject to redemption period by the borrower amounted to ₱166.15 million and ₱31.87 million, respectively.

Gain on sale recognized by the Group for the disposal of its foreclosed assets amounted to ₱111.36 million, ₱66.39 million, ₱58.50 million in 2023, 2022 and 2021, respectively.

Gain on sale recognized by the Parent Company for the disposal of its foreclosed assets amounted to ₱111.36 million, ₱66.39 million, ₱56.17 million in 2023, 2022 and 2021, respectively.

Direct operating expenses from investment properties that did not generate rent income amounted to ₱95.32 million, ₱95.57 million, ₱88.97 million for the Group and the Parent Company in 2023, 2022 and 2021, respectively. The Group and the Parent Company have no investment properties that generated rent income in 2023, 2022 and 2021.

#### Goodwill

Goodwill represents the excess of the acquisitions cost over the fair value arising from acquisition of (a) Ecology Savings Bank, Inc. ("ESBI") in 2002; (b) American International Group, Inc. Philam Savings Bank (AIGPASB) Group in 2009; (c) EWRB in 2012; (d) Green Bank, Inc. ("GBI") in 2014; and (e) Standard Chartered Bank ("SCB") in 2016.

The business combination resulted in the recognition of goodwill allocated to the three (3) CGUs which are also reportable segments. As of December 31, 2023 and 2022, goodwill for each CGU in the books of the Parent Company are as follows:

CGU	Consolidated	Parent Company
Consumer Banking	₱2,060,312	₱2,060,312
Treasury and Trust	1,643,239	1,643,239
Retail Banking	173,690	150,212
	₱3,877,241	₱3,853,763

#### *Key assumptions used in VIU calculations*

The recoverable amount of the CGUs has been determined based on VIU calculations using cash flow projections based on financial budgets approved by the management covering a five-year period. The VIU calculation for the CGUs is most sensitive to the following assumptions: a) interest margin; b) discount rates; c) market share during the budget period; and d) projected growth rates used to extrapolate cash flows beyond the budget period. Future cash flows were based on historical experience, strategies developed and prospects. The discount rate used for the computation of the net present value is the cost of equity and was determined by reference to comparable entities.

### Discount rate and growth rate

The following discount rates were applied to the cash flow projections:

_		2023			2022			2021	
	Retail	Consumer	Treasury	Retail	Consumer	Treasury	Retail	Consumer	Treasury
	banking	Banking	and Trust	banking	Banking	and Trust	banking	Banking	and Trust
Pre-tax discount rate	12.30%	12.30%	12.30%	12.30%	12.30%	12.30%	12.30%	12.30%	12.30%
Projected growth rate	6.00%	6.00%	6.00%	6.00%	6.00%	6.00%	6.25%	6.25%	6.25%

#### Sensitivity to changes in assumptions

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the units to exceed their recoverable amount.

### **Branch Licenses**

Branch licenses of the Group and the Parent Company amounting to ₱2.17 billion represents: one branch license acquired by the Parent Company from the BSP amounting to ₱0.20 million in 2015, 25 branch licenses acquired by the Parent Company from the BSP amounting to ₱505.20 million in 2014, 10 branch licenses acquired by the Parent Company from the BSP amounting to ₱214.80 million in 2013, 42 branch licenses acquired by the Parent Company from the BSP amounting to ₱822.00 million in 2012, and 46 branch licenses acquired by the Parent Company from the acquisition of GBI amounting to ₱625.40 million in 2011.

### Customer Relationship and Core Deposits

The business combination between the Parent Company and AIGPASB Group in 2009 resulted in the acquisition of customer relationship and core deposits amounting to₱154.63 million and ₱40.43 million, respectively.

The business combination between the Parent Company and SCB in 2016 resulted in the acquisition of core deposits amounting to ₱64.70 million.

#### Capitalized Software

Capitalized software pertains to computer software licenses and programs acquired by the Group and the Parent Company for its banking operations. Included in the 2023 and 2022 acquisitions are software licenses acquired by the Group and the Parent Company for the upgrade of its core banking systems amounting to ₱246.66 million and ₱226.46 million in 2023 and ₱283.65 million and ₱283.04 million, respectively in 2022.

### 14. Other Assets

This account consists of:

	Consolidated		Parent Company	
	2023	2022	2023	2022

### 16. Deposit Liabilities

Under existing BSP regulations, non-FCDU deposit liabilities of the Parent Company are subject to unified reserve requirements equivalent to 9.5% (under BSP Circulars 1082 and 1092) as at December 31, 2023.

LTNCDs are subject to required reserves of 4.00% if issued under BSP Circular No. 304, and 7.00% if issued under BSP Circular No. 842.

On the other hand, EWRB is required to maintain regular reserves equivalent to 1.00% and 2.00% demand and savings deposits in 2023 and 2022, respectively.

As of December 31, 2023 and 2022, the Parent Company and EWRB are in compliance with such regulations. As of December 31, 2023 and 2022, Due from BSP of the Parent Company and EWRB below has been set aside as reserves for deposit liabilities, as reported to the BSP:

	2023	2022
Parent Company	₱8,744,74 <b>5</b>	₱35,695,539
EWRB	426,536	390,817
Total reserves for deposit liabilities	₱9,171,281	₱36,086,356

As of December 31, 2023 and 2022, 17.93% and 19.70% respectively, of the total liabilities of the Group and 19.11% and 20.65% respectively of the Parent Company are subject to periodic interest repricing.

The remaining deposit liabilities earn annual fixed interest rates ranging from 0.01% to 2.5% in 2023, 0.01% to 2.5% in 2022 and 2021.

<sup>\*</sup>Include corporate loans,emerging enterprise loans and branch loans \*\*Include DepEd loans, employee loans, salary loans and personal loans

<sup>\*\*\*</sup>Include Accrued interest receivables, Accounts receivables and Sales contract receivables.

### 17. Bills and Acceptances Payable and SSURA

This account of the Group and of the Parent Company consists of:

	2023	2022
SSURA	₱14,663,678	₱6,705,236
Interbank call loans	728,116	
Outstanding acceptances	11,912	56,220
	₱15,403,706	₱6,761,456

The following are the fair value of government debt securities (Note 8) pledged and transferred under SSURA transactions of the Group and the Parent Company:

	202	2023		.2
	Face value	Face value Fair value		Fair value
Investment securities at amortized cost	₱17,687,183	₱17,202,332	₱18,230,212	₱15,195,386

The Group's and the Parent Company's borrowings are subject to annual interest rates ranging from 4.63% to 5.85% in 2023 and 2.72% to 4.95% in 2022.

The Group's and the Parent Company's interest expense on bills and acceptances payable amounted to \$45.54 million in 2023, \$0.37 million in 2022, and nil in 2021. The Bank entered into repurchase agreements to fund its operation amounting to \$332.80 million and \$160.00 million in 2023 and 2022, respectively. This excess liquidity is currently deployed in very liquid short term assets. The Group's and the Parent Company's interest expense on SSURA amounted to \$674.08 million in 2023, \$74.71 million in 2022, and nil in 2021.

### 18. Accrued Taxes, Interest and Other Expenses

This account consists of:

	Consolida	ted	Parent Co	ompany	
	2023	2022	2023	2022	
Accrued other expenses	₱3,595,134	₱2,801,914	₱3,102,149	₱2,404,303	
Accrued taxes	542,189	383,323	474,494	333,830	
Accrued interest payable	500,421	293,743	440,341	273,750	
	₱4,637,744	₱3,478,980	₱4,016,984	₱3,011,883	

Accrued other expenses pertain to accruals of various operating expenses such as rent, utilities, management and professional fees, employee bonus and other expenses.

### 19. Bonds Payable

This account consists of bonds payable due in 2023 with a face value of ₱3.70 billion and carrying value of nil and ₱3.70 billion as of December 31, 2023 and 2022, respectively.

On February 10, 2020, the Parent Company issued 4.50% fixed-rate bonds with issue price at 100.00% face value. The bonds will bear interest at the rate of 4.50% per annum from and including February 21, 2020 to but excluding: (a) February 21, 2023, such date being the maturity date (if the pre-termination option is not exercised); or (b) the pre-termination date (if the pre-termination option is exercised), and the interest will be payable quarterly in arrears at the end of each interest period on February 21, August 21 and November 21 of each year commencing on 2020.

Unless the 2023 Bonds are previously redeemed, the Bonds are repayable to the Bond Holders at 100.00% of their face value on the maturity date or February 21, 2023.

As of December 31, 2023 and 2022, bonds issuance cost amounted to nil and ₱1.56 million, respectively. For the period ended December 31, 2023 and 2022, the Group and the Parent Company recognized interest expense on bonds payable amounting to ₱23.29 million and ₱167.62 million, respectively.

### Reserve requirement

Peso-denominated bonds are subject to reserves equivalent to 3.00% in 2023 and 2022. The Parent Company was in compliance with such requirements as of December 31, 2022.

### 20. Subordinated Debt

### Interest expense on subordinated debt

The Group's interest expense on the subordinated debt amounted to nil, ₱44.71 million ₱69.93 million in 2023, 2022 and 2021, respectively.

### 21. Other Liabilities

This account consists of:

### 23. Equity

### Capital Management

The Parent Company actively manages its capital to comply with regulatory requirements, enable growth targets, withstand plausible stress events and be at par with the Parent Company's peers. The primary objective of the Parent Company's capital management is to ensure that it maintains adequate capital to cover risks inherent to its banking activities without prejudice to optimizing shareholders' value.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital structure, or issue capital securities. No changes were made in the objectives, policies and processes from the previous year.

### Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's 'unimpaired capital' (regulatory net worth) reported to the BSP, which is determined on the basis of regulatory policies. In addition, the risk-based Capital Adequacy Ratio (CAR) of a bank, expressed as a percentage of qualifying capital to risk-weighted assets, should not be less than 10.00% for both solo basis (head office and branches) and consolidated basis (Parent Company and subsidiaries engaged in financial allied undertakings). Qualifying capital and risk-weighted assets are computed based on BSP regulations.

Effective January 1, 2014, the Group complied with BSP issued Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50%. It also introduces a capital conservation buffer of 2.50% comprised of CET1 capital. The BSP's existing requirement for total CAR remains unchanged at 10.00% and these ratios shall be maintained at all times.

On June 27, 2014, the BSP issued Circular No. 839, *REST Limit for Real Estate Exposures* which provides the implementing guidelines on the prudential REST limit for universal, commercial, and thrift banks on their aggregate real estate exposures. The Group should maintain CET1 and CAR levels at the regulatory prescribed minimums, on a solo and consolidated basis, even after the simulated results of a 25.00% write-off to the Group's real estate exposures. These shall be complied with at all times.

The capital-to-risk assets ratio reported to the BSP as of December 31, 2023 and 2022 are shown in the table below:

	Consolid	ated	Parent Company		
	2023	2022	2023	2022	
CET1 capital ratio	13.04%	13.02%	12.65%	12.60%	
Tier 1 capital ratio	13.04%	13.02%	12.65%	12.60%	
Total capital ratio	13.84%	13.78%	13.48%	13.31%	

The composition of the qualifying capital is shown below:

Total qualifying capital	₱56,902,260	₱50,914,683	₱50,538,14 <b>5</b>	₱45,591,324

The capital requirements as of December 31, 2023 and 2022 are shown below:

	Consoli	idated	Parent Company		
	2023	2022	2023	2022	
Capital requirements:					
Credit risk	₱339,495,744	₱293,949,728	₱309,769,396	₱272,668,024	
Market risk	9,838,748	4,778,140	9,838,748	4,778,140	
Operational risk	61,760,574	70,780,936	55,336,923	65,101,904	
Total capital requirements	<b>₱</b> 411,095,066	₱369,508,804	₱374,945,067	₱342,548,068	

Qualifying capital and risk-weighted assets are computed based on BSP regulations.

Under Basel III, the regulatory Gross Qualifying Capital of the Parent Company consists of Tier 1 (core) and Tier 2 (supplementary) capital. Tier 1 comprises share capital, surplus (including current year profit), and other comprehensive income (cumulative foreign currency translation and net unrealized gains on financial assets at FVTOCI). Required deductions include goodwill, intangible assets, investments in equity, deferred tax assets, defined benefit pension assets and unsecured credit accommodations to DOSRI and subsidiaries.

Tier 2 capital comprise of unsecured subordinated debts and general loan loss provision.

Risk-weighted assets are determined by assigning defined risk weights to the statement of financial position exposure and to the credit equivalent amounts of off-balance sheet exposures. Certain items are deducted from risk-weighted assets, such as the excess of general loan loss provision over the amount permitted to be included in Tier 2 capital. The risk weights vary from 0.00% to 150.00% depending on the type of exposure, with the risk weights of off-balance sheet exposures being subjected further to credit conversion factors. Below is a summary of risk weights and selected exposure types:

Risk weight	Exposure/Asset type
0.00%	Cash on hand; claims collateralized by securities issued by the national government, BSP; loans covered by the Trade and Investment Development Corporation of the Philippines; real estate mortgages covered by the Home Guarantee Corporation
20.00%	Cash and other cash items, claims guaranteed by Philippine incorporated banks/quasi- banks with the highest credit quality; claims guaranteed by foreign incorporated banks with the highest credit quality; loans to exporters to the extent guaranteed by Small Business Guarantee and Finance Corporation
50.00%	Housing loans fully secured by first mortgage on residential property; Local Government Unit (LGU) bonds which are covered by Deed of Assignment of Internal Revenue allotment of the LGU and guaranteed by the LGU Guarantee Corporation
75.00%	Direct loans of defined Small Medium Enterprise (SME) and microfinance loans portfolio; non-performing housing loans fully secured by first mortgage
100.00%	All other assets (e.g., real estate assets) excluding those deducted from capital (e.g., deferred income tax)
150.00%	All non-performing loans (except non-performing housing loans fully secured by first mortgage) and all non-performing debt securities

<sup>\*</sup> Not all inclusive

With respect to off-balance sheet exposures, the exposure amount is multiplied by a credit conversion factor (CCF), ranging from 0.00% to 100.00%, to arrive at the credit equivalent amount, before the risk weight factor is multiplied to arrive at the risk-weighted exposure. Direct credit substitutes (e.g., guarantees) have a CCF of 100.00%, while items not involving credit risk has a CCF of 0.00%.

In the case of derivatives, the credit equivalent amount (against which the risk weight factor is multiplied to arrive at the risk-weighted exposure) is generally the sum of the current credit exposure or replacement cost (the positive fair value or zero if the fair value is negative or zero) and an estimate of the potential future credit exposure or add-on. The add-on ranges from 0.00% to 1.50% (interest rate-related) and from 1.00% to 7.50% (exchange rate-related), depending on the residual maturity of the contract. For credit-linked notes and similar instruments, the risk-weighted exposure is the higher of the exposure based on the risk weight of the issuer's collateral or the reference entity or entities.

The risk-weighted CAR is calculated by dividing the sum of its Tier 1 and Tier 2 capital, as defined under BSP regulations, by its risk-weighted assets. The risk-weighted assets, as defined by the BSP regulations, consist of all of the assets on the balance sheet at their respective book values, together with certain other off-balance sheet items, weighted by certain percentages depending on the risks associated with the type of assets. The determination of compliance with regulatory requirements and ratios is based on the amount of the Parent Company's 'unimpaired capital' (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting practices which differ from PFRS in some respects.

The Group has taken into consideration the impact of the foregoing requirements to ensure that the appropriate level and quality of capital are maintained on an ongoing basis.

The Group and its individually regulated operations have complied with all externally imposed capital requirements throughout the year.

### Leverage Ratio and Total Exposure Measure

The Basel III Leverage Ratio is designed to act as a supplementary measure to the risk-based capital requirement. The leverage ratio intends to restrict the buildup of leverage in the Bank and reinforce the risk-based requirements with a simple, non-risk based "backstop" measure. It is defined as a capital measure over its total exposure measure with a minimum requirement of 5.00% on both Group and Parent Company.

	Consoli	dated	Parent		
	2023	2022	2023	2022	
Capital Measure	₱53,605,767	₱48,093,700	₱47,440,308	₱43,156,395	
Divided by: Exposure measure	488,649,026	440,420,360	457,667,491	417,844,497	
Leverage ratio	10.97%	10.92%	10.37%	10.33%	

Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR)

The NSFR seeks to limit the overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on- and off-balance sheet accounts. It complements the LCR, which promotes short term resilience of a Bank's liquidity profile. The minimum LCR and NSFR requirement should be no lower than 100% at all times on both Group and Parent Company.

Balance at the beginning of the year	2,249,975,411	2.249.975.411	2,249,975,411	22,499,754	22,499,754	22,499,754
Issuance of stock dividends	_,_ ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,			-	-	
Balance at the end of the year	2,249,975,411	2,249,975,411	2,249,975,411	22,499,754	22,499,754	22,499,754

With the approvals by the PSE of the Parent Company's application for listing and by the SEC for the Registration Statement both on March 14, 2012, a total of 245,316,200 common shares, with ₱10.00 par value per share, representing 21.70% of outstanding capital stock, were offered and subscribed through an initial public offering at ₱18.50 per share on April 20 to 26, 2012. The common shares comprise of (a) 141,056,800 new shares issued by the Parent Company by way of a primary offer, and (b) 104,259,400 existing shares offered by FDC, the selling shareholder, pursuant to a secondary offer. Subsequently, on September 5, 2012, 36,715,300 shares under the overallotment option were exercised at a price of ₱18.50 per share that brought the subscriptions to 25.00% of the outstanding capital stock. The Parent Company's common shares were listed and commenced trading in the PSE on May 7, 2012.

The preferred shares are perpetual non-voting and non-convertible to common shares. The dividends of the preferred shares shall be non-cumulative and to be fixed by the BOD at an annual dividend rate prior to the date of issue.

The total proceeds raised by the Parent Company from the sale of primary offer shares amounted to ₱2.61 billion while the net proceeds (after deduction of direct costs related to equity issuance) amounted to ₱2.39 billion.

On February 1, 2019, the BSP approved the following amendments to the Parent Company's Articles of Incorporation, which were approved and confirmed by the Parent Company's BOD at its special meeting on July 13, 2017, to provide flexibility for future capital requirements:

- a. Increase of the Parent Company's authorized capital stock from ₱20.00 billion to ₱50.00 billion consisting of 4.50 billion common shares with par value of ₱10.00 per share or a total par value of ₱45.00 billion and ₱0.50 billion preferred shares with par value of ₱10.00 per share or a total par value of ₱5.00 billion.
- b. Declaration of 50.00% stock dividends equivalent to ₱7.50 billion from the Parent Company's unrestricted retained earnings as of December 31, 2016 to meet the required subscribed and paid amount of capital stock per Corporation Code after the increase in the authorized capital of the Parent Company. The increase in the Parent Company's authorized capital stock and stock dividend declaration were subsequently approved by BSP on September 29, 2017 and by SEC on February 28, 2019.

On April 16, 2018, a total of 749,991,801 common shares were listed at the PSE.

The portion of the Parent Company's retained earnings pertaining to the accumulated earnings of the subsidiaries amounting to ₱7.21 billion and ₱5.77 billion as of December 31, 2023 and December 31, 2022, respectively, are not available for dividend declaration until declared as dividends by subsidiaries.

In 2019, upon the full adoption of PFRS 9, the BSP through BSP Circular No. 1011 has required the appropriation for the difference of the 1.00% general loan loss provision over the computed ECL related to Stage 1 accounts. As of December 31, 2022 and 2021, the computed ECL related to Stage 1 accounts is sufficient to cover the 1.00% general loan loss provision required by BSP on Stage 1 accounts.

### Cash Dividend

Eastwest Bank declared on April 24, 2023 cash dividends amounting to ₱922.5 million. This was equivalent to Php 0.41 per share and paid last May 31, 2023 to all stockholders of record as of May 12, 2023.

In 2022, Eastwest Bank declared and paid cash dividends amounting to ₱899.99 million. This is equivalent to Php 0.40 per share, paid last May 31, 2022 to all stockholders of record as of May 11, 2022.

### 24. Income and Expenses

### Service charges, fees and commissions

Service charges include late payment charges, pre-termination fees on loans and service charges on deposit taking-related transactions. Fees and commissions include credit card membership fees, bancassurance fees, interchange fees, merchant discounts and other commissions.

For the periods ended December 31, 2023, 2022 and 2021, this account consists of:

Others include payments for subscriptions, membership fees, trainings, donations and contributions, delivery and freight expenses, and clearing fees.

#### 25. Income and Other Taxes

Under Philippine tax laws, the RBU of the Parent Company and its subsidiaries are subject to percentage and other taxes (presented as 'Taxes and licenses' in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax and documentary stamp taxes. Income taxes include corporate income tax, as discussed below, and final taxes paid which represents final withholding tax on gross interest income from government securities and other deposit substitutes and income from FCDU transactions. These income taxes, as well as the deferred tax benefits and provisions, are presented as 'Provision for income tax' in the statements of income.

Current tax regulations also provide for the ceiling on the amount of entertainment, amusement and recreation (EAR) expense that can be claimed as a deduction against taxable income. Under the regulations, EAR expense allowed as a deductible expense is limited to the actual EAR paid or incurred but not to exceed 1.00% of the Parent Company's net revenue..

FCDU offshore income (income from non-residents) is tax-exempt while gross onshore income (income from residents) is generally subject to 10.00% gross income tax. In addition, interest income on deposit placements with other FCDUs and offshore banking units is taxed at 15.00%. RA No. 9294, which became effective in May 2004, provides that the income derived by the FCDU from foreign currency transactions with non-residents, Offshore Banking Units (OBUs), local commercial banks including branches of foreign banks is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% income tax.

The following are the key changes to the Philippine tax law pursuant to the CREATE Bill (which was signed into law on March 26, 2021) which have an impact on the Bank.

- Effective July 1, 2020, regular corporate income tax (RCIT) rate is reduced from 30% to 25% for domestic and foreign corporations. For domestic corporations with net taxable income not exceeding Php5 million and with assets not exceeding Php100 million (excluding land on which the business entity's office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%.
- The allowable deduction for interest expense was reduced 20% (previously 33%) of the interest income subjected to final tax.
- Minimum corporate income tax (MCIT) rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023.
- Imposition of improper accumulated earnings tax (IAET) is repealed.

A Minimum corporate income tax (MCIT) of 1.00% (as amended by CREATE Bill) of modified gross income is computed and compared with the RCIT. Any excess of MCIT over the RCIT is deferred and can be used as a tax credit against future income tax liability for the next three years. In implementation of CREATE In addition, NOLCO is allowed as a deduction from taxable income in the next three years from the period of incurrence. For the taxable years 2022 and 2021, the NOLCO incurred can be carried over as a deduction for the next five (5) consecutive taxable years, pursuant to Revenue Regulations No. 25-2021

### Revenue Regulations No. 4-2011

On May 10, 2022, the SC released its decision promulgated on 01 December 2021 on the petition for certiorari of the Department of Finance (DOF) and Bureau of Internal Revenue (BIR) seeking for annulment of an order of the Regional Trial Court (RTC) Branch 57 in Makati City that declared Revenue Regulations No. 4-2011 null and void

Provision for income tax consists of:

	1	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021

### 26. Retirement Plan

The existing regulatory framework, RA No. 7641, the *Retirement Pay Law* requires companies with at least ten (10) employees to pay retirement benefits to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

#### Parent Company

The Parent Company has a funded, non-contributory defined benefit retirement plan (the Plan) covering substantially all of its officers and regular employees. Under the Plan, all covered officers and employees are entitled to cash benefits (equivalent to a certain percentage of final salary for every year if service depending on the tenure of the employee) certain age and service requirements. The Parent Company's retirement plan is in the form of a trust administered by the Parent Company's Trust Division under the supervision of the Retirement Committee.

### **EWRB**

The Bank provided a noncontributory defined benefit plan covering substantially all regular and full-time employees, provided he is not more than age sixty (60) at the time of appointment. The retirement plan provides retirement benefits equal to 100.00% of the final monthly salary for every year of service.

In 2018, changes in the terms on how the benefits will be valued were implemented. The Bank introduced a defined benefit plan which provides a lump sum benefit based on final salary and years of service, subject to certain eligibility conditions. For normal retirement and late retirement, eligibility starts at the age of 60 and 65 with benefits amounting to a 100.00% and 150.00% of final monthly salary per year of continuous service, for less than 10 years and 10 years above, respectively. However, for early retirement, eligibility starts at the age of 50 but with at least 10 years of continuous service or more, subject to Bank's approval.

#### QMIS

QMIS does not have a formal retirement plan. As such, QMIS's retirement liability is based on the requirement of RA No. 7641. For purposes of calculating the retirement liability under RA No. 7641, QMIS obtained an actuarial valuation.

The amounts of net retirement obligation presented under "Other liabilities" in the statements of financial position are presented below:

	Consoli	dated	Parent Company	
	2023	2022	2023	2022
Present value of the defined benefit obligation	₱1,867,091	₱1,644,794	₱1,780,669	₱1,584,236
Less: Fair value of plan assets	1,284,161	1,118,935	1,218,379	1,059,019
Net retirement obligation (Note 21)	₱582,930	₱525,859	₱562,290	₱525,217

Changes in the present value of the defined benefit obligation as of December 31, 2023 and 2022 recognized in the statements of financial position follow:

	Consolidated		Parent C	ompany
	2023	2022	2023	2022
Balance at beginning of year	₱1,644,79 <b>4</b>	₱1,453,451	₱1,584,236	₱1,390,185
Current service cost	166,923	154,199	158,099	143,801
Interest cost	115,069	70,389	110,738	67,285
Remeasurement (gains) losses:				
Actuarial losses arising from				
deviations of experience from assumptions	(53,999)	153,493	(58,528)	143,968
Actuarial losses (gains) arising from changes in				
financial assumptions	128,976	(29,198)	117,996	(7,119)
Benefits paid	(134,672)	(157,540)	(131,872)	(153,884)
Balance at end of year	₱1,867,091	₱1,644,794	₱1,780,669	₱1,584,236

Changes in the fair value of plan assets are as follows:

	Consolida	ted	Parent Company	
	2023	2022	2023	2022
Balance at beginning of year	₱1,118,935	₱1,230,498	₱1,059,019	1,174,992
Contributions	202,319	163,341	194,812	154,217
Interest income	78,309	59,584	74,025	56,869
Remeasurements	19,271	(176,948)	22,395	(173,175)
Benefits paid	(134,673)	(157,540)	(131,872)	(153,884)
Balance at end of year	₱1,284,161	₱1,118,935	₱1,218,379	₱1,059,019

The fair value of plan assets by class are as follows:

	Consolidated		Parent Com	pany
	2023	2022	2023	2022
Cash and cash equivalents	₱450,059	₱326,440	₱449,102	₱325,510
Equity instruments:				
Financial services	726,168	655,930	661,343	596,944
Real estate	5,001	5,001	5,001	5,001
Debt instruments:				
Government securities	71,524	68,853	71,524	68,853
Private securities	29,947	60,994	29,947	60,994
Others	1,462	1,717	1,462	1,717
Fair value of plan assets	₱1,284,161	₱1,118,935	₱1,218,379	₱1,059,019

The Parent Company's plan assets are carried at fair value. The fair value of investments in equity and debt securities are based on quoted price in the active market. The fair value of other assets and liabilities, which include deposits in banks, accrued interest and other receivables, and trust fee payables, approximate their carrying amounts due to the short-term nature of these accounts.

The plan assets are diversified investments and are not exposed to concentration risk.

Each year, an Asset-Liability Matching Study (ALMS) is performed with the result being analyzed in terms of risk-and-return profiles. As of December 31, 2023 and 2022, the Parent Company's investment strategy consists of 54.00% of equity instruments, 8.00% of debt instruments and 37.00% cash and 59.00% of equity instruments, 11.00% of debt instruments, and 29.00% cash, respectively. The Parent Company expects to contribute ₱234.3 million to the plan in 2024.

The cost of defined benefit retirement plans as well as the present value of the benefit obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used are shown below:

	Parent Co	mpany	EWR	В	QMIS		Group	
_	2023	2022	2023	2022	2023	2022	2023	2022

### 27. Leases

#### Group as a Lessee

The Group leases several premises occupied by its head office and branches. Some leases are subject to annual escalation of 5.00% to 10.00% and for periods ranging from 5 to 15 years, renewable upon mutual agreement of both parties.

Shown below is the maturity analysis of the undiscounted lease payments as of December 31, 2023 and 2022:

	Consolidated		Parent Cor	npany
	2023	2022	2023	2022
Within one year	₱1,190,790	₱976,317	₱1,163,794	₱964,269
After one year but not more than five years	3,639,853	2,691,738	3,448,009	2,484,233
More than five years	3,184,228	1,994,072	3,176,109	1,940,990
	₱8,014,871	₱5,662,127	₱7,787,912	₱5,389,492

As of December 31, 2023 and 2022, the carrying amount of lease liabilities are as follows:

	Consolidated		Parent Con	npany
	2023	2022	2023	2022
Balance at beginning of the year	₱4,378,945	₱3,106,320	<b>₱</b> 4,107,058	₱2,791,079
Additions	2,422,969	2,125,913	2,365,221	2,076,488
Payments and terminations	(1,066,269)	(1,093,642)	(948,236)	(980,866)
Accretion of interest	337,696	240,354	321,122	220,357
	₱6,073,341	₱4,378,945	₱5,845,16 <b>5</b>	<b>₱</b> 4,107,058

In 2023, 2022 and 2021, the interest expense on lease liabilities of the Group (included in 'Interest expense' in the statements of income) amounted to ₱337.70 million, ₱240.35 million, ₱219.64 million, respectively. Rent expense from short-term leases and leases of low-value assets of the Group amounted to ₱368.42 million, ₱258.41 million, ₱259.72 million in 2023, 2022 and 2021, respectively.

In 2023, 2022 and 2021, the interest expense on lease liabilities of the Parent Company (included in 'Interest expense' in the statements of income) amounted to ₱321.12 million, ₱220.36 million, ₱191.56 million, respectively. Rent expense from short-term leases and leases of low-value assets of the Parent Company amounted to ₱361.69 million, ₱256.43 million, ₱271.86 million in 2023, 2022, and 2021 respectively.

### Group as a Lessor

The Group property leases consist of the Group's available office space and lease agreements of machinery and equipment which are non-cancelable with lease terms between 5 to 10 years.

Future minimum rentals receivable under non-cancellable operating leases of the Group and the Parent Company follow:

	2023	2022
Within one year	₽42,120	₽40,911
After one year but not more than five years	117,676	49,555
More than five years	-	7,542
	₽159,796	₽98,008

In 2023, 2022 and 2021, the Group and Parent Company rental income amounted to ₱48.45 million, ₱47.08 million, ₱47.61 million, respectively. As of December 31, 2023 and 2022, the Group and Parent Company has no contingent rental income.

### 28. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- key management personnel, close family members of key management personnel, and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members;
- subsidiaries, joint ventures and associates and their respective subsidiaries; and
- post-employment benefit plans for the benefit of the Group's employees.

The Group has several business relationships with related parties. Transactions with such parties are made in the ordinary course of business.

The amounts and the balances arising from significant related party transactions of the Group and of the Parent Company are as follows:

		2023	
Category	Amount/ Volume	Outstanding Balance	Terms and Conditions/Nature
Significant investors:			
			Loans granted with a term of five years,
Loans receivable	₱–	₱4,842,800	interest of 4.75%, secured with deposit
Releases			holdout, current and not impaired
Collection	_		
			Earns interest at the respective bank
Deposit liabilities		3,301,196	deposit rates

The Group's significant investors pertain to FDC, the immediate Parent Company of the Group, and FDC Forex Corporation (a company under common control of FDC).

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly. The Group considers the members of the Management Committee to constitute key management personnel for purposes of PAS 24, *Related Party Disclosures*. The Group provides banking services to its key management personnel.

Other related parties pertain to the Group's affiliates (subsidiaries of FDC).

The Group and the Parent Company had no outright purchases and outright sale of debt securities with significant shareholders and key management personnel in 2023, 2022 and 2021.

The Parent Company's subsidiaries have no transactions with related parties outside of the Group. The transactions disclosed above are the same for the Group and the Parent Company. Parent Company Related Party Transactions

Transactions between the Parent Company and its subsidiaries meet the definition of related party transactions. Details of the Parent Company's subsidiaries are disclosed in Note 10.

In addition to the transactions discussed above, the following are the transactions between the Parent Company and its subsidiaries that are recognized in the Parent Company's statements of financial position and statements of income and eliminated in the consolidated financial statements:

### Transactions with Retirement Plans

Under PFRS, certain post-employment benefit plans are considered as related party transactions. The Parent Company's retirement plan is in the form of a trust administered by the Parent Company's Trust Division under the supervision of the Retirement Committee.

The values of the assets of the fund are as follows:

	2023	2022
Cash and cash equivalents	₱450,032	₱326,440
Equity instruments	731,196	660,931
Debt instruments	101,471	129,847
Others	1,462	1,717
	₱1,284,161	₱1,118,935

The following are the amounts recognized by the retirement plan arising from its transactions with the Parent Company for the years ended December 31, 2023, 2022 and 2021.

	2023	2022	2021
Trust fees	₱3,524	₱3,490	₱3,508
Interest income on deposit liabilities	2,746	1,213	453
Interest income on debt securities	6,162	6,825	7,425
Gain (loss) on investments in equity			
shares	87,315	(104,368)	(53,053)

### Remunerations of Directors and other Key Management Personnel

Total remunerations of key management personnel are as follows:

	Consolidated		Parent Company			
	2023	2022	2021	2023	2022	2021
Short-term employee benefits	₱334,404	₱280,924	₱245,576	₱303,943	₱221,361	₱224,658
Post-employment benefits	16,321	59,120	6,847	16,321	59,120	6847
	₱350,725	₱340,044	₱252,423	₱320,264	₱280,481	₱231,505

Remunerations given to directors which were approved by the Board Remuneration Committee amounted to ₱26.32 million in 2023, ₱22.94 million in 2022, ₱21.54 million in 2021 for the Group and the Parent Company.

### 29. Trust Operations

Securities and other properties held by the Parent Company in fiduciary or agency capacity for clients and beneficiaries are not included in the accompanying statements of financial position since these are not assets of the Parent Company. The combined trust and managed funds of the Trust Department of the Parent Company amounted to \$\mathbb{P}61.53\$ billion billion and \$\mathbb{P}52.42\$ billion as of December 31, 2023 and 2022, respectively.

Government securities with total face value of ₱610.00 million and ₱540.00 million as of December 31, 2023 and 2022, respectively, are deposited with the BSP in compliance with current banking regulations related to the Parent Company's trust functions. These government securities are recorded as part of investment securities at FVTPL and at amortized cost as of December 31, 2023 and 2022, respectively.

In accordance with BSP regulations, 10.00% of the profits realized by the Parent Company from its trust operations are appropriated to surplus reserves. The yearly appropriation is required until the surplus reserves for trust operations amounts to 20.00% of the Parent Company's authorized capital stock.

The Parent Company's income from its trust operations amounted to ₱126.73 million, ₱121.23 million, ₱99.83 million in 2023, 2022 and 2021, respectively. For the years ended December 31, 2023, 2022 and 2021, the Parent Company appropriated ₱12.67 million, ₱12.12 million, ₱9.98 million, respectively.

### 30. Commitments and Contingent Liabilities

In the normal course of the Group's operations, there are various outstanding commitments and contingent liabilities which are not reflected in the accompanying financial statements. The Group does not anticipate material unreserved losses as a result of these transactions.

The Group has several loan related suits, assessments or notices, and claims that remain unsettled. It is not practicable to estimate the potential financial impact of these contingencies. However, in the opinion of management, the suits and claims, if decided adversely, will not involve sums having a material effect on the Group's financial statements.

### Commitments and Contingencies

The following is a summary of commitments and contingencies of the Parent Company at their pesoequivalent contractual amounts arising from off-balance sheet items:

	2023	2022
Unused credit lines	₱190,658,891	₱146,356,010
Trust department accounts (Note 29)	61,529,662	52,422,147
Broker customer securities	40,840,802	36,862,504
Spot exchange sold	11,991,023	3,539,459
Forward exchange sold	7,640,848	18,762,151
Forward exchange bought	4,721,303	8,028,431
Spot exchange bought	3,978,326	3,206,847
Unused commercial letters of credit	3,509,978	3,452,146
Inward bills for collection	512,802	618,142
Outstanding guarantees	496,103	618,749
Treasurer/cashier/manager's checks	461,311	138,621
Late deposits/payments received	8,103	7,358
Outward bills for collection	4,398	9,486
Items held for safekeeping	934	1,035
Others	167	159

#### 31. Financial Performance

Earnings per share amounts were computed as follows:

		2023	2022	2021
a.	Net income attributable to equity			
	holders of the Parent Company	₱6,083 <b>,</b> 296	₱4,625,325	₱4,515,036
b.	Weighted average number of			
	outstanding common shares by			
	the Parent Company, including			
	effect of stock dividends issued			
	in 2019 (Note 23)	2,249,975	2,249,975	2,249,975
c.	Basic and diluted EPS (a/b)	2.70	₱2.06	₱2.01

The Group's basic and diluted earnings per share are equal as there are no potential dilutive shares outstanding.

### 32. Offsetting of Financial Assets and Liabilities

PFRS 7 requires the Group to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments subject to enforceable master netting agreements or similar arrangements. The effects of these arrangements are disclosed in the succeeding tables.

Unsecured subordinated debt

Lower Tier 2 unsecured subordinated notes due 2027

On February 20, 2017, EWRB issued 5.50% coupon rate Lower Tier 2 unsecured subordinated note (the 2027 Notes) with par value of ₱1.25 billion, maturing on August 20, 2027 but callable on August 20, 2022.

Unless the 2027 Notes are previously redeemed, the 2027 Notes are repayable to the Noteholders at 100.00% of their face value or at par on the maturity date of August 20, 2027.

From and including the issue date to, but excluding the optional redemption date of August 20, 2022, the 2027 Notes bear interest at the rate of 5.50% per annum and shall be payable quarterly in arrears on February 20, May 20, August 20, and November 20 of each year, which commenced on February 20, 2017. Unless the 2027 Notes are previously redeemed, the interest rate will be reset at the equivalent of the prevailing 5-year BVAL at reset date plus initial spread (i.e., the difference between the initial interest rate and the prevailing 5-year BVAL at the pricing date of the initial tranche), commencing on August 20, 2022.

The 2027 Notes are redeemable at the option of EWRB, in whole but not in part, on the call option date at 100.00% of the face value plus accrued but unpaid interest, subject to the following conditions:

- a) EWRB has obtained prior written approval and complied with the requirements of the BSP prior to redemption of the 2027 Notes;
- b) the 2027 Notes are replaced with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of EWRB, or EWRB demonstrates that its capital position is above the minimum capital requirements after redemption is exercised;
- EWRB is not in breach of (and would not, following such redemption, be in breach) of applicable regulatory capital requirements (including regulatory capital buffers);
- d) EWRB is solvent at the time of redemption of the 2027 Notes and immediately thereafter.

Furthermore, upon the occurrence of a Tax Redemption Event or a Regulatory Redemption Event, the EWRB may, subject to compliance with BSP rules and BSP approval, and upon prior approval of the BSP and with prior written notice to the Noteholders on record, redeem all and not less than all of the outstanding 2027 Notes prior to the stated maturity by paying the Noteholder the Redemption Option Amount which, (a) in the case of a Tax Redemption Event is an amount equal to 100.00% of the face value of the 2027 Notes plus accrued interest at the interest rate relating to the then current interest period up to but excluding the date of such redemption, and (b) in the case of a Regulatory Redemption Event is an amount equal to 100.00% of the face value of the 2027 Notes plus accrued interest at the interest rate relating to the then current Interest Period up to but excluding the date of such redemption (the "Redemption Option Date").

The 2027 Notes have a loss absorption feature which means that the 2027 Notes are subject to a Non-Viability Write-Down in case of a Non-Viability Event. Non-viability is defined as a deviation from a certain level of Common Equity Tier 1 (CET1) Ratio or inability of the EWRB to continue business (closure) or any other event as determined by the BSP, whichever comes earlier. A Non-Viability Event is deemed to have occurred when EWRB is considered non-viable as determined by the BSP.

Upon the occurrence of a Non-Viability Event, EWRB shall write-down the principal amount of the 2025 Notes to the extent required by the BSP, which could go to as low as zero. Additional Tier 1 (AT1) capital instruments shall be utilized first before Tier 2 capital instruments are written-down, until the viability of the Issuer is re-established. In the event EWRB does not have AT1 capital instruments, then the write-down shall automatically apply to Tier 2 capital.

Loss absorption feature is subject to the following conditions:

- a) the principal amount of all series of Tier 1 Loss Absorbing Instruments outstanding having been Written-Down to zero or converted into common equity of EWRB (where possible) irrevocably, in accordance with, and to the extent possible pursuant to, their terms (the "Tier 1 Write-Down");
- b) the Tier 1 Write-Down having been insufficient to cure the Non-Viability Event;
- c) EWRB giving the relevant Non-Viability Notice to the Public Trustee and the Registrar and Paying Agent.

Each Noteholder irrevocably agrees and acknowledges that it may not exercise or claim any right of set-off in respect of any amount owed to it by EWRB arising under or in connection with the 2027 Notes and it shall, to the fullest extent permitted by applicable law, waive and be deemed to have waived all such rights of set-off.

On June 24, 2022, the EWRB's Board of Directors unanimously approved under Resolution No. 002-007 EWRB 2022 the exercise of the Call Option for TIER2 on August 22, 2022. Issued principal is 1.25 Billion at 5.5% coupon rate with 385 noteholders. On August 1, 2022, BSP approved the exercise of the call option. Redemption date was on August 20, 2022 and was settled on August 22, 2022.

### Significant credit exposures as to industry/economic sector

<sup>\*</sup>Consists of government securities, corporate bonds, shares of stock, hold-out on deposits, assignment of receivables etc.

### Breakdown of total loans as to status

BSP Circular No. 351 allows banks to exclude from non-performing classification receivables classified as 'Loss' in the latest examination of the BSP which are fully covered by allowance for credit losses, provided that interest on said receivables shall not be accrued and that such receivables shall be deducted from the total receivable portfolio for purposes of computing NPLs. Subsequently, the BSP issued BSP Circular No. 772, which requires banks to compute their net NPLs by deducting the specific allowance for credit losses on the total loan portfolio from the gross NPLs. The specific allowance for credit losses shall not be deducted from the total loan portfolio in computing the NPL ratio.

As of December 31, 2023 and 2022, NPLs of the Group and of the Parent Company as reported to the BSP follow:

_	Consolidated		Parent Company	
	2023	2022	2023	2022
Gross NPLs	₱16,362,581	₱19,196,209	₱14,621,911	₱17,506,941
Less NPLs fully covered by allowance for credit				
losses	(6,021,421)	(7,381,276)	(5,618,842)	(7,167,351)
	₱10,341,160	₱11,814,932	₱9,003,069	₱10,339,590

As of December 31, 2022 and 2021, secured and unsecured NPLs of the Group and of the Parent Company as reported to the BSP follow:

	Consolidat	Consolidated		ompany
	2023	2022	2023	2022
Secured	₱8,363,742	₱10,494,625	₱8,307,621	₱10,431,213
Unsecured	7,998,839	8,701,583	6,314,290	7,075,728
	₱16,362,581	₱19,196,209	₱14,621,911	₱17,506,941

#### Information on Related Party Loans

As required by BSP, the Group discloses loan transactions with investees and with certain directors, officers, stockholders and related interests (DOSRI). Existing banking regulations limit the amount of individual loans to DOSRI, 70.00% of which must be secured, to the total of their respective deposits and book value of their respective investments in the lending company within the Group. In the aggregate, loans to DOSRI generally should not exceed total equity or 15.00% of total loan portfolio, whichever is lower.

BSP Circular No. 423 dated March 15, 2004 amended the definition of DOSRI accounts. The following table shows information relating to the loans, other credit accommodations and guarantees classified as DOSRI accounts under regulations existing prior to said Circular, and new DOSRI loans, other credit accommodations granted under said circular:

_	Consolidated		Parent Company			
	2023	2022	2022	2023	2022	2021
Total outstanding DOSRI loans	₱12,299,080	₱13,510,710	₱11,600,943	₱12,299,080	₱13,510,710	₱11,600,484
Percent of DOSRI loans to total loans	4.143%	5.23%	5.37%	4.581%	5.66%	6.08%
Percent of unsecured DOSRI loans to total DOSRI loans	0.04%	0.04%	0.20%	0.04%	0.04%	0.20%
Percent of past due DOSRI loans to total DOSRI loans	0.000%	0.00%	0.00%	0.000%	0.00%	0.00%
Percent of nonperforming DOSRI loans to total DOSRI loans	0.000%	0.00%	0.00%	0.000%	0.00%	0.00%

	Consolidated		P	Parent Company		
_	2023	2022	2021	2023	2022	2021
Total outstanding Related Party loans (inclusive of DOSRI loans)	₱12,440,264	₱14,137,783	₱11,691,489	₱12,440,264	₱14,137,783	₱11,691,489
Percent of Related Party loans to total loans	4.190%	5.47%	5.41%	4.634%	5.92%	6.12%
Percent of unsecured Related Party loans to total Related Party Loans	0.650%	0.48%	0.67%	0.650%	0.48%	0.67%
Percent of past due Related Party Loans to total Related Party Loans	0.000%	0.00%	0.00%	0.000%	0.00%	0.00%
Percent of nonperforming Related Party Loans to total Related Party Loans	0.000%	0.00%	0.00%	0.000%	0.00%	0.00%

The amounts of loans disclosed for related parties above differ with the amounts disclosed for key management personnel since the composition of DOSRI is more expansive than that of key management personnel.

BSP Circular No. 560 provides that the total outstanding loans, other credit accommodation and guarantees to each of the Parent Company's/quasi-Parent Company's subsidiaries and affiliates shall not exceed 10.00% of the net worth of the lending bank/quasi-bank, provided that the unsecured portion of which shall not exceed 5.00% of such net worth. Further, the total outstanding loans, credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed 20.00% of the net worth of the lending bank/quasi-bank; and the subsidiaries and affiliates of the lending bank/quasi-bank are not related interest of any director, officer and/or stockholder of the lending institution, except where such director, officer or stockholder sits in the BOD or is appointed officer of such corporation as representative of the bank/quasi-bank.

On May 12, 2009, BSP issued Circular No. 654 allowing a separate individual limit of twenty-five (25.00%) of the net worth of the lending bank/quasi-bank to loans of banks/quasi-banks to their subsidiaries and affiliates engaged in energy and power generation.

### Aggregate amount of secured liabilities and assets pledged as security

As of December 31, 2023, SSURA amounting to ₱14.66 billion are secured by a pledge investment securities at amortized cost with face value of \$\mathbb{P}\$17.69 billion and fair value of \$\mathbb{P}\$17.20 billion.

As of December 31, 2022, SSURA amounting to \$\mathbb{P}\$6.71 billion are secured by a pledge investment securities at amortized cost with face value of \$\mathbb{P}\$18.23 billion and fair value of \$\mathbb{P}\$15.20 billion.

### 37. Supplementary Information Required Under Revenue Regulations No. 15-2010

On November 25, 2010, the BIR issued Revenue Regulations No. 15-2010, requiring the inclusion of information on various taxes paid and accrued during the taxable year in the notes to the financial statements.

The Parent Company reported and/or paid the following types of taxes for the year ended December 31, 2023:

#### Gross Receipts Tax

The Parent Company is subject to gross receipt tax on its gross income from Philippine sources. Gross receipt tax is imposed on interest, commissions, and discounts from lending activities at 5.00% or 1.00%, depending on the remaining maturities of instruments from which such receipts are derived, and at 7.00% on non-lending fees and commissions, net trading and foreign exchange gains and other items constituting gross income.

In FCDU, income classified under 'All Other', which is subject to corporate income tax is also subject gross receipt tax at 7.00%.

Details of the Parent Company's income and gross receipt tax accounts in 2023 are as follows:

		Gross
	Gross Receipts	Receipts Tax
Income derived from lending activities	₱29,885,213	₱1,358,328
Other income	2,976,995	208,389
	₱32,862,208	₱1,566,717

#### Other Taxes and Licenses

This includes all other taxes, local and national, incurred in 2023 and presented under in the statement of income, as follows:

Documentary stamps taxes	<b>₱</b> 377,399
Local taxes, permits and fees	78,916
Fringe benefit taxes	26,823
Others	23,929
	<b>₱</b> 507,067

### Withholding Taxes

Details of withholding taxes remitted and balances as of December 31, 2023 follow:

	Total	
	Remittances	Balance
Withholding taxes on compensation and benefits	₱754,522	₱36,999
Expanded withholding taxes	247,001	30,324
Final withholding taxes	741,574	67,347
	₱1,743,097	₱134,670

The Parent Company has no outstanding assessments from the BIR as of December 31, 2023.

#### Tax Assessments and Cases

As of December 31, 2023, the Parent Company has no deficiency tax assessment and has no tax cases, litigation and/or prosecution in courts or bodies outside the BIR.

The 2023 Annual and Sustainability Report features forward-looking statements regarding upcoming events and expectations. Such statements may include references to the Bank, its management, or other similar terms. Likewise, any statements detailing the Bank's objectives, plans, or goals are also considered forward-looking.

It's important to note that these statements carry inherent risks and uncertainties, both known and unknown, which could cause actual outcomes to differ significantly from what these forward-looking statements suggest.

These forward-looking statements are based on the current beliefs or expectations of the management, coupled with assumptions and information available to them at present. They are valid only as of the date of this report. Nothing within this report should be interpreted as a guarantee or representation of future outcomes.

This report does not serve as a prospectus or offering memorandum, either in its entirety or partially. Furthermore, it does not present an offer to sell or a solicitation to buy any securities of the Bank. The sale of these securities is prohibited in any state or jurisdiction where such an offer, solicitation, or sale would be considered unlawful without prior qualification under the respective securities laws of that state or jurisdiction.

This report has not been and will not be reviewed by any statutory or regulatory authority, or any stock exchange in the Philippines, or elsewhere. Those who receive this report are urged to conduct their own evaluation with regard to investing in the Bank. They should seek independent advice regarding the appropriateness, risks, and merits of any such investment, as well as any potential tax, legal, and accounting implications it might entail for them.

### **Anti-Money Laundering**

We view current anti-money laundering (AML) policies as an opportunity to enhance our vigilance and deepen our understanding of our customers. We remain committed to complying with the provisions of the Anti-Money Laundering Act (AMLA), with our Compliance Division overseeing its comprehensive implementation.

Our AML program continues to be strengthened, particularly in transaction monitoring. We kept abreast of news and developments in the market that could create huge reputational risks apart from actual financial damage.

We take pride in having 100% awareness of our AML policy in our ranks, as it is a foundational training course for each member of the organization. Even those not in the frontlines are required to take the course to know the basic rules and protect the business.

At EastWest, specialized AML courses and briefings are conducted in our stores during service and sales clinics. These sessions reinforce proper client identity processes from onboarding to continuous monitoring of account activity, along with all other controls that protect us against unlawful activity.

## Selection and Remuneration Policy for Senior Management

The selection of our Senior Management undergoes a rigorous evaluation process. Candidates are assessed by the Talent Management Manager, relevant Business or Functional Group Head, and the Group Head of HR. This evaluation is based on established standards and parameters including knowledge, expertise, required competencies, integrity, probity, experience, and training. Additionally, the candidate's values are compared with those upheld by the Bank.

Candidates who meet the selection criteria are then endorsed for final assessment and hiring approval by the CEO and the Chairman. While we do not have a separate remuneration policy for Senior Management, we adhere to a Rewards Philosophy applicable to all EastWestbankers. This philosophy supports a high-performing culture that promotes and rewards performance, and recognizes potential through comprehensive rewards programs. These programs include competitive pay policies and essential benefits to meet personal needs and support family requirements.

The EastWest philosophy aims to implement differentiated rewards based on performance, potential, and job criticality. This approach ensures we remain competitive, particularly for talents with high potential, consistent superior performance, and those in critical roles.

### Retirement of Senior Officers

The retirement age is generally the same as with all other bonafide EastWestbankers as embodied in

the EastWest Employees'
Retirement Plan. The normal
retirement date for our employees
is attainment of age 60 but there
may be cases that call for late
retirement, which we approve on a
case-by-case basis.

### **Dividend Policy**

Dividends may be declared from the surplus profits arising from the business of the Bank at such time and in such percentage as the BOD may deem proper. No dividends may be declared that will impair our capital. Stock dividends shall be declared in accordance with the law. The BOD has set 20% to 30% of earnings will be declared as dividends.

### **Related Party Transactions**

We have formulated and implemented policies and procedures to ensure the integrity and transparency of related party transactions (RPT) involving the Bank, our parent company, joint ventures, subsidiaries, affiliates, major stockholders, officers, directors, and relevant parties. Recognizing that these transactions may present potential conflicts of interest, we maintain them at arm's length, ensuring they receive no special favor or treatment.

The RPT Committee conducts periodic reviews of RPT policies and procedures, including materiality thresholds and internal limits, and endorses any necessary revisions for Board approval and confirmation by a majority vote of stockholders.

# Consumer Protection Program

EastWest's Board of Directors is responsible for approving and overseeing the implementation of the Bank's Consumer Protection Risk Management System (CPRMS) and Customer Assistance Mechanism (CAM), as well as monitoring and overseeing the performance of Senior Management in managing daily consumer protection activities.

To ensure adherence to the standards of conduct on Effective Course, the bank is committed to providing customers with accessible, affordable, independent, fair, accountable, timely, and efficient means of resolving complaints. EastWest has established Consumer Assistance Mechanism (CAM) Policies and Procedures, comprising the following components:

- a. Consistent regulatory definitions of "complaint," "request," and "inquiry";
- Standards and requirements for capturing, handling, and managing complaints, requests, and inquiries, including record-keeping, monitoring, and analysis;

- c. Effective categorization of complaints;
- d. Reporting complaints to Senior Management, the Board of Directors, and Regulators.

The CAM policy also delineates the corporate structure for handling complaints, specifying distinct roles and responsibilities:

- a. Customer Service: Assumes the duties of the Consumer Assistance Group (CAG) alongside the Complaints Management Unit.
- b. Complaints Management Unit: Leads the resolution of complaints on a daily basis.
- c. Customer Experience: Monitors the handling of consumer concerns and oversees the preparation and submission of related reports.
- d. Consumer Assistance Group (CAG) Head – Group Head of Customer Experience
- 1. Supervises the consumer assistance process.
- 2. Tracks and identifies trends in complaints, collaborating

with internal stakeholders to address major issues using complaints data.

- 3. Reports to Senior
  Management on the
  complaints received,
  including the causes,
  recommended solutions to
  prevent recurrence, and
  suggestions for process or
  personnel improvements.
- e. Customer Assistance Officer (CAO) – Frontline Personnel who Interfaces with the Customer
- 1. Complaint Handling and Resolution
- 2. Assessment and Analysis
- 3. Reporting and Feedback
